# Global Business Citizenship: A Transformative Framework for Ethics and Sustainable Capitalism

## A Transformative Framework for Ethics and Sustainable Capitalism

**Routledge** This practical and engaging book provides a coherent approach to global business responsibility and ethics based on the latest research, theory, and practice. The authors incorporate numerous interesting and current real world examples to support the argument that corporations need to - and can - identify and implement processes that foster ethical conduct, ensure basic human rights, protect the natural environment, and enhance social justice wherever businesses operate around the globe. "Global Business Citizenship" combines elements of political theory, stakeholder relationships, business ethics, corporate social performance, accountability and measurement, and organizational change. Its practical approach encompasses "best practices" in stakeholder management, experiments in applying corporate values to local conditions, and social environmental auditing and reporting. Focusing on the strategic alignment and change management process for implementing business citizenship principles and practices, it is an essential supplement for any course concerned with ethics and social responsibility in today's global business climate.

# Neo-Industrial Organising Renewal by Action and Knowledge Formation in a Project-intensive Economy

**Routledge Neo-Industrial Organising** explores an emerging area of importance in management and organisation studies, namely the trend towards a projectization of the economy as a whole and the inter- and intra-organisational relations of renewal projects. By reporting on the experiences of twenty-five renewal projects from a wide variety of both local and international organisations, the authors develop a theoretical framework based on action and knowledge, in order to answer such key questions as: What is neo-industrial management? What does the future hold for organisations? How will institutions be formed? What effects will neo-industrial organising have on the individual and his/her work situation? Topics covered include: \* industrial renewal, organisation and management \* project management and temporary organisation \* personnel recruitment, selection and training \* societal infrastructure Distinctive, relevant and accessibly written, this book will interest researchers and students in the field of organisational behaviour.
