HONDA ENGINE SWAPS

CarTech Inc When it comes to their personal transportation, today's youth have shunned the large, heavy performance cars of their parents' generation and instead embraced what has become known as the "sport compact"--smaller, lightweight, modern sports cars of predominantly Japanese manufacture. These cars respond well to performance modifications due to their light weight and technology-laden, high-revving engines. And by far, the most sought-after and modified cars are the Hondas and Acuras of the mid-'80s to the present. An extremely popular method of improving vehicle performance is a process known as engine swapping. Engine swapping consists of removing a more powerful engine from a better-equipped or more modern vehicle and installing it into your own. It is one of the most efficient and affordable methods of improving your vehicle's performance. This book covers in detail all the most popular performance swaps for Honda Civic, Accord, and Prelude as well as the Acura Integra. It includes vital information on electrics, fit, and drivetrain compatibility, design considerations, step-by-step instruction, and costs. This book is must-have for the Honda enthusiast.

101 PROJECTS FOR YOUR PORSCHE BOXSTER

Motorbooks Since its introduction in 1997, the Porsche Boxster has earned a reputation as one of the world's greatest sports cars, as well as a huge, loyal following of devoted drivers. This book is aimed at those owners of Boxsters who want to improve their machines while avoiding thousands of dollars in mechanic's costs. Clearly and simply written, with straightforward illustrations, this manual offers 101 projects to help you modify, maintain, and enhance your Porsche. Focusing on the 986 and 987 Boxster models, 101 Projects for Your Porsche Boxster presents all the necessary information, associated costs, and pitfalls to avoid when performing a wide array of projects. In a word, it makes owning a Porsche Boxster an unqualified thrill.

GEARBOX MAGAZINE

Createspace Independent Publishing Platform *Being a gearhead matters. Much as we love reading about the latest hypercar or money-no-object custom project, we believe vehicles owned - and loved - by gearheads like us are just as meaningful, if not moreso. Our readers are self-made. We buy vehicles for specific reasons and we learn how to maintain, modify, and repair them ourselves. (With a little help from our friends, of course!) Everyone you meet in an issue of Gearbox Magazine is cool. If you spotted them in a parking lot, you could walk right up to them and strike up a conversation. And chances are you might end up lifelong friends. We're not looking to get rich and forget our roots. We're trying to make a few bucks so we can spend more time helping gearheads build high performance machines & lives. This issue isn't perfect, but neither are our daily drivers. We hope you'll grab a copy and tell a couple friends about us. Thanks for checking us out. GBXM-united. Better living through busted knuckles.*

FERRARI FEVER

A LIFETIME COLLECTING, RESTORING AND RACING THE RAREST ITALIAN AUTOMOBILES

Ferrari Fever is a fascinating and nostalgic look back at the classic car collecting scene in the 60's and 70's, an era when some of the rarest and most interesting Italian automobiles could still be found hidden or languishing in barns, junkyards or by the side of the road...almost lost in time. Paul Schouwenburg's story begins in wartime occupied Amsterdam, a poignant backdrop to the hardships of the years to follow, when the appearance of any exotic Italian thoroughbred was a rare sight indeed. Fuelled by a fascination for all things mechanical, adventures on a Rudge bicycle and early experiences in his parents succession of Rovers, Paul gains a burning passion for finding, restoring, and ultimately racing Italian cars. But these were not just any Italian cars -from the early 60s onwards, he begins to uncover several rare Alfas, from 1900CSS Zagato to Tipo 33/2, in addition to a host of very special Ferraris, including a 250GTO, 340 America Touring, 250 MM Vignale Berlinetta, 250GT SWB Competition/61 and 275GTB/C/LM, usually by word of mouth or tenuous rumour. Having acquired them, often many different models at a time, he would drive them home across Europe through snow storms, and restore them single-handedly in his spare time, full-time job as a world-leading head and neck cancer surgeon permitting! If that wasn't exciting enough, he would then race them, often winning, before moving on to the next irresistible project. Filled with rich anecdotes and rare insights into the colourful characters of the day, including Jacques Swaters and Rob de la Rive Box, Paul's passion and incredible drive make for exciting reading. Indeed this is a unique take, a look in the rear view mirror at a bygone era when gems could be found incredibly cheaply and enthusiasts took seat-of-the-pants decisions regarding many aspects of a hobby which was uncharted, innocent and simply not as commercial as today he couldn't even give away his 250 GTO at the time!

MADemoiselle FIFI

Book Excerpt: ...n he returned quickly and closed the door behind him. All the Germans stood up and waited, their faces wreathed in childlike smiles of curiosity, and as soon as the explosion shook the Chateau, they hurried in all at once. Mademoiselle Fifi, who had been the first one to rush in, was deliriously clapping his hands in front of a terra cotta Venus, whose head at last had been blown off; and each picked up broken pieces of China, wondering at the strange indentation of the fragments, examining the new damage done, claiming that some of the damage had been caused by previous explosions. And the Major was contemplating, with a paternal look, the large salon upset by this Neronian firework and strewn with the debris of the objects of Art. He came out first, declaring good-

naturedly: "It was very successful this time!" But such a spout of smoke had invaded the dining-room, mixing with the smoke of tobacco, that it was impossible to breathe. The Commander opened the window, and all the officers, who ha...

It all started with Ayşe adopting the seed from one of the cherries she ate. Ayşe named it Seed Lili. The cherry seed was overjoyed and felt special when she got the name Lili. Now everyone would call her Lili, she would be known everywhere by that name. Ayşe kissed and loved her seed every day, and when the time came, she entrusted it to the bosom of the earth... As Seed Lili went from state to state to transform into a tree; loving, caring, and patience were necessary. This wonderful story of Mümine Yıldız and her little daughter Ayşe fills the hearts with crimson cherries... It invites us to a wonderful journey of discovery on endeavor, patience, love, friendship, fidelity and love of nature...

MINI DOWN UNDER

50 YEARS OF THE MINI IN NEW ZEALAND

Penguin Books *Mini Down Under traces the history of one of New Zealand's - and the world's - best-loved cars. More versions of the Mini were available in New Zealand than anywhere else, and the launching of the iconic car in February 1960 was a larger-than-life event. In this lively and personal story, the author tracks the Mini's life in New Zealand, the connection between Kiwi racing driver Bruce McLaren and the birth of the Mini Cooper, the heady days of competition success in the Antipodes, the local assembly and marketing of the classic original car and the eventual development into the latest generation Mini for a new century.*

SUCCESS MANIFESTO

Action is the foundational key to all success. Pablo Picasso What does it take to succeed? How can I succeed? These are the questions that have been asked over the years. One method of learning more is to review the Success Manifesto of those who have attained success in their fields. As we know, a manifesto is a public declaration of intentions, motives or views. In this book, the CelebrityExperts(R) herein share their experiences in their various fields. Like most readers, these authors began their missions at ground zero. As they progressed to success, they harnessed or developed many traits that they share. These traits typically include: a vision or chosen goal, perseverance, a knowledge of and passion for the subject, a willingness to take calculated risks, a plan, and the courage to take action. Regardless of the goals the authors have chosen, by using their ideas to mentor you, you can profit from their experiences, both positive and negative - thereby avoiding a loss of time and resources as you move closer to your own goal(s). So, are you ready? If you are, then go into action and start the process. Just think - one day you could write your own Success Manifesto It had long since come to my attention that people of accomplishment rarely sat back and let things happen to them. They went out and happened to things. Leonardo da Vinci

HOW TO TURBOCHARGE AND TUNE YOUR ENGINE

CreateSpace *This book should be considered an essential read for anyone looking to turbocharge his or her engine and get the best performance and reliability they can. Many would love to add the power of a turbo, but don't know where to start or what to buy. They instead pay thousands of dollars more to buy a "kit" that at times works, and many times doesn't. Many feel overwhelmed and lost in*

undertaking such a large project, but this book will be a guide with step-by-step descriptions through the process of turbocharging and tuning an engine. No hard to read terminology or theory, just the facts on what it will take to make lots of reliable power. Popular Topics found are: E85 vs Meth Injection Tuning ignition timing for boost How to select an intercooler Water to air vs Air to Air intercoolers How to select the right turbo Piggy back vs stand alone ECU's Turbo Manifold design including twin scroll Each chapter is filled with pictures and descriptions that will let the reader know exactly what they are looking for. This book is not filled with wordy descriptions just for the sake of adding pages and making the book thicker. Topics are covered directly and to the point. If you plan on owning a modified turbo car, or know someone who is, than consider this a must have book.

SMARTER FASTER BETTER

THE SECRETS OF BEING PRODUCTIVE IN LIFE AND BUSINESS

Doubleday Canada From the bestselling author of *The Power of Habit* comes a fascinating new book exploring the science of productivity, and why, in today's world, managing how you think--rather than what you think about--can transform your life. Productivity, recent studies suggest, isn't always about driving ourselves harder, working faster and pushing ourselves toward greater "efficiency." Rather, real productivity relies on managing how we think, identify goals, construct teams and make decisions. The most productive people, companies and organizations don't merely act differently--they envision the world and their choices in profoundly different ways. This book explores eight concepts that are critical to increasing productivity. It takes you into the cockpit of two passenger jets (one crashes) to understand the importance of constructing mental models--telling yourself stories about yourself in order to subconsciously focus on what really matters. It introduces us to basic training in the U.S. Marine Corps, where the internal locus of control is exploited to increase self-motivation. It chronicles the outbreak of Israel's Yom Kippur War to examine cognitive closure--a dangerous trap that stems from our natural desire to feel productive and check every last thing off our to-do lists, causing us to miss obvious risks and bigger opportunities. It uses a high-achieving public school in Cincinnati to illuminate the concept of disfluency, which holds that we learn faster and more deeply when we make the data harder to absorb. It shows how the principles of lean manufacturing--in which decision-making power is pushed to the lowest levels of the hierarchy--allowed the FBI to produce a software system that had eluded them for years. It explores how Disney made *Frozen* into a record success by encouraging tension among animation teams--a version of what biologists refer to as the Intermediate Disturbance Hypothesis, which posits that nature is most creative when crises occur. With the combination of relentless curiosity, deep reporting and rich storytelling that defined *The Power of Habit*, Charles Duhigg takes readers from neurology laboratories to Google's brainstorming sessions and illustrates how we can all increase productivity in our lives.
