PARENTOLOGY

EVERYTHING YOU WANTED TO KNOW ABOUT THE SCIENCE OF RAISING CHILDREN BUT WERE TOO EXHAUSTED TO ASK

Simon and Schuster An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control

by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

SAAB 96 & V4

Veloce Publishing Ltd The front-wheel-drive Saab 96 made the brand into a rally icon in the 1960s. It succeeded in events as diverse as the Monte Carlo, Britain's RAC rally, special stage events in every Scandinavian country, and the rough-and-tough Spa-Sofia-Liege Marathon. The big change came in 1967, when the 96 became the V4. Works cars continued to be competitive in carefully chosen events for many years, and when they became outdated, the V4's successors - the much larger and more powerful 99 and 99 Turbo types - proved that Saab wasn't done with rallying yet. More than any other car of its era, the 96 and V4 models proved that front-wheel-drive allied to true superstar driving could produce victory where no-one expected it.

YOU & YOUR JAGUAR XK/XKR

BUYING, ENJOYING, MAINTAINING, MODIFYING - NEW EDITION

Veloce Publishing Ltd The Jaguar XK was launched to great acclaim in 1996 as the successor to the XJS. so, echoed the success of previous icons, such as the E-type. The original edition of this book covered just the X-100 (original series) XKs from 1996 through to 2005. This edition, now in paperback, brings the story up to date with the X-150 alloy-bodied cars, from 2006 through to the end of production in 2014. A significantly enlarged work, packed with information and over 130 additional full-colour pictures, this fascinating book is essential reading for all XK owners, prospective owners and enthusiasts – the perfect XK ‘handbook.’

JAGUAR C-TYPE

THE AUTOBIOGRAPHY OF XKC 051

Porter Press This glorious book tells the story of the celebrated lightweight Jaguar C-type, chassis number XKC 051, that Duncan Hamilton and Tony Rolt drove to victory in the 1953 Le Mans 24 Hours. The car went on to have a busy post-works racing career, first with Ecurie Ecosse, then with privateer drivers Bill Smith and Geoffrey Allison. Among its small number of collector custodians in later years, the names Briggs Cunningham in America and Adrian Hamilton (son of Duncan) in the UK stand out. The development of the C-type is described, focusing on the three lightweights of 1953 with thinner-gauge aluminum bodies, pioneering disc brakes, and aircraft-style fuel tanks. All this is covered in fascinating detail, supported by interviews with drivers and mechanics, a fine collection of period images and studio photographs.
