By the time of the research for the second edition in 2010 and 2011, there were some 23,000 former North Koreans who recently arrived in South Korea. Included in this number are hundreds of persons formerly detained in the variety of North Korea's slave labor camps, penitentiaries, and detention facilities. Included in this number are several former prisoners who were arbitrarily imprisoned for twenty to thirty years before their escape or release from the labor camps, and their subsequent flight through China to South Korea. This newly available testimony dramatically increases our knowledge of the operation of North Korea's political prison and labor camp system. This second edition of *Hidden Gulag* also utilizes a recent international legal framework for the analysis of North Korea's human rights violations: the norms and standards established in the Rome Statute of the International Criminal Court for defining and determining crimes against humanity, which became operative in July 2002. In addition to the testimony and accounts from the former political prisoners in this report, this second edition of *Hidden Gulag* also includes satellite photographs of the prison camps. **Auto Repair For Dummies John Wiley & Sons** *Auto Repair For Dummies*, 2nd Edition (9781119543619) was previously published as *Auto Repair For Dummies*, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the *Los Angeles Times* and has been interviewed on the *Today* show, *NBC Nightly News*, and other television programs. **The U.S. Marine Corps Mountain Warfare Training Center, 1951-2001** The following account represents a significant look at a half century of U.S. Marine Corps effort in the Sierra Nevada mountain range of California. This has been and is still the location of the Corps cold weather and mountain training facility. Over time the needs and demands for Marines and units prepared to operate under these conditions waxed and waned with the real world requirements of deployed forces. This was reflected in the realities of conflicts in the Korean Peninsula, the Cold War's northern and southern flanks, and in the current Global War in Terrorism fight in Afghanistan and elsewhere. While the future is often uncertain, this firm look at the past is useful to show how previous challenges have prompted creative and innovative responses. This is as much a story of evolution as an institution. **Situation Desperate U.S. Army Engineer Disaster Relief Operations, Origins to 1950 Defense Department** NOTE: NO FURTHER DISCOUNT FOR THIS PRINT PRODUCT -OVERSTOCK SALE -- Significantly reduced list price Traces the federal program from its tentative beginnings in the 19th century to the enactment of a permanent federal policy on disaster assistance in 1950. Explains how the Engineers came to acquire that mission during the great Mississippi River flood of 1882. Describes the development of the Corps' statutory authorities and the Army's regulations for emergency operations. Tells the stories of Corps and Army Engineer operations during various calamities." **The Story of Jeep Krause Publications** The Story of a Legend & Pat Foster's award-winning *The Story of Jeep* is back - bigger, more colorful, and more complete than ever. With updates on models from 2000 through 2005, Foster's new tribute to "the world's greatest fighting machine" is an essential part of any Jeep lover's library. & In this history-packed, full-color second edition, the country's preeminent Jeep writer and historian details Jeep's roller-coaster history, from the early war-time prototypes, to the Kaiser and AMC eras, to the big buyout by Chrysler. & With the help of more than 400 photos, Foster expertly tells the tale of how Jeep has evolved from a military workhorse, to 4x4 pioneer, to popular family hauler, all the while retaining its place as a great American icon. **The Taxation of Personal Property Teaching What Really Happened How to Avoid the Tyranny of Textbooks and Get Students Excited About Doing History, Second Edition Teachers College Press** James Loewen has revised *Teaching What Really Happened*, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retelling of the past. In addition to updating the scholarship and

anecdotes throughout, the second edition features a timely new chapter entitled "Truth" that addresses how traditional and social media can distort current events and historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It will specifically help teachers and students tackle important content areas, including Eurocentrism, the American Indian experience, and slavery. Book Features: an up-to-date assessment of the potential and pitfalls of U.S. and world history education; information to help teachers expect, and get good performance from students of all racial, ethnic, and socioeconomic backgrounds; strategies for incorporating project-oriented self-learning, having students conduct online historical research, and teaching historiography; ideas from teachers across the country.

U.S. Marines in Afghanistan, 2001-2009 Anthology and Annotated Bibliography St, John's Press This volume presents a collection of 38 articles, interviews, and speeches describing many aspects of the U.S. Marine Corps' participation in Operation Enduring Freedom from 2001 to 2009. This work is intended to serve as a general overview and provisional reference to inform both Marines and the general public until the History Division completes monographs dealing with major Marine Corps operations during the campaign. The accompanying annotated bibliography provides a detailed look at selected sources that currently exist until new scholarship and archival materials become available. From the Preface - From the outset, some experts doubted that the U.S. Marines Corps would play a major role in Afghanistan given the landlocked nature of the battlefield. Naval expeditionary Task Force 58 (TF-58) commanded by then-Brigadier General James N. Mattis silenced naysayers with the farthest ranging amphibious assault in Marine Corps/Navy history. In late November 2001, Mattis' force seized what became Forward Operating Base Rhino, Afghanistan, from naval shipping some 400 miles away. The historic assault not only blazed a path for follow-on forces, it also cut off fleeing al-Qaeda and Taliban elements and aided in the seizure of Kandahar. While Corps doctrine and culture advocates Marine employment as a fully integrated Marine air-ground task force (MAGTF), deployments to Afghanistan often reflected what former Commandant General Charles C. Krulak coined as the "three-block war." Following TF-58's deployment during the initial take down of the Taliban regime, the MAGTF made few appearances in Afghanistan until 2008. Before then, subsequent Marine units often deployed as a single battalion under the command of the U.S. Army Combined Joint Task Force (CJTF) to provide security for provincial reconstruction teams. The Marine Corps also provided embedded training teams to train and mentor the fledgling Afghan National Army and Police. Aviation assets sporadically deployed to support the U.S.-led coalition mostly to conduct a specific mission or to bridge a gap in capability, such as close air support or electronic warfare to counter the improvised explosive device threat. From 2003 to late 2007, the national preoccupation with stabilizing Iraq focused most Marine Corps assets on stemming the insurgency, largely centered in the restive al-Anbar Province. As a result of the North Atlantic Treaty Organization (NATO) taking over command of Afghan operations and Marine Corps' commitments in Iraq, relatively few Marine units operated in Afghanistan from late 2006 to 2007. Although Marines first advocated shifting resources from al-Anbar to southern Afghanistan in early 2007, the George W. Bush administration delayed the Marine proposal for fear of losing the gains made as a result of Army General David H. Petraeus' "surge strategy" in Iraq. By late 2007, the situation in Afghanistan had deteriorated to the point that it inspired Rolling Stone to later publish the story "How We Lost the War We Won." In recognition of the shifting tides in both Iraq and Afghanistan, the Bush administration began to transfer additional resources to Afghanistan in early 2008. The shift prompted senior Marines to again push for a more prominent role in the Afghan campaign, even proposing to take over the Afghan mission from the Army. . . .
