Yearbook of the United Nations 2014 *United Nations* With its comprehensive coverage of political and security matters, human rights issues, economic and social questions, legal issues, and administrative and budgetary matters, the Yearbook of the United Nations stands as the authoritative reference work on the annual activities and concerns of the Organization. Fully indexed, the Yearbook includes all major General Assembly, Security Council and Economic and Social Council resolutions and decisions, uniquely placing them in a narrative context of United Nations consideration, deliberation and action. This sixty-eighth volume presents the work of the United Nations in dealing with recurring conflicts with severe humanitarian consequences including in the Syrian Arab Republic, where more than 12 million people were in need of basic food, clothing and shelter. The volume also highlights the Organization's rapid response to an escalatory global health emergency—the Ebola virus disease outbreak across West Africa. It documents the Organization's coordination of policy discussions to finalize a global sustainable development agenda, with the security of future generations as the core concern; and its efforts to rebuild societies emerging from conflict while keeping the fragile peace in other places. It further details the entry into force of the landmark Arms Trade Treaty, the missile downing of a passenger airliner in the midst of a geopolitical crisis in eastern Ukraine, and securing international human rights and humanitarian law and prosecuting abusers. **Model Rules of Professional Conduct** *American Bar Association* The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts. **The SAGE Handbook of Early Childhood Policy** *SAGE* Recent authoritative evidence suggests that an estimated 200 million children under five fail to achieve their developmental potential due to factors including poor health and nutrition and the lack of stable high quality care. A significant number of the world's children today lack the basic rights to health, development and protection. In light of such statistics, early childhood services for young children have expanded around the world. The SAGE Handbook of Early Childhood Policy draws critical attention to policy in Early Childhood Education and Care (ECEC) its relationship to service provision and its impact on the lives of children and families. The perspectives of leading academics and researchers from Europe, North America, South America, Africa, Australasia and Asia have been arranged around five key themes: Part 1: The Relationship Between Research, Policy And Practice: Country Case Studies Part 2: Equitable Early Childhood Services: Intervention to Improve Children's Life Chances Part 3: Extending Practice: The Role of Early Childhood Services In Family Support Part 4: Participation, Rights and Diversity Part 5: Future Directions for Early Childhood Policy This handbook is essential reading for practitioners, stakeholders and others committed to working within early years services to achieve an awareness of policy and its implications for services and practice. **Children's Rights Law in the Global Human Rights Landscape** *Taylor & Francis* Isolation, inspiration, integration? Children's rights law is often studied and perceived in isolation from the broader field of human rights law. This volume explores the inter-relationship between children's rights law and more general human rights law in order to see whether elements from each could successfully inform the other. Children's rights law has a number of distinctive characteristics, such as the emphasis on the 'best interests of the child', the use of general principles, and the inclusion of 'third parties' (e.g. parents and other care-takers) in treaty provisions. The first part of this book questions whether these features could be a source of inspiration for general human rights law. In part two, the reverse question is asked: could children's rights law draw inspiration from developments in other branches of human rights law that focus on other specific categories of rights holders, such as women, persons with disabilities, indigenous peoples, or older persons? Finally, the interaction between children's rights law and human rights law - and the potential for their isolation, inspiration or integration - may be coloured or determined by the thematic issue under consideration. Therefore the third part of the book studies the interplay between children's rights law and human rights law in the context of specific topics: intra-family relations, LGBTQI marginalization, migration, media, the environment and transnational human rights obligations. **Gender and the Law of the Sea** *BRILL* Gender and the Law of the Sea successfully establishes the relevance of gender at sea and posits that feminist perspectives can help develop a

more inclusive law for the oceans. Implementation Handbook for the Convention on the Rights of the Child *United Nations Publications* "The Handbook aims to be a practical tool for implementation, explaining and illustrating the implications of each article of the Convention on the Rights of the Child and of the two Optional Protocols adopted in 2000 as well as their interconnections."--P. xvii. African Human Rights Yearbook / Annuaire africain des droits de l'homme 3 (2019) *Pretoria University Law Press* About the publication The African Charter on the Rights and Welfare of the Child (African Children's Rights Charter) is the continental instrument for protecting and promoting the rights and welfare of the Child. The Children's Charter, adopted in 1990, forms part of the salient features of the African human rights system, complementing the parent human rights instrument, the African Charter on Human and Peoples Rights (African Charter). To give meaning and effect to its provisions, the African Children's Rights Charter in article 34 establishes an organ namely the African Committee of Experts on the Rights and Welfare of the Child (African Children's Rights Committee or Committee) to monitor implementation by member states, to advocate for children's rights and to hold state parties accountable to their obligations as state parties. Working collaboratively on the continent's human rights system, the organs comprising the African human rights, namely, the African Commission on Human and Peoples' Rights (Commission), the African Court on Human and Peoples' Rights (Court) and the African Children's Rights Committee, have undertaken to publish the African Human Rights Yearbook. This is an instrumental platform to highlight the mandate of the organs, to foster collaboration and to illustrate Africa's commitment to uphold human rights. It is an important initiative that highlights various aspects of the norms and institutions relevant for human rights on the continent. This is the third volume of the Yearbook. It includes a focus on the 2019 theme of the African Union Refugees, Returnees and Internally Displaced Persons: Towards Durable Solutions to Forced Displacement in Africa. The African Children's Committee has at the same time undertaken and published a study on Children on the Move (2019), focusing not only on refugees, detainees and internally displaced persons, but also drawing inspiration from the protective mandate of the African Children's Rights Charter to draw the continent's attention to the protection and promotion of the rights and welfare of children who are on the move. The focus on themes of the African Union enables a critical analysis of the extent of their implementation and relevance to the human rights discourse in the continent. Furthermore, the special focus of the Yearbook on various groups of people in vulnerable situation, such as children and women, signals the need to enhance their protection and prioritise their plight. The role of academic writing in advancement of human rights deserves due notice and appreciation by human rights implementing bodies. Peer reviewed academic research provides credible and independent knowledge about human rights in a specific country or region, as well as in various contexts and thematic areas. Academia plays a major role in the development of a human rights resource base that enables sustainable enhancement of human rights protection and promotion. The African Human Rights Yearbook is an excellent example of the important role played by academia in strengthening human rights protection and promotion in Africa. The breadth of knowledge enveloped in the Yearbook is evidenced by the long list of highly established scholars that informed it. By questioning and analysing the institutional architecture and the work of the three human rights bodies, the Yearbook has an invaluable role of ameliorating their functioning as a collective system. For this reason, it is critical that the Committee, Commission and Court take note of the various recommendations stemming from the research and apply them when relevant, for better protection and promotion of human rights in Africa. Mrs. Goitseone Nanikie Nkwe Chairperson of the African Committee of Experts on the Rights and Welfare of the Child. La Charte africaine des droits et du bien-être de l'enfant (Charte des droits de l'enfant) est l'instrument central en matière de protection et de promotion des droits et du bien-être de l'enfant en Afrique. Adoptée en 1990, elle fait partie intégrante des instruments clés du système africain des droits de l'homme et complète, à cet effet, la Charte africaine des droits de l'homme et des peuples, le traité fondateur du système africain des droits de l'homme. Pour mieux protéger les droits des enfants, le Comité africain d'experts sur les droits et le bien-être de l'enfant (Comité) fut créé à travers l'article 34 de la Charte des droits de l'enfant. Cet organe a pour mission de surveiller et de contrôler l'application et la mise en oeuvre de la Charte. Il veille que les Etats respectent et rendent compte de la mise en oeuvre des obligations qui leur incombent en vertu de la Charte. Travaillant en étroite collaboration dans le cadre de la protection des droits de l'homme en Afrique, la Commission africaine des droits de l'homme et des peuples, la Cour africaine des droits de l'homme et des peuples et le Comité africain d'experts sur les droits et le bien-être de l'enfant ont mis en place l'Annuaire africain des droits de l'homme. Cette initiative sert d'opportunité pour promouvoir les missions dévolues auxdits organes, raffermir les liens de collaboration entre eux et rappeler l'engagement pris par l'Afrique afin de protéger les droits humains. L'Annuaire est une initiative importante car elle met en exergue les différents aspects normatifs et institutionnels des droits de l'homme en Afrique. Ce troisième volume de l'Annuaire est dédié au thème que l'Union africaine a retenu pour l'année 2019; Année des réfugiés, des rapatriés et des personnes déplacées: Vers des solutions durables aux déplacements forcés en Afrique. En parallèle, le Comité a entrepris et publié une cartographie des enfants en mouvement en Afrique (2019) axée sur les réfugiés, les détenus et les déplacés internes. Tirant ses fondements du mandat de protection que confère la Charte des droits de l'enfant, la cartographie attire l'attention du continent sur la protection et la promotion des droits et du bien-être des enfants en mouvement. L'emphase sur les thèmes de l'Union africaine dans l'Annuaire permet d'examiner le degré de leur mise en oeuvre et leur importance au débat sur la question des droits de l'homme en Afrique. Par ailleurs, l'accent mis sur les catégories et groupes en situations de vulnérabilité dont les enfants et les femmes, sert à réitérer la nécessité de renforcer leur protection et de prioriser leur infortune. Les organes de protection des droits de l'homme devraient reconnaître, à sa juste valeur, le rôle que jouent les travaux scientifiques dans la promotion des droits de l'homme. Les travaux de recherche scientifique relus et examinés par les pairs fournissent des connaissances crédibles et indépendantes sur les droits de l'homme dans un pays ou une région spécifique,

ainsi que dans divers contextes et domaines thématiques. Les universités jouent un rôle prépondérant dans la mise en place des ressources adéquates en matière des droits de l'homme en vue de renforcer durablement leur protection et promotion. L'Annuaire africain des droits de l'homme est un parfait exemple de l'important rôle joué par les universités dans le renforcement de la protection et de la promotion des droits de l'homme en Afrique. La profondeur des connaissances que regorge l'Annuaire peut être illustrée de par la longue liste d'universitaires et des chercheurs qui le constituent. En interrogeant et en analysant l'architecture institutionnelle et le travail des trois organes de défense des droits de l'homme, l'Annuaire joue un rôle inestimable dans l'amélioration de leur fonctionnement en tant que système collectif. Pour cette raison, il est essentiel que le Comité, la Commission et la Cour prennent note des diverses recommandations découlant des recherches entreprises et les appliquent le cas échéant pour une meilleure protection et promotion des droits de l'homme en Afrique.

However, children are largely invisible in historical and contemporary refugee law. Furthermore, there has been very limited interaction between the burgeoning children's rights framework, in particular the Convention on the Rights of the Child (CRC), and the 1951 Convention relating to the Status of Refugees (Refugee Convention). This book explores the possibility of a children's rights approach to the interpretation of the Refugee Convention and within that what such an approach might look like. In order to construct a children's rights approach, the conceptualisations of children outside the legal discipline, within international children's rights law and then within refugee law and refugee discourse are analysed. The approach taken is socio-legal and comparative in nature and the suitability of the Refugee Convention as a framework for the interpretation of child claims is examined. The book analyses to what extent the Refugee Convention is capable of dealing with claims from children based on the modern conceptualisation of children, which is underscored by two competing ideologies: the child as a vulnerable object in law to be protected and the child as subject with rights and the capacity to exercise their agency. The influence each regime has had on the other is also analysed. The work discusses how a children's rights approach might improve outcomes for child applicants. The book makes an original contribution to child refugee discourse and

as such will be an invaluable resource for academics, researchers and policymakers working in the areas of migration and asylum law, children's rights and international human rights law. **Understanding National Accounts Second Edition** *OECD Publishing* This is an update of OECD 2006 "Understanding National Accounts". It contains new data, new chapters and is adapted to the new systems of national accounts, SNA 2008 and ESA 2010. **Citizenship in Question Evidentiary Birthright and Statelessness** *Duke University Press* Citizenship is often assumed to be a clear-cut issue—either one has it or one does not. However, as the contributors to *Citizenship in Question* demonstrate, citizenship is not self-evident; it emerges from often obscure written records and is interpreted through ambiguous and dynamic laws. In case studies that analyze the legal barriers to citizenship rights in over twenty countries, the contributors explore how states use evidentiary requirements to create and police citizenship, often based on fictions of racial, ethnic, class, and religious differences. Whether examining the United States' deportation of its own citizens, the selective use of DNA tests and secret results in Thailand, or laws that have stripped entire populations of citizenship, the contributors emphasize the political, psychological, and personal impact of citizenship policies. *Citizenship in Question* incites scholars to revisit long-standing political theories and debates about nationality, free movement, and immigration premised on the assumption of clear demarcations between citizens and noncitizens. Contributors: Alfred Babo, Jacqueline Bhabha, Jacqueline Field, Amanda Flaim, Sara L. Friedman, Daniel Kanstroom, Benjamin N. Lawrance, Beatrice McKenzie, Polly J. Price, Rachel E. Rosenbloom, Kim Rubenstein, Kamal Sadiq, Jacqueline Stevens, Margaret D. Stock **Occupational Outlook Handbook Handbook of Children's Rights Global and Multidisciplinary Perspectives** *Taylor & Francis* While the notion of young people as individuals worthy or capable of having rights is of relatively recent origin, over the past several decades there has been a substantial increase in both social and political commitment to children's rights as well as a tendency to grant young people some of the rights that were typically accorded only to adults. In addition, there has been a noticeable shift in orientation from a focus on children's protection and provision to an emphasis on children's participation and self-determination. With contributions from a wide range of international scholars, the *Handbook of Children's Rights* brings together research, theory, and practice from diverse perspectives on children's rights. This volume constitutes a comprehensive treatment of critical perspectives concerning children's rights in their various forms. Its contributions address some of the major scholarly tensions and policy debates comprising the current discourse on children's rights, including the best interests of the child, evolving capacities of the child, states' rights versus children's rights, rights of children versus parental or family rights, children as citizens, children's rights versus children's responsibilities, and balancing protection and participation. In addition to its multidisciplinary focus, the handbook includes perspectives from social science domains in which children's rights scholarship has evolved largely independently due to distinct and seemingly competing assumptions and disciplinary approaches (e.g., childhood studies, developmental psychology, sociology of childhood, anthropology, and political science). The handbook also brings together diverse methodological approaches to the study of children's rights, including both quantitative and qualitative perspectives, and policy analysis. This comprehensive, cosmopolitan, and timely volume serves as an important reference for both scholarly and policy-driven interest in the voices and perspectives of children and youth. **Thoughtful Christianity Faith and Action in the Way of Jesus** *Westminster John Knox Press* "The next revival must be an awakening in the intellect of Christians ready to mark the life of the church and of the broader society with a thoughtful faith." **Thoughtful Christianity** provides a guide to Christian faith that honors tradition while embracing modern thought and valuing critical reflection. Daniel examines the extreme polarization of Christianity in the last century and argues that American Christians are in need of an awakening of the mind. He suggests a way of life that includes commitment to education, high value placed on curiosity, and instruction from "those with the courage to be corrected." **Divided** into three parts, the book explores how science can inform faith, the marks of a thoughtful life, and some suggestions for living a thoughtful life. Daniel shows us how we can move forward, unbound by labels, to know and serve God better. **The human atlas of Europe A continent united in diversity** *Policy Press* What does Brexit actually mean for the UK and what are the wider implications for Europe? Was the UK 'leave' vote actually symptomatic of broader issues within Europe such as population mobility and the rise of non-traditional parties? Written by leading international authors, this timely atlas explores Europe's society, culture, economy, politics and environment using state of the art mapping techniques With maps covering over 80 topics ranging from life expectancy, greenhouse gas emissions, GDP to Eurovision voting, **The Human Atlas of Europe** addresses fundamental questions around social cohesion and sustainable growth as Europe negotiates the UK's exit while continuing through the economic crisis. This concise, accessible atlas is packed with exciting features, including: • short introductions to each topic • maps using the very latest data • infographics bringing this all to life • summaries of key information including league tables • core statistics on Europe Taken as a whole, the atlas shows how geographical and state boundaries only tell a partial story and that we still live in a far more cohesive Europe than we realise. **Water Rights in Southeast Asia and India** *Springer* This fascinating book examines the paramount human rights issue of our time: clean drinking water. Pollution, population surge, and climate change will deprive an estimated 2 billion citizens of this fundamental right by 2050. The author argues for the need to establish innovative, sustainable practices to safeguard this precious human right. **The Routledge Companion to Digital Media and Children** *Routledge* This companion presents the newest research in this important area, showcasing the huge diversity in children's relationships with digital media around the globe, and exploring the benefits, challenges, history, and emerging developments in the field. Children are finding novel ways to express their passions and priorities through innovative uses of digital communication tools. This collection investigates and critiques the dynamism of children's lives online with contributions fielding both global and hyper-local issues, and bridging the wide spectrum of connected media created for and by children. From education to children's rights to

cyberbullying and youth in challenging circumstances, the interdisciplinary approach ensures a careful, nuanced, multi-dimensional exploration of children's relationships with digital media. Featuring a highly international range of case studies, perspectives, and socio-cultural contexts, *The Routledge Companion to Digital Media and Children* is the perfect reference tool for students and researchers of media and communication, family and technology studies, psychology, education, anthropology, and sociology, as well as interested teachers, policy makers, and parents.

Sixteen for '16 A progressive agenda for a better America *Policy Press* The progressive movement is on the march in America and this accessible book points toward a destination. **Sixteen for '16** offers a new agenda for the 2016 US election crafted around sixteen core principles that all progressives can believe in, from securing jobs to saving the Earth. Decades of destructive social, economic, and political policies have devastated poor, working, and even middle class American communities. It is now clear to everyone that the emperor has no clothes, that harsh austerity does not bring prosperity, and that the wealthy have no intention to see their wealth trickle down. Each generation is no longer better off than the ones that came before. America now needs jobs, infrastructure, a rededication to public education, universal healthcare, higher taxes on higher incomes, a more secure Social Security, an end to the rule of the bankers, stronger unions, a living minimum wage, better working conditions, an end to the prison state, secure reproductive rights, voter equality, a more moral foreign policy, a more sane environmental policy, and action on global warming. **Sixteen for '16** is a manifesto which makes the argument for each of these positions, clearly, concisely, and supported by hard data. As ambitious as these policies are, they represent a beginning, not an end. The progressive agenda laid out in **Sixteen for '16** charts a realistic path toward a better tomorrow.

Government Finance Statistics Manual *International Monetary Fund* The **Government Finance Statistics Manual 2014 (GFSM 2014)**—describes a specialized macroeconomic statistical framework—the government finance statistics (GFS) framework—designed to support fiscal analysis. The manual provides the economic and statistical reporting principles to be used in compiling the statistics; describes guidelines for presenting fiscal statistics within an analytic framework that includes appropriate balancing items; and is harmonized with other macroeconomic statistical guidelines.

Releasing Children's Potential and Minimizing Risks - ICTs, the Internet and Violence Against Children *United Nations* This publication was influenced by input from national and international experts who attended the SRSG's international consultation on this issue in June 2014 in San Jose, Costa Rica. This publication provides information on the dangers children possibly face from ICTs and the internet. It concludes with 7 crucial steps for a safe, inclusive and empowering digital agenda for children, which governments should enact.

Suffer the Little Children *Child Migration and the Geopolitics of Compassion in the United States* *UNC Press Books* In this affecting and innovative global history—starting with the European children who fled the perils of World War II and ending with the Central American children who arrive every day at the U.S. southern border—Anita Casavantes Bradford traces the evolution of American policy toward unaccompanied children. At first a series of ad hoc Cold War-era initiatives, such policy grew into a more broadly conceived set of programs that claim universal humanitarian goals. But the cold reality is that decisions about which endangered minors are allowed entry to the United States have always been and continue to be driven primarily by a "geopolitics of compassion" that imagines these children essentially as tools of political statecraft. Even after the creation of the Unaccompanied Refugee Minors program in 1980, the federal government has failed to see migrant children as individual rights-bearing subjects. The claims of these children, especially those who are poor, nonwhite, and non-Christian, continue to be evaluated not in terms of their unique circumstances but rather in terms of broader implications for migratory flows from their homelands. This book urgently demonstrates that U.S. policy must evolve in order to ameliorate the desperate needs of unaccompanied children.

Child Rights and Displacement in East Africa *Agency and Spatial Justice in Planning Policy* *Taylor & Francis* Focusing on the intersection of spatial justice, child rights, and planning policy, this book investigates the challenges of resettlement in East Africa, where half of those displaced are children. The challenges created by displacement and resettlement are often considered from an adult-centric perspective by planners and humanitarian and development experts. The spatial injustice of displacement and resettlement, the agency of children, and the application of tools such as Child Participatory Vulnerability Index (CPVI) is siloed, commonly overlooked, or discounted. This book uses a CPVI and rights-based assessment of land-use policies, to investigate resettlement due to conflict and settlement in northern Uganda, floods due to climate change in Dar es Salaam, Tanzania, and urban to rural migration of children due to the AIDS pandemic in Western Kenya. Case studies from over a decade of field research are integrated with examples from applied planning projects and policy development in the East Africa region. This book uses spatial justice theory to show how child-friendly planning approaches can positively promote child rights in the context of resettlement. Providing important insights on how to enact child-friendly planning in informal settlements, refugee camps, and displacement camps, this book will be of interest to planning and development professionals, and researchers across the fields of children's rights, Development Studies, Planning, and African Studies.

The UN Convention on the Rights of the Child A Commentary *Oxford University Press* The United Nations Convention on the Rights of the Child is the most extensive and widely ratified international human rights treaty. This Commentary offers a comprehensive analysis of each of the substantive provisions in the Convention and its Optional Protocols on Children and Armed Conflict and the Sale of Children, Child Prostitution and Pornography. It offers a detailed insight into the drafting history of these instruments, the scope and nature of the rights accorded to children and the obligations imposed on states to secure the implementation of these rights. In doing so, it draws on the work of the Committee on the Rights of the Child, international, regional and domestic courts, academic and interdisciplinary scholarly analyses. It is of relevance to anyone working on matters affecting children including government officials, policy makers, judicial officers, lawyers, educators, social workers, health professionals, academics, aid and humanitarian workers, and members of civil society.

Social Institutions and Gender Index SIGI 2021 Regional

Report for Southeast Asia *OECD Publishing* Achieving gender equality and tackling discriminatory laws, social norms and practices set a direct path toward a more inclusive economy and society. The SIGI 2021 Regional Report for Southeast Asia provides new evidence-based analysis on the setbacks and progress in achieving gender equality between 2014 and 2019 in 11 countries.

Essential Texts on European and International Asylum and Migration Law and Policy (2nd revised edition) *Gompel&Svacina* This volume comprises the relevant legal instruments and principal policy documents in the area of international and European asylum and migration, including the latest versions of pending legislative proposals. The range of issues covered is comprehensive: human rights; nationality and statelessness; equal treatment, non-discrimination, racism and xenophobia; citizenship, residence and free movement; borders, border management and entry; visa and passenger data; labour migration; family reunification; asylum, subsidiary and temporary protection; irregular migration; and trafficking in human beings. The texts have been ordered according to the multilateral co-operation level within which they were drawn up: either the United Nations, the Council of Europe or the European Union (including Schengen-level instruments). This edition provides practitioners, authorities, policy makers, scholars and students throughout Europe with an accurate, up-to-date and forward-looking compilation of essential texts on asylum and migration matters. All texts have been updated until 20 December 2018.

Children's Agency and Development in African Societies *CODESRIA* This book focuses on African childhood and youth within the context of development and socialization where children are expected to be moulded in the image of adults. In many African societies children are generally held as passive bearers of the demands of adults, regardless of the fact that they are often exposed to a multitude of challenges that originate from the capriciousness of those adults. However, buoyed by international conventions and national legislations that offer them greater protection, and the ubiquitous internet that exposes them to childhood and youth experiences elsewhere, many of them are increasingly becoming assertive in homes, schools, and communities as well as re-invigorating their survival and self-preservation instincts. It is in this regard that this book, through the various chapters, engages with their competencies, skills and creativity to respond to experiential challenges as independent migrants or ones under coercion working in city streets and markets or cocoa farms or juggling work and schooling in pursuit of some education. Confronted with their parents' and siblings' health predicaments and the inadequacies of state and familial care, or urgent negotiation of their sexualities, they demonstrate incredible resilience. Similarly, their perceptiveness is demonstrated in a unique appreciation of politics and its actors and a capacity to assume responsibilities beyond their chronological age. Thus while highlighting some of the challenges confronting African children, the book provides gripping evidence of how they resiliently negotiate those challenges.

Criminal Insurgents in Mexico and Latin America *A Small Wars Journal—El Centro Anthology* *iUniverse* The 4th Small Wars Journal—El Centro anthology comes at a pivotal time, roughly a third of the way through the term, for the Enrique Peña Nieto administration in Mexico. The mass kidnapping and execution of 43 rural student teachers in Iguala, Guerrero in late September 2014 has only served to further highlight the corruptive effects of organized crime on the public institutions in that country. In addition, many other states in Latin America are now suffering at the hands of criminal insurgents who are threatening their citizens and challenging their sovereign rights.

Dave Dilege, SWJ Editor-in-Chief *Power, Suffering, and the Struggle for Dignity* *Human Rights Frameworks for Health and Why They Matter* *University of Pennsylvania Press* Directed at a diverse audience of students, legal and public health practitioners, and anyone interested in understanding what human rights-based approaches (HRBAs) to health and development mean and why they matter, this book provides a solid foundation for comprehending what a human rights framework implies and the potential for social transformation it entails. The *Routledge International Handbook of Shared Parenting and Best Interest of the Child* *Routledge* This multidisciplinary volume offers an essential, comprehensive study of perspectives on the scope and application of the best interests of the child and focuses mainly on its application in relation to child custody. With expert contributions from psychological, sociological and legal perspectives, it offers scientific analysis and debate on whether it should be the primary consideration in deciding child custody cases in cases of divorce or separation or whether it should be one of several primary considerations. It explores complex dilemmas inherent in shared parenting and whether the advantages it offers children are sufficient when compared to attributing custody to one parent and limiting visitation rights of the other. Offering a comprehensive analysis of this complex topic, chapters provide detailed insight into the current state of research in this area, as well as expert guidelines aimed at resolving the controversies when parents agree or disagree over their children's living arrangements. Cutting-edge topics explored include: transnational shared parenting; alternative dispute resolution; breastfeeding parents; religious disputes between parents and the psychological, social and economic factors that affect shared parenting. The *Routledge International Handbook of Shared Parenting and Best Interest of the Child* will be essential reading for scholars and graduate students in law, psychology, sociology and economics interested in shared parenting and family law.

Offshore *Behind the wire on Manus and Nauru* *NewSouth* What has happened on Nauru and Manus since Australia began its most recent offshore processing regime in 2012? This essential book provides a comprehensive and uncompromising overview of the first three years of offshore processing since it recommenced in 2012. It explains why offshore processing was re-established, what life is like for asylum seekers and refugees on Nauru and

Manus, what asylum seekers, refugees and staff in the offshore detention centres have to say about what goes on there, and why the truth has been so hard to find. In doing so, it goes behind the rumours and allegations to reveal what is known - and what still is not known - about Australia's offshore detention centres.

Essential Texts on European and International Asylum and Migration Law And Policy *Maklu* This volume comprises the relevant legal instruments and principal policy documents in the area of international and European asylum and migration, including the latest versions of pending legislative proposals. The range of issues covered is comprehensive: human rights; nationality and statelessness; equal treatment, non-discrimination, racism and xenophobia; citizenship, residence and free movement; borders, border management and entry; visa and passenger data; labour migration; family reunification; asylum, subsidiary and temporary protection; irregular migration; and trafficking in human beings. The texts have been ordered according to the multilateral co-operation level within which they were drawn up: either the United Nations, the Council of Europe or the European Union (including Schengen-level instruments). This edition provides practitioners, authorities, policy makers, scholars and students throughout Europe with an accurate, up-to-date and forward-looking compilation of essential texts on asylum and migration matters.

The Oxford Handbook of U.S. Education Law *Oxford University Press* During the mid-to-late 20th Century, education law emerged as a distinct area of practice and scholarship in the United States. Attorneys began to develop specialties representing school districts, students, parents, and teachers, while law schools and colleges of education started to offer courses about the legal regulation of K-12 public schools. The statutory and common law governing schools grew rapidly, and developed in a manner that often treated public schools differently from other governmental entities. Now, law schools and colleges of education regularly offer an education law course. Many states' school administrator certificates require some familiarity with education law. The scholarly field of education law is rich and deep. Attorneys play a key role in education policy, as do state and federal legislatures and regulatory agencies. The issues range from school funding to supporting English learners; from racial equality to teachers' labor laws; from student privacy to school choice. Addressing those issues and more, *The Oxford Handbook of U.S. Education Law* provides a comprehensive overview of the current state of K-12 education law in the United States. A number of foundational chapters present a synthesis of general areas of law for those who seek an introduction. Dozens of other chapters build on those foundations, diving into various topics in a nuanced, yet accessible, way, creating value for those who seek to deepen or reframe their knowledge about a specific issue. Throughout the volume and especially in the last section, the authors also look to the future and thus help shape the direction of the field.

Migration in Southern Africa *IMISCOE Regional Reader Springer Nature* This open access Regional Reader proposes new ways of theorizing migration in Southern Africa by arguing that traditional western forms of theorizing do not adequately fit the South-South migration context. It explores the existing definitions of a 'migrant' with a view to conceptualise a definition which will speak to the complexities, envisioning a more inclusive Southern African region. The book investigates the various levels of migration moving from the local (rural to urban and urban to rural) to cross border migration; middle-class versus working-class migrant household livelihoods; livelihoods procurement versus wage earning; social capital (networks) and how they make meaning of their circumstances in a 'foreign' space. It also acknowledges the intertwined issues of gender and class as important in analyzing migration processes and the chapters feature both in varying dimensions. As such, the book provides a great resource for students, academics and policy makers.

Decriminalising Abortion in the UK What Would It Mean? *Policy Press* Available Open Access under CC-BY-NC licence. The public and parliamentary debate about UK abortion law reform is often diverted away from key moral and political questions by dispute regarding basic questions of fact. And all too often, claims of scientific 'fact' are ideologically driven. But what effect would decriminalisation be likely to have on women's health? What would be the impact on the incidence of abortions? Would decriminalisation equate to deregulation, sweeping away necessary restrictions on dangerous or malicious conduct? With each chapter written by leading experts in the fields of medicine, law, reproductive health and social science, this book offers a concise and authoritative account of the evidence regarding the likely impact of decriminalisation of abortion in the UK.

Citizenship, Law and Literature *Walter de Gruyter GmbH & Co KG* This edited volume is the first to focus on how concepts of citizenship diversify and stimulate the long-standing field of law and literature, and vice versa. Building on existing research in law and literature as well as literature and citizenship studies, the collection approaches the triangular relationship between citizenship, law and literature from a variety of disciplinary, conceptual and political perspectives, with particular emphasis on the performative aspect inherent in any type of social expression and cultural artefact. The sixteen chapters in this volume present literature as carrying multifarious, at times opposing energies and impulses in relation to citizenship. These range from providing discursive arenas for consolidating, challenging and re-negotiating citizenship to directly interfering with or inspiring processes of law-making and governance. The volume opens up new possibilities for the scholarly understanding of citizenship along two axes: **Citizenship-as-Literature: Enacting Citizenship and Citizenship-in-Literature: Conceptualising Citizenship.**

Research Handbook on Child Migration *Edward Elgar Publishing* The scope and complexity of child migration have only recently emerged as a critical factors in global migration. This volume assembles for the first time a richly interdisciplinary body of work, drawing on contributions from renowned scholars, eminent practitioners and prominent civil society advocates from across the globe and from a wide range of different mobility contexts. Their invaluable pedagogical tools and research documents demonstrate the urgency and breadth of this important new aspect of international human mobility in our global age.

Home economics Domestic service and gender in urban southern Africa *Manchester University Press* Domestic service has long been one of the largest forms of urban employment across southern Africa. Home economics provides the first comprehensive history of this essential sector in the decades following independence and the end of apartheid. Focusing on Lusaka and drawing wider comparisons, the book traces

how Black workers and employers adapted existing models of domestic service as part of broader responses to changing gendered employment patterns, economic decline, and endemic poverty. It reveals how kin-based domestic service gradually displaced wage labour and how women and girl workers came to dominate kin-based and waged domestic service, with profound consequences for labour regulation and worker organising. Theoretically innovative and empirically rich, the book provides essential insights into debates about gender, work, and urban economies that are critical to understanding southern Africa's post-colonial and post-apartheid history. State party reporting and the realisation of children's rights in Africa *Pretoria University Law Press* About the publication Human rights norms will largely remain hollow if they are not translated into the lived realities of people on the ground. Given the diversity and complexities of human rights norms, the arrays of institutions, mechanisms and resource required to give full effect to these norms, implementation of human rights norms is a continuous and progressive undertaking. Progress, to be meaningful, should have milestones and mechanisms for tracking it. The reporting mechanisms are human rights' monitoring and evaluation plans and systems to track progressive implementation. This book provides an assessment of the reporting mechanisms of child rights treaty bodies. It highlights what is working or not working and why, making recommendations for further improvement of the reporting mechanism to better work for children in Africa. The findings and recommendations in the book are based on a study commissioned by the Centre for Human Rights, to assess the effects of reporting to United Nations and African Union child rights treaty bodies on the enjoyment of rights, protection and welfare of children in Africa. It covers 17 African countries, and provides a historical snapshot of the situation as at the end of 2017.
