A Basic Manual

McQueen's Machines

The Cars and Bikes of a Hollywood Icon

Motorbooks No other Hollywood star has been so closely linked with cars and bikes, from the 1968 Ford Mustang GT Fastback he drove in Bullitt (in the greatest car chase of all time) to the Triumph motorcycle of The Great Escape. McQueen's Machines gives readers a close-up look at the cars and motorcycles McQueen drove in movies, those he owned, and others he raced. With a foreword by Steve's son, Chad McQueen, and a wealth of details about of the star's racing career, stunt work, and car and motorcycle collecting, McQueen's Machines draws a fascinating picture of one outsized man's driving passion. Now in paperback.

Spectrum Algebra

[Carson-Dellosa Publishing](#) *With the help of Spectrum Algebra for grades 6 to 8, your child develops problem-solving math skills they can build on. This standards-based workbook focuses on middle school algebra concepts like equalities, inequalities, factors, fractions, proportions, functions, and more. Middle school is known for its challenges—let Spectrum ease some stress. Developed by education experts, the Spectrum Middle School Math series strengthens the important home-to-school connection and prepares children for math success. Filled with easy instructions and rigorous practice, Spectrum Algebra helps children soar in a standards-based classroom!*

Ramonst

[eBook Partnership](#) *Hidden in the mountains of East Tennessee, an eleven-year old goes about the business of being a boy during the summer of 1970. Within a balance of terror and innocence, he bears silent witness to ghosts of the dead and the cruelties of a teenage killer while local justice plays out in a community carved from legacies of coal mining and religion.*

PHP & MySQL: The Missing Manual

["O'Reilly Media, Inc."](#) *If you can build websites with CSS and JavaScript, this book takes you to the next level—creating dynamic, database-driven websites with PHP and MySQL. Learn how to build a database, manage your content, and interact with users. With step-by-step tutorials, this completely revised edition gets you started with expanded coverage of the basics and takes you deeper into the world of server-side programming. The important stuff you need to know: Get up to speed quickly. Learn how to install PHP and MySQL, and get them running on both your computer and a remote server. Gain new techniques. Take advantage of the all-new chapter on integrating PHP with HTML web pages. Manage your content. Use the file system to access user data, including images and other binary files. Make it dynamic. Create pages that change with each new viewing. Build a good database. Use MySQL to store user information and other data. Keep your site working. Master the tools for fixing things that go wrong. Control operations. Create an administrative interface to oversee your site.*

Adverse Childhood Experiences, Attachment, and the Early Years Learning Environment

Research and Inclusive Practice

[Routledge](#) *Adverse Childhood Experiences, Attachment, and the Early Years Learning Environment explores the concept of learning by presenting research and illustrations from practice on three major topics: adverse childhood experiences, attachment, and environment. Each child has a unique reaction to adversity in the early years, and the book discusses the effect upon approach and avoidance motivation for learning, and the rationale of trauma-informed practice. The influence from a secure attachment figure is explored, and links between emotions and involvement are presented. The book highlights the current indoor and outdoor use of natural green spaces as a response to attention-fatigue and promotes comprehension of the issues in a context of attention restoration theory. Intervention for extended families is presented as an approach to supporting development and attainment in each generation, and to achieving a legacy beyond the professional network. This book will appeal to academics, researchers, and postgraduate students in the fields of early years care and education. It will also appeal to those working within children's services.*

McQueen's Motorcycles

Racing and Riding with the King of Cool

[Motorbooks](#) *The long-departed Steve McQueen is still the coolest man on two wheels. Get an intimate look at his coolest bikes right here, right now, in McQueen's Motorcycles. Even thirty years after his death, Steve McQueen remains a cultural icon. His image continues to appear in advertising and pop culture and his fan base spans from car lovers to racing enthusiasts to motorcycle obsessives. In his movies, McQueen's character always had an envy-inducing motorcycle or car, but in his personal life, motorcycles were always McQueen's first true love. McQueen's Motorcycles focuses on the bikes that the King of Cool raced and collected. From the first Harley McQueen bought when he was an acting student in New York to the Triumph "desert sleds" and Huskys he desert raced all over California, Mexico, and Nevada, McQueen was never without a stable of two wheelers. His need for speed propelled him from Hollywood into a number of top off-road motorcycle races, including the Baja 1000, Mint 400, Elsinore Grand Prix, and even as a member of the 1964 ISDT team in Europe. Determined to be ahead of the pack, McQueen maintained his body like it was a machine itself. He trained vigorously,*

weight lifting, running, and studying martial arts. Later in his life, as he backed away from Hollywood, his interests turned to antique bikes and he accumulated an extensive collection, including Harley-Davidson, Indian, Triumph, Brough Superior, Cyclone, BSA, and Ace motorcycles. Today, McQueen still has the Midas touch; anything that was in the man's possession is a hot commodity. McQueen's classic motorcycles sell for top dollar at auctions, always at a multiple of what the same bike is worth without the McQueen pedigree. McQueen's Motorcycles reveals these highly sought-after machines in gorgeous photography and full historical context.

Weird But True!, Level 1

[National Geographic Books](#) Offers a collection of true facts about animals, food, science, pop culture, outer space, geography, and weather.
