Business Solutions on Demand

How to Transform from a Product-led to a Service-led Company

Kogan Page Publishers "It argues convincingly that companies should look at what solutions they can provide consumers with, rather than looking at what products they can foist upon them ... This is an effective guide to delivering real value to the customer through genuine innovative thinking." The Marketer "One of the most successful business solutions tomes ever published." PCPlus Business Based partly on IBM's own transformation, and partly on the transformations that IBM has helped its clients to achieve, this ground-breaking book shows how companies can increase sales and improve margins by introducing a range of solutions. Highly readable, motivational and fast-paced, Business Solutions On Demand is packed with examples from many diverse industries. The authors emphasize that for today's business to compete and survive, it has to exceed the expectations of its customers. Technological advancement, globalization, increased competition, market saturation and easy access to information are all conspiring to make traditional business models redundant.

Building Business Acumen for Trainers

Skills to Empower the Learning Function

Solution Business

Building a Platform for Organic Growth

Springer Science & Business Media Success in solution business starts by accepting that solution business is a separate business model, not simply another product category or an extension of the existing product business. This book identifies the business model areas that firms need to focus on when transforming into solution business. It further organizes these areas into three sets of capabilities and practices: commercialization, industrialization and solution platforms. This is the first book to take a comprehensive view of success in solution business and its relevance therefore extends to all functions of firms wanting to become solution providers as well as to many managerial levels. The book will also help you self-assess how ready your organization is for success in solution business.
