WEB REASONING AND RULE SYSTEMS

6TH INTERNATIONAL CONFERENCE, RR 2012, VIENNA, AUSTRIA, SEPTEMBER 10-12, 2012, PROCEEDINGS

Springer This book constitutes the refereed proceedings of the 6th International Conference on Web Reasoning and Rule Systems, RR 2012, held in Vienna, Austria,

in September 2012. The 27 revised research papers, presented together with 2 invited talks and 5 research summaries were carefully reviewed and selected from 42 submissions. The papers were organized in topical sections on technical communications, algorithms, design aspects of rule markup, design of ontology languages, engineering of engines, translators, and other tools, standardization efforts, such as the Rules Interchange Format activity at W3C, and applications.

THE PLATONIC ALCIBIADES I

THE DIALOGUE AND ITS ANCIENT RECEPTION

Cambridge University Press Although it was influential for several hundred years after it first appeared, doubts about the authenticity of the Platonic Alcibiades I have unnecessarily impeded its interpretation ever since. It positions itself firmly within the Platonic and Socratic traditions, and should therefore be approached in the same way as most other Platonic dialogues. It paints a vivid portrait of a Socrates in his late thirties tackling the unrealistic ambitions of the youthful Alcibiades, urging him to come to know himself and to care for himself. François Renaud and Harold Tarrant re-examine the drama and philosophy of Alcibiades I with an eye on those interpreters who cherished it most. Modern scholars regularly play down one or more of the religious, erotic, philosophic or dramatic aspects of the dialogue, so ancient Platonist interpreters are given special consideration. This rich study will interest a wide range of readers in ancient philosophy.

SOCRATES AND PHILOSOPHY IN THE DIALOGUES OF PLATO

Cambridge University Press In Plato's Apology, Socrates says he spent his life examining and questioning people on how best to live, while avowing that he himself knows nothing important. Elsewhere, however, for example in Plato's Republic, Plato's Socrates presents radical and grandiose theses. In this book Sandra Peterson offers a hypothesis which explains the puzzle of Socrates' two contrasting manners. She argues that the apparently confident doctrinal Socrates is in fact conducting the first step of an examination: by eliciting his interlocutors' reactions, his apparently doctrinal lectures reveal what his interlocutors believe is the best way to live. She tests her hypothesis by close reading of passages in the Theaetetus, Republic and Phaedo. Her provocative conclusion, that there is a single Socrates whose conception and practice of philosophy remain the same throughout the dialogues, will be of interest to a wide range of readers in ancient philosophy and classics.

THE ROOTS OF POLITICAL PHILOSOPHY

TEN FORGOTTEN SOCRATIC DIALOGUES TRANSLATED, WITH INTERPRETIVE STUDIES

Cornell University Press Opening an entirely new dimension of Platonic studies, this volume addresses major themes: the nature of law, property, and acquisitiveness; Socrates' famous demonic voice; the poetic claim to inspiration; and the psychology of the tyrannic.

FREEDOM AND RESPONSIBILITY IN NEOPLATONIST THOUGHT

Oxford University Press, USA The Neoplatonists have a perfectionist view of freedom: an entity is free to the extent that it succeeds in making itself good. Free entities are wholly in control of themselves--they are self-determining, self-constituting, and self-knowing. Neoplatonist philosophers argue that such freedom is only possible for non-bodily things. The human soul is free insofar as it rises above bodily things and engages in intellection, but when it turns its desires to bodily things, it is drawn under the sway of fate and becomes enslaved. Ursula Coope discusses this notion of freedom and its relation to questions about responsibility. She explains the important role of notions of self-reflexivity in Neoplatonist accounts of both freedom and responsibility. In Part I, Coope sets out the puzzles Neoplatonist philosophers face about freedom and responsibility and explains how these puzzles arise from earlier discussions. Part II explores the metaphysical underpinnings of the Neoplatonist notion of freedom (concentrating especially on the views of Plotinus and Proclus). In what sense, if any, is the ultimate first principle of everything (the One) free? If everything else is under this ultimate first principle, how can anything other than the One be free? What is the connection between freedom and nonbodiliness? Finally, Coope considers in Part III questions about responsibility, arising from this perfectionist view of freedom. Why are human beings responsible for their behaviour, in a way that other animals are not? If we are enslaved when we act viciously, how can we be to blame for our vicious actions and choices?

LOGICAL FOUNDATIONS OF COMPUTER SCIENCE

INTERNATIONAL SYMPOSIUM, LFCS 2009, DEERFIELD BEACH, FL, USA, JANUARY 3-6, 2009, PROCEEDINGS

Springer This book constitutes the refereed proceedings of the International Symposium on Logical Foundations of Computer Science, LFCS 2009, held in Deerfield Beach, Florida, USA in January 2008. The volume presents 31 revised refereed papers carefully selected by the program committee. All current aspects of logic in computer science are addressed, including constructive mathematics and type theory, logical foundations of programming, logical aspects of computational complexity, logic programming and constraints, automated deduction and interactive theorem proving, logical methods in protocol and program verification and in program specification and extraction, domain theory logics, logical foundations of database theory, equational logic and term rewriting, lambda and combinatory calculi, categorical logic and topological semantics, linear logic, epistemic and temporal logics, intelligent and multiple agent system logics, logics of proof and justification, nonmonotonic reasoning, logic in game theory and social software, logic of hybrid systems, distributed system logics, system design logics, as

well as other logics in computer science.

AI 2019: ADVANCES IN ARTIFICIAL INTELLIGENCE

32ND AUSTRALASIAN JOINT CONFERENCE, ADELAIDE, SA, AUSTRALIA, DECEMBER 2-5, 2019, PROCEEDINGS

Springer Nature This book constitutes the proceedings of the 32nd Australasian Joint Conference on Artificial Intelligence, AI 2019, held in Adelaide, SA, Australia, in December 2019. The 48 full papers presented in this volume were carefully reviewed and selected from 115 submissions. The paper were organized in topical sections named: game and multiagent systems; knowledge acquisition, representation, reasoning; machine learning and applications; natural language processing and text analytics; optimization and evolutionary computing; and image processing.

THE LUTHERAN STANDARD

WEB INFORMATION SYSTEMS ENGINEERING - WISE 2005

6TH INTERNATIONAL CONFERENCE ON WEB INFORMATION SYSTEMS ENGINEERING, NEW YORK, NY, USA, NOVEMBER 20-22, 2005, PROCEEDINGS

Springer Science & Business Media This book constitutes the proceedings of the 6th International Conference on Web Information Systems Engineering, WISE 2005, held in New York, NY, USA, in November 2005. The 30 revised full papers and 20 revised short papers presented together with 18 poster papers were carefully reviewed and selected from 259 submissions. The papers are organized in topical sections on Web mining, Web information retrieval, metadata management, ontology and semantic Web, XML, Web service method, Web service structure, collaborative methodology, P2P, ubiquitous and mobile, document retrieval applications, Web services and e-commerce, recommendation and Web information extraction, P2P, grid and distributed management, and advanced issues. The presentation is rounded off by 14 industrial papers and the abstracts of 4 tutorial sessions.

100 ANSWERS TO 100 QUESTIONS ABOUT HOW TO LIVE LONGER

Charisma Media Live Better, LONGER In 100 Answers to 100 Questions about How to

Live Longer, leading natural health expert Dr. Janet Maccaro reveals the simple things you can do to extend AND improve your life without drugs and medications. You'll find answers to your most important health questions, including... Which antioxidants will help me live longer? Are there natural remedies for my sleepless nights? How do I cope with issues beyond my control? At the end of our days, we all want to have lived a happy, healthy life and made a difference. 100 Answers to 100 Questions about How to Live Longer will show you how.

FOUNDATIONS OF KNOWLEDGE REPRESENTATION AND REASONING

Springer Science & Business Media The papers collected in this book cover a wide range of topics in asymptotic statistics. In particular up-to-date-information is presented in detection of systematic changes, in series of observation, in robust regression analysis, in numerical empirical processes and in related areas of actuarial sciences and mathematical programming. The emphasis is on theoretical contributions with impact on statistical methods employed in the analysis of experiments and observations by biometricians, econometricians and engineers.

AARP THE ALZHEIMER'S ANSWER

REDUCE YOUR RISK AND KEEP YOUR BRAIN HEALTHY

John Wiley & Sons AARP Digital Editions offer you practical tips, proven solutions, and expert guidance. In The Alzheimer's Answer, Dr. Marwan Sabbagh, a front-line

researcher, offers cutting-edge advice on preventing and slowing the progress of Alzheimer's. Drawing on the most up-to-date information available on the disease as well as experiences from his clinical practice, Dr. Sabbagh, a leading expert in Alzheimer's research, translates the current ideas driving Alzheimer's treatment into practical information you can use to determine your risk and develop a prevention strategy. You'll find tools for assessing your personal Alzheimer's risk and "What You Can Do" sections to help you keep your brain and body healthy, plus information on the treatment of Alzheimer's and its complications. Gives you the most up-to-date information on Alzheimer's and Alzheimer's prevention Written by a neurologist specializing in geriatric neurology and dementia who is one of the country's leading experts in Alzheimer's research Includes exciting revelations, such as finding that early onset Alzheimer's can be significantly slowed in its progress, giving the patient as many as ten to fifteen added years of quality life There are an estimated 5.2 million people living with Alzheimer's in America today. If you or someone you love is at risk of developing the disease or wishes to slow its advancement, this book will give you vital information to help you reduce risk and safeguard health and quality of life.

GRAND CANYON TO HEARST RANCH

ONE WOMAN'S FIGHT TO SAVE LAND IN THE AMERICAN WEST

Rowman & Littlefield Inspired by her first breathtaking trip in the Grand Canyon, Harriet Hunt Burgess dedicated her life to saving land for future generations. Beginning in the 1970s, she persevered through four decades—overcoming daunting obstacles and taking extraordinary risks—to conserve hundreds of thousands of acres of land in the American West. Without Burgess, iconic and irreplaceable landscapes like the Lake Tahoe region and the California coast would be much different today. As Harriet Burgess once explained, “The land we save is our legacy. It’s what we give to our children.” The Grand Canyon was the catalyst for Harriet’s conservation mission and the spark for Grand Canyon to Hearst Ranch. Author Elizabeth Austin has interwoven her own exhilarating and life-changing dory trip through the depths of the Grand Canyon with the compelling story of Harriet’s early life and five of her most significant conservation achievements as founder-president of the American Land Conservancy.

GEORGE BERKELEY ALCIPHON IN FOCUS

Routledge Alciphron, or the Minute Philosopher (1732) is Berkeley's main work of philosophical theology and a crucial source of his views on meaning and language. This edition contains the four most important dialogues and a selection of critical essays and commentaries reflecting the response of such writers as Hutcheson, Mill and Antony Flew. The only single edition currently in print, it argues that Alciphron has a more important place both in the Berkeley canon and in early modern philosophy than is generally thought.

REASONING WEB: LOGICAL FOUNDATION OF KNOWLEDGE GRAPH CONSTRUCTION AND QUERY ANSWERING

12TH INTERNATIONAL SUMMER SCHOOL 2016, ABERDEEN, UK, SEPTEMBER 5-9, 2016, TUTORIAL LECTURES

Springer This volume contains some lecture notes of the 12th Reasoning Web Summer School (RW 2016), held in Aberdeen, UK, in September 2016. In 2016, the theme of the school was “Logical Foundation of Knowledge Graph Construction and Query Answering”. The notion of knowledge graph has become popular since Google started to use it to improve its search engine in 2012. Inspired by the success of Google, knowledge graphs are gaining momentum in the World Wide Web arena. Recent years have witnessed increasing industrial take-ups by other Internet giants, including Facebook's Open Graph and Microsoft's Satori. The aim of the lecture note is to provide a logical foundation for constructing and querying knowledge graphs. Our journey starts from the introduction of Knowledge Graph as well as its history, and the construction of knowledge graphs by considering both explicit and implicit author intentions. The book will then cover various topics, including how to revise and reuse ontologies (schema of knowledge graphs) in a safe way, how to combine navigational queries with basic pattern matching queries for knowledge graph, how to setup a environment to do experiments on knowledge graphs, how to deal with inconsistencies and fuzziness in ontologies and knowledge graphs, and how to combine machine learning and machine reasoning for knowledge graphs.

MANAGING TO NURSE

INSIDE CANADA'S HEALTH CARE REFORM

University of Toronto Press How does the contemporary restructuring of health care affect nursing practice? Increasingly since the 1970s, and more intensively under recent reforms, Canadian health care is the focus of information-supported, professionally based management. In *Managing to Nurse*, Janet M. Rankin and Marie L. Campbell probe the operation of this new form of hospital and its effect management on nurses and nursing. Written from the nurse's perspective, this institutional ethnography discovers a major transformation in the nature of nursing and associated patient care: the work is now organized according to an accounting logic that embeds a cost-orientation into care-related activities. Rankin and Campbell illustrate how nurses adapt to this new reality just as they, themselves, perpetuate it - how they learn to recognize their adaptations as professionally correct and as an adequate basis for nursing judgement. Although *Managing to Nurse* may contradict contemporary beliefs about health care reform, the insiders' account that it provides is undeniable evidence that nurses' caring work is being undermined and patient care is being eroded, sometimes dangerously, by current health care agendas.

PRINCIPLES OF KNOWLEDGE REPRESENTATION AND REASONING

PROCEEDINGS OF THE THIRD INTERNATIONAL CONFERENCE (KR '92)

Morgan Kaufmann Pub Stringently reviewed papers presented at the October 1992 meeting held in Cambridge, Mass., address such topics as nonmonotonic logic; taxonomic logic; specialized algorithms for temporal, spatial, and numerical reasoning; and knowledge representation issues in planning, diagnosis, and natural langu

ALCIBIADES AND THE SOCRATIC LOVER-EDUCATOR

Bloomsbury Publishing In the Platonic work Alcibiades I, a divinely guided Socrates adopts the guise of a lover in order to divert Alcibiades from an unthinking political career. The contributors to this carefully focussed volume cover aspects of the background to the work; its arguments and the philosophical issues it raises; its relationship to other Platonic texts, and its subsequent history up to the time of the Neoplatonists. Despite its ancient prominence, the authorship of Alcibiades I is still unsettled; the essays and two appendices, one historical and one stylometric, come together to suggest answers to this tantalising question.

AUTOMATED REASONING

4TH INTERNATIONAL JOINT CONFERENCE, IJCAR 2008, SYDNEY, NSW, AUSTRALIA, AUGUST 12-15, 2008, PROCEEDINGS

Springer This book constitutes the refereed proceedings of the 4th International Joint Conference on Automated Reasoning, IJCAR 2008, held in Sydney, Australia, in August 2008. The 26 revised full research papers and 13 revised system descriptions presented together with 4 invited papers and a summary of the CASC-J4 systems competition were carefully reviewed and selected from 80 full paper and 17 system

description submissions. The papers address the entire spectrum of research in automated reasoning and are organized in topical sections on specific theories, automated verification, protocol verification, system descriptions, modal logics, description logics, equational theories, theorem proving, CASC, the 4th IJCAR ATP system competition, logical frameworks, and tree automata.

NEXT GENERATION INFORMATION SYSTEM TECHNOLOGY

FIRST INTERNATIONAL EAST/WEST DATA BASE WORKSHOP, KIEV, USSR, OCTOBER 9-12, 1990. PROCEEDINGS

Springer Science & Business Media The papers in this book discuss the concepts that will determine the next generation of information systems, such as data types for databases, object orientation, data deduction and construction, visual database interfaces, interoperability and extensibility, open architectures.

ALCIPHON, OR THE MINUTE PHILOSOPHER

IN SEVEN DIALOGUES. : CONTAINING AN APOLOGY FOR THE CHRISTIAN RELIGION, AGAINST THOSE WHO ARE CALLED FREE-THINKERS

ACTIVEPI COMPANION TEXTBOOK

A SUPPLEMENT FOR USE WITH THE ACTIVEPI CD-ROM

Springer Science & Business Media This Companion Textbook supplements the ActivEpi CD-ROM, sold separately. The ActivEpi CD-ROM provides a multimedia presentation of concepts, commonly taught in an introductory epidemiology course. ActivEpi mixes a full array of media to motivate, explain, visualize and apply epidemiological concepts. Virtually all of the material on the ActivEpi CD-ROM is included in the Companion Textbook. Because individuals differ in their learning skills, the ActivEpi CD-ROM and the ActivEpi Companion Textbook offer readers different but related options on how to learn epidemiology. The Textbook can be used as a hardcopy reference of the textual materials contained on the CD-ROM, as a resource for the practice exercises, as a general reference, or even a self-contained textbook. ActivEpi includes 15 lessons and over 50 hours of content via more than 250 launchable activities and homework exercises. It can be used in a variety of teaching formats: distance learning, self-paced learning, on-campus courses, and short courses. For the latest additions to ActivEpi, visit David Kleinbaum's website.
