Darwin Devolves

The New Science About DNA That Challenges Evolution

HarperCollins The scientist who has been dubbed the "Father of Intelligent Design" and author of the groundbreaking book Darwin's Black Box contends that recent scientific discoveries further disprove Darwinism and strengthen the case for an intelligent creator. In his controversial bestseller Darwin's Black Box, biochemist Michael Behe challenged Darwin's theory of evolution, arguing that science itself has proven that intelligent design is a better explanation for the origin of life. In Darwin Devolves, Behe advances his argument, presenting new research that offers a startling reconsideration of how Darwin's mechanism works, weakening the theory's

validity even more. A system of natural selection acting on random mutation, evolution can help make something look and act differently. But evolution never creates something organically. Behe contends that Darwinism actually works by a process of devolution—damaging cells in DNA in order to create something new at the lowest biological levels. This is important, he makes clear, because it shows the Darwinian process cannot explain the creation of life itself. “A process that so easily tears down sophisticated machinery is not one which will build complex, functional systems,” he writes. In addition to disputing the methodology of Darwinism and how it conflicts with the concept of creation, Behe reveals that what makes Intelligent Design unique—and right—is that it acknowledges causation. Evolution proposes that organisms living today are descended with modification from organisms that lived in the distant past. But Intelligent Design goes a step further asking, what caused such astounding changes to take place? What is the reason or mechanism for evolution? For Behe, this is what makes Intelligent Design so important.

Divided Nation

Cultures in Chaos & A Conflicted Church

New Leaf Publishing Group Divided Nation: Cultures in Chaos & A Conflicted Church provides families and their churches biblical mandates to awaken and arise as influencers in today’s turbulent times. As Christian persecution increases, the Body of Christ needs to prepare to take a bold stand. Ken Ham, CEO and founder of Answers in Genesis-US, the highly acclaimed Creation Museum, and the world-renowned Ark Encounter, sounds the call for Reformation bringing God’s people back to the authority of the Word of God beginning in Genesis. Can the church regain a position of influence among this generation of “truth seekers” who reject God and His Word? To combat today’s chaotic culture and the conflicted church, Ham

addresses five specific issues: There is no neutral position There is no non-religious position There are ultimately only two religions Creation apologetics How to think foundationally to develop a truly Christian worldview Make a stand for the soul of this generation. Divided Nation shines an empowering light on the struggle of the church to retain young believers. Glean from it the issues that must be addressed and find clarity amid the chaos of the culturally conflicted church. "Divided Nation is an excellent call to Christians, pastors and thinkers alike to return to the supreme authority of God's Word and the God of all truth." Jack Hibbs - Calvary Chapel: Chino Hills, CA

Six Days

The Age of the Earth and the Decline of the Church

New Leaf Publishing Group Discover how many evangelical leaders, willingly or unwittingly, are undermining the authority of God's Word by compromising the Bible in Genesis Learn how allowing for an old/universe of billions of years unlocks a door of compromise Heed the wake-up call to the Church to return to the authority of God's Word, beginning in Genesis. Today, most Bible colleges, seminaries, K-12 Christian schools, and now even parts of the homeschool movement do not accept

the first eleven chapters of Genesis as literal history. They try to fit the supposed billions of years into Genesis, and some teach evolution as fact. Our churches are largely following suit. Ken Ham, international speaker and author on biblical authority, examines how compromise starting in Genesis, particularly in regard to the six days of creation and the earth's age, have filtered down from the Bible colleges and seminaries to pastors—and finally to parents and their children. This erosive legacy is seen in generations of young people leaving the Church—2/3 of them. Get the facts, discover God's truth, and help bring a new reformation to the Church by helping to call it back to the authority of God's Word.

Math Lessons for a Living Education Level 3

New Leaf Publishing Group Teach math lessons through the creative means of a life story Provide 36 weeks of instruction based on skill levels rather than grade levels Guide students by the use of inexpensive manipulatives, including index cards, dried beans, and construction paper! We often tend to compartmentalize when

teaching children. In real life, there aren't artificial barriers between "subjects." For example, when you are cooking or baking, you have to use the skills of reading, logical thinking, and measuring, just to name a few. In driving a car, you see and read road signs, read maps, and count miles. So why do we say to children, "This is math, this is language, this is about science and nature, and this is history"? The most natural and effective means to teach children is through life examples. Content, story, and the ability to show math in real life make a living math book!

Has God Spoken?

Proof of the Bible's Divine Inspiration

Thomas Nelson Are Christians Guilty of Blind Faith, or Is The Bible Really God's Inspired Word? Can You Ever Know For Sure? Join best-selling author Hank Hanegraaff for a stirring defense of the Bible as the Word of God and your only reliable foundation for life. In answering the riveting question, "Has God spoken?"

Hanegraaff uses manuscript evidence, archeology, predictive prophecy, and much more to memorably demonstrate that the Bible is divine rather than merely human in origin. Hanegraaff demolishes modern objections to Scripture, such as: There are more mistakes in manuscript copies of the Bible than there are words in the New Testament. The biblical account of King David is no more factual than tales of King Arthur—there simply is no evidence in archeology or history for Israel's quintessential king. Contemporary prophets are proven 100 percent wrong, 100 percent of the time, and biblical prophets are just as unreliable. Has God Spoken? joins its predecessors—The Face That Demonstrates the Farce of Evolution and Resurrection—as Hanegraaff's final book in a trilogy that provides complete and compelling answers to the most critical issues facing Christians today.

After His resurrection, did Jesus first appear to the eleven disciples on a mountain in Galilee or in Jerusalem behind closed doors? Can God be tempted? In the Beginning, God

Creation from God's Perspective

Dr. Heck presents a theological defense of young earth creationism through a straightforward reading of the first chapter of Genesis as narrative history. This book works well for topic study on creation and for Old Testament studies on the text of Genesis. Much has been written on the creation from the scientific view, but little has attempted to explain the text of Genesis 1. A failure to read Genesis 1 as narrative history almost always comes as a result of the reader bringing presuppositions on the assured results of science. The first chapter of Genesis must be taken as historical fact!
