Scars Upon My Heart

Virago Your battle wounds are scars upon my heart' wrote Vera Brittain in a poem to her beloved brother, four days before he died in June 1918. The rediscovery of TESTAMENT OF YOUTH has reminded a new generation of the bitter sufferings of women as well as men in the terrible madness of the First World War. This, the first anthology of women war poets for over sixty years, will come as a surprise to many. It shows, for example, that women were writing protest poetry before Wilfred Owen and Siegfried Sassoon, and that the view of 'the women at home', ignorant and idealistic, was quite false. Many of these poems come out of direct experiences of nursing the victims of trench warfare, or the pain of lovers, brothers, sons lost. Poets include: Nancy Cunard, Rose Macaulay, Charlotte Mew, Alice Meynell, Edith Nesbit, Edith Sitwell, Marie Stopes, Katharine Tynan. Here, as elsewhere, 'the poetry is in the pity' - a moving record of women's experience of war.

AQA Psychology for A Level Year 2 - Student Book

Principles of Financial Accounting

Wiley In its US edition, 'Principles of Accounting' has been a market leading introductory accounting textbook for over 20 years. The Australasian adaptation of this highly regarded textbook accentuates its relevance to both students and academics alike with its constructive pedagogical structure, application of accounting to a wider business environment, and clear, easy-to-understand writing style. As accounting is the international language of business, with many students expecting their qualifications to open career opportunities internationally, 'Principles of Financial Accounting 2nd edition' aligns to the conceptual framework and financial reporting requirements under IFRS, as well as presenting real company financial information from the Australasian region. Throughout all chapters, accounting processes and systems are applied and illustrated with either real businesses or constructive hypothetical examples. A unique feature of the textbook is that it can be used in either a one semester or two semester introductory accounting subject. Students who study with this textbook will be equipped with knowledge and skills required for their further accounting studies and eventual career as an accounting professional.

Computerised Book-Keeping

How To Books This book is suitable for those preparing for the examinations of ICB, AAT, IAB, OCR, AQA and all other courses in computerised accounting. Learning computerised book-keeping skills is very different from manual accounting. It can seem more like learning computer studies than book-keeping, and it is often difficult to connect it with what may have been previously learned in manual book-keeping. In this book Dr Marshall resolves this problem with the same skill and insight that made his book on manual book-keeping, *Mastering Book-keeping*, so useful to readers over the years. Deliberately constructing a clear and continuous bridge between the methods so that the student never loses sight of the double entry concept, he presents the material in a way that makes computerised book-keeping clear and easy to understand.
