Routledge Teaching Recent Global History explores innovative ways to teach world history, beginning with the early 20th century. The authors' unique approach unites historians, social studies teachers, and educational curriculum specialists to offer historically rich, pedagogically innovative, and academically rigorous lessons that help students connect with and deeply understand key events and trends in recent global history. Highlighting the best scholarship for each major continent, the text explores the ways that this scholarship can be adapted by teachers in the classroom in order to engage and inspire students. Each of the eight main chapters highlights a particularly important event or theme, which is then complemented by a detailed discussion of a particular methodological approach. Key features include:

- An overarching narrative that helps readers address historical arguments;
- Relevant primary documents or artifacts, plus a discussion of a particular historical method well-suited to teaching about them;
- Lesson plans suitable for both middle and secondary level classrooms;
- Document-based questions and short bibliographies for further research on the topic.

World History & Geography Teaching World History Thematically Essential Questions and Document-Based Lessons to Connect Past and Present

Teachers College Press This book offers the tools teachers need to get started with a more thoughtful and compelling approach to teaching history, one that develops literacy and higher-order thinking skills, connects the past to students' lives today, and meets social studies 3C standards and most state standards (grades 6-12). The author provides over 90 primary sources organized into seven thematic units, each structured around an essential question from world history. As students analyze carefully excerpted documents—including speeches by queens and rebels, ancient artifacts, and social media posts—they build an understanding of how diverse historical figures have approached key issues. At the same time, students learn to participate in civic debates and develop their own views on what it means to be a 21st-century citizen of the world. Each unit connects to current events with dynamic classroom activities that make history come alive. In addition to the documents themselves, this teaching manual provides strategies to assess student learning; mini-lectures designed to introduce documents; activities and reproducibles to help students process, display, and integrate their learning; guidance to help teachers create their own units; guidelines for respectful student debate and discussion; and more.

Book Features: A timely aid for secondary school teachers tasked with meeting standards and other state-level quality requirements. An approach that promotes student engagement and critical thinking to replace or augment a traditional textbook. Challenges to the "master narrative" of world history from figures like Queen Nzinga and Huda Sha'arawi, as well as traditionally recognized historical

figures such as Pericles and Napoleon. Essential questions to help students explore seven of the most important recurring themes in world history. Role-plays and debates to promote interaction among students. Printable copies of the documents included in the book can be downloaded at tccpress.com. **The Twentieth Century** Walch Publishing Offers activities to students that describe the major themes in world history during the twentieth century, including the struggles of nation-building among the countries that won independence and the growth of global communication. **Differentiated Lessons and Assessments: Social Studies, Grade 6** Teacher Created Resources Practical strategies, activities, and assessments help teachers differentiate lessons to meet the individual needs, styles, and abilities of students. Each unit of study includes key concepts, discussion topics, vocabulary, and assessments in addition to a wide range of activities for visual, logical, verbal, musical, and kinesthetic learners. Helpful extras include generic strategies and activities for differentiating lessons and McREL content standards. **World History Continuity & Change** Harcourt Brace **Doing History Investigating with Children in Elementary and Middle Schools** Routledge Now in its fifth edition, *Doing History* offers a unique perspective on teaching and learning history in the elementary and middle grades. Through case studies of teachers and students in diverse classrooms and from diverse backgrounds, it shows children engaging in authentic historical investigations, often in the context of an integrated social studies curriculum. The premise is that children can engage in valid forms of historical inquiry—collecting and analyzing data, examining the perspectives of people in the past, considering multiple interpretations, and creating evidence-based historical accounts. Grounded in contemporary sociocultural theory and research, the text features vignettes in each chapter showing communities of teachers and students doing history in environments rich in literature, art, writing, discussion, and debate. The authors explain how the teaching demonstrated in the vignettes reflects basic principles of contemporary learning theory. *Doing History* emphasizes diversity of perspectives in two ways: readers encounter students from a variety of backgrounds, and students themselves look at history from multiple perspectives. It provides clear guidance in using multiple forms of assessment to evaluate the specifically historical aspects of children’s learning. **4th Grade Language Development: Variety of Texts** The Rosen Publishing Group, Inc *Language Development: Variety of Texts* aids students in approaching different types of text, from articles, to fiction, to poetry. Curriculum-correlated activities help learners recognize different writing styles, understand what they are reading, and think critically about writing, and pre- and post-assessments aid teachers in individualizing instruction, diagnosing the areas where students are struggling, and measuring achievement, and support standards. **Ancient Times: Tests and Answer Key** Peace Hill Press *History* has been taught in a boring way for far too long. A subject as moving and powerful as humanity's past should be inviting, and when it is told well, it is. Susan Wise Bauer succeeds in telling the captivating story of history with her best-selling history series.
