ATTACK OF THE COPULA SPIDERS

ESSAYS ON WRITING

Biblioasis **A GLOBE & MAIL BEST BOOK OF THE YEAR FOR 2012** "Glover is a master of narrative structure." —Wall Street Journal In the tradition of E.M. Forster, John Gardner, and James Wood, Douglas Glover has produced a book on writing at once erudite, anecdotal, instructive, and amusing. **Attack of the Copula Spiders** represents the accumulated wisdom of a remarkable literary career: novelist, short story writer, essayist, teacher and mentor, Glover has for decades been asking the vital questions. How does the way we read influence the way we write? What do craft books fail to teach aspiring writers about theme, about plot and subplot, about constructing point of view? How can we maintain drama on the level of the

sentence—and explain drama in the sentences of others? What is the relationship of form and art? How do you make words live? Whether his subject is Alice Munro, Cervantes, or the creative writing classroom, Glover's take is frank and fresh, demonstrating again and again that graceful writers must first be strong readers. This collection is a call-to-arms for all lovers of English, and *Attack of the Copula Spiders* our best defense against the assaults of a post-literate age. Douglas Glover is the award-winning author of five story collections, four novels, and two works of non-fiction. He is currently on the faculty of the Vermont College of Fine Arts MFA in Writing program. Praise for Douglas Glover "So sharp, so evocative, that the reader sees well beyond the tissue of words into ... the author's poetic grace." - *The New Yorker* "Glover invents his own assembly of critical approaches and theories that is eclectic, personal, scholarly, and smart ... a direction for future literary criticism to take." - *The Denver Quarterly* "A ribald, raunchy wit with a talent for searing self-investigation." - *The Globe and Mail* "Knotty, intelligent, often raucously funny." - *Maclean's* "Passionately intricate." - *The Chicago Tribune* "Darkly humorous, simultaneously restless and relentless." - *Kirkus Reviews*

ATTACHMENT AND NEW BEGINNINGS

REFLECTIONS ON PSYCHOANALYTIC THERAPY

Routledge This collection of written pieces plots the work of an NHS psychotherapist, Jonathan Pedder, turning the science of psychiatry into human encounters. He had a career teaching and inspiring colleagues and students with psychoanalytic ways of thinking, encouraging and supporting them in the challenges of contemporary psychiatry. In his work he made the world of psychoanalysis accessible to non-analysts, and this book augments the textbook on psychotherapy which Pedder wrote with Dennis Brown. Pedder was a quiet visionary influential in offering a pathway for mental health workers from many disciplines to find their way to the psychoanalytic ideas that illuminate their patients/clients.'- Professor R. A JOURNEY ROUND THE SHIPPING FORECAST

Abacus This solemn, rhythmic intonation of the shipping forecast on BBC radio is as familiar as the sound of Big Ben chiming the hour. Since its first broadcast in the 1920s it has inspired poems, songs and novels in addition to its intended objective of warning generations of seafarers of impending storms and gales. Sitting at home listening to the shipping forecast can be a cosily reassuring experience. There's no danger of a westerly gale eight, veering southwesterly increasing nine later (visibility poor) gusting through your average suburban living room, blowing the Sunday papers all over the place and startling the cat. Yet familiar though the sea areas are by name, few people give much thought to where they are or what they contain. In **ATTENTION ALL SHIPPING** Charlie Connelly wittily explores the places behind the voice, those mysterious regions whose names seem often to bear no relation to conventional geography. Armchair travel will never be the same again.

ATLEE'S LABOUR GOVERNMENTS 1945-51

He looks at the main political personalities of the period, sets their work in the context of Labour history since 1900, and examines their domestic, foreign and imperial achievements.

AUDEN AND ISHERWOOD

THE BERLIN YEARS

Springer Drawing on much contemporary material, including Auden's fascinating unpublished diary, this book places personal experience in the context of the life of a great city: not only its political, artistic and cultural life, but the life of the streets, bars and caf It presents portraits of figures, often fascinating in their own right, with whom Auden and Isherwood came into contact, and it demonstrates how, especially in Isherwood's fiction, the raw material of daily existence was transformed into art. The wide scope of this study, which ranges from poetry and cinema to street violence and prostitution, provides a richly detailed context for its account of two writers engaged in the process of self-definition.

ATRIAL FIBRILLATION THERAPY

[Springer Science & Business Media](#) The paradigm for atrial fibrillation (AF) management has changed significantly in recent years. A new era has begun for the prevention of one of the most tremendous complication of AF, stroke. Prevention of ischemic stroke in AF patients with oral anticoagulants represents a huge challenge because of the narrow therapeutic change of these drugs, interindividual and intraindividual variability, and the unsatisfactory time in therapeutically range (TTR) with this type of medication. New guidelines have emerged as a result of new mechanisms for initiation and perpetuation for pharmacotherapy to cure AF and trials with new classes of antithrombotic drugs are ongoing. The treatment of AF is still in its infancy, but recent research is revealing how it can be applied with optimal efficacy. This book assists trainees, recertifying physicians, practicing physicians and other professional staff in internal medicine, cardiology, emergency medicine, and clinical pharmacology to apply new diagnostic tools for selecting the best treatment options for AF patients.
