THE PIANO SHOP ON THE LEFT BANK

DISCOVERING A FORGOTTEN PASSION IN A PARIS ATELIER

Random House A warm and intuitive portrait of the secret Paris—one closed to all but a knowing few—The Piano Shop on the Left Bank is the perfect book for music lovers, or for anyone who longs to recapture a lost passion. Thad Carhart never realized there was a gap in his life until he happened upon Desforges Pianos, a demure little shopfront in his Paris neighborhood that seemed to want to hide rather than advertise its wares. Like Alice in Wonderland, he found his attempts to gain entry rebuffed at every turn. An accidental introduction finally opened the door to the quartier's oddest hangout, where locals—from university professors to pipefitters—gather on Friday evenings to discuss music, love, and life over a glass of wine. Luc, the atelier's master, proves an excellent guide to the history of this most gloriously impractical of instruments. A bewildering variety passes through his restorer's hands: delicate ancient pianofortes, one perhaps the onetime possession of Beethoven. Great hulking beasts of thunderous voice. And the modest piano "with the heart of a lion" that was to become Thad's own.

BEND, NOT BREAK

A LIFE IN TWO WORLDS

Penguin Born on the eve of China's Cultural Revolution, Ping Fu was separated from her family at the age of eight. She grew up fighting hunger and humiliation and shielding her younger sister from the teenagers in Mao's Red Guard. At twenty-five, she found her way to the United States; her only resources were \$80 and a few phrases of English. Yet Ping persevered, and the hard-won lessons of her childhood guided her to success in her new homeland. Aided by her well-honed survival instincts, a few good friends, and the kindness of strangers, she grew into someone she never thought she'd be—a strong, independent, entrepreneurial leader. "She tells her story with intelligence, verve and a candor that is often heart-rending." —The Wall Street Journal "This well-written tale of courage, compassion, and undaunted curiosity reveals the life of a genuine hero." —Booklist (starred review) "Her success at the American Dream is a real triumph." —The New York Post

THE BOSTON GIRL

Simon and Schuster When Addie Baum's 22-year old granddaughter asks her about her childhood, Addie realises the moment has come to relive the full history that shaped her. Addie Baum was a Boston Girl, born in 1900 to immigrant Jewish parents who lived a very modest life. But Addie's intelligence and curiosity propelled her to a more modern path. Addie wanted to finish high school and to go to college. She wanted a career, to find true love. She wanted to escape the confines of her family. And she did. Told against the backdrop of World War I, and written with the same immense emotional impact that has made Diamant's previous novels bestsellers, The Boston Girl is a moving portrait of one woman's complicated life in the early 20th Century, and a window into the lives of all women seeking to understand the world around them.

THE WHITE EYELASH

POEMS

Grove/Atlantic, Inc. A poetry collection of "peculiar grace" from the National Book Critics Circle Award finalist author of *Dailies & Rushes* (Brian Phillips, Poetry Magazine). Susan Kinsolving's first poetry collection, *Dailies & Rushes*, was hailed as a "brilliant debut" by the New York Times, and "grand and almost terrifying" by the New Yorker. In her new work, *The White Eyelash*, she turns the extremes of her recent experiences—especially those with her ageing, mentally ill mother—into poems of harsh factuality. This dark narrative sequence is highly contrasted by the humor presented in a section called "Light Fare & Oddballs." Once again, Kinsolving exhibits a daunting range with signature style and substance. "[The White Eyelash] finds the poet remembering her trouble mother, concentrating on visual detail or pursuing light-verse forms and verbal games with a demotically highbrow, casual grace. . . . Often organized around colors . . . these poems show a love for beauty and a casual line reminiscent of Eamon Grennan's." —Publishers Weekly

WRITING FROM THE CENTER

Indiana University Press Writing from the Center is about one very fine writer's quest for a meaningful and moral life. The center he seeks and describes is geographical, emotional, artistic, and spiritual - and it is rooted in place. The geography is midwestern, the impulses are universal. Where and how do we find meaning? Where does a writer find inspiration? How can personal, artistic, family, and community needs be blended to create a harmonious life? What aids exist in such a "located" life against despair? How should a writer relate to and represent his place? Twelve interrelated essays probe these questions from different perspectives. "Buckeye" examines the resonance of objects and the mysteries of relationships and death. "Imagining the Midwest" surveys how other writers have seen and related to their region. "The Common Life" makes an eloquent case for community values. "Sanctuary" is an eloquent and painful consideration of environmental degradation. "Writing from the Center" and "Letter to a Reader" deal with Sanders's decisions to locate in the Midwest, to know his place, and to write about it in both fiction and nonfiction.

QUERY PROCESSING OVER GRAPH-STRUCTURED DATA ON THE WEB

IOS Press In the last years, Linked Data initiatives have encouraged the publication of large graph-structured datasets using the Resource Description Framework (RDF). Due to the constant growth of RDF data on the web, more flexible data management infrastructures must be able to efficiently and effectively exploit the vast amount of knowledge accessible on the web. This book presents flexible query processing strategies over RDF graphs on the web using the SPARQL query language. In this work, we show how query engines can change plans on-the-fly with adaptive techniques to cope with unpredictable conditions and to reduce execution time. Furthermore, this work investigates the application of crowdsourcing in query processing, where engines are able to contact humans to enhance the quality of query answers. The theoretical and empirical results presented in this book indicate that flexible techniques allow for querying RDF data sources efficiently and effectively.

TOWARDS THE MULTILINGUAL SEMANTIC WEB

PRINCIPLES, METHODS AND APPLICATIONS

Springer To date, the relation between multilingualism and the Semantic Web has not yet received enough attention in the research community. One major challenge for the Semantic Web community is to develop architectures,

frameworks and systems that can help in overcoming national and language barriers, facilitating equal access to information produced in different cultures and languages. As such, this volume aims at documenting the state-of-the-art with regard to the vision of a Multilingual Semantic Web, in which semantic information will be accessible in and across multiple languages. The Multilingual Semantic Web as envisioned in this volume will support the following functionalities: (1) responding to information needs in any language with regard to semantically structured data available on the Semantic Web and Linked Open Data (LOD) cloud, (2) verbalizing and accessing semantically structured data, ontologies or other conceptualizations in multiple languages, (3) harmonizing, integrating, aggregating, comparing and repurposing semantically structured data across languages and (4) aligning and reconciling ontologies or other conceptualizations across languages. The volume is divided into three main sections: Principles, Methods and Applications. The section on "Principles" discusses models, architectures and methodologies that enrich the current Semantic Web architecture with features necessary to handle multiple languages. The section on "Methods" describes algorithms and approaches for solving key issues related to the construction of the Multilingual Semantic Web. The section on "Applications" describes the use of Multilingual Semantic Web based approaches in the context of several application domains. This volume is essential reading for all academic and industrial researchers who want to embark on this new research field at the intersection of various research topics, including the Semantic Web, Linked Data, natural language processing, computational linguistics, terminology and information retrieval. It will also be of great interest to practitioners who are interested in re-examining their existing infrastructure and methodologies for handling multiple languages in Web applications or information retrieval systems.
