Managing Electronic Media

Making, Moving and Marketing

Digital Content

Taylor & Francis This college-level media management textbook reflects the changes in the media industries that have occurred in the past decade. Today's managers must address new issues that their predecessors never faced, from the threats of professional piracy and casual copying of digital media products, to global networks, on-demand consumption, and changing business models. The book explains the new new vocabulary of media moguls, such as bandwidth, digital rights management, customer relations management, distributed work groups, centralized broadcast operations, automated playlists, server-based playout, repurposing, mobisodes, TV-to-DVD, and content management. The chapters logically unfold the ways that managers are evolving their practices to make content, market it, and deliver it to consumers in a competitive, global digital marketplace. In addition to media companies, this book covers management processes that extend to all content-producing organizations, because today's students are as likely to produce high-quality video and Web video for ABC Computer Sales as they are for the ABC Entertainment Television Network.

Ten Acres Enough

A Practical Experience, Showing how a Very Small Farm May be Made to Keep a Very Large Family. With Extensive and Profitable Experience in the Cultivation of the Smaller Fruits

Ponds - Planning, Design, Construction (Agriculture Handbook

590)

Lulu.com For many years farmers and ranchers have been building ponds for livestock water and for irrigation. By 1980 more than 2.1 million ponds had been built in the United States by land users on privately owned land. More will be needed in the future. The demand for water has increased tremendously in recent years, and ponds are one of the most reliable and economical sources of water. Ponds are now serving a variety of purposes, including water for livestock and for irrigation, fish production, field and orchard spraying, fire protection, energy conservation, wildlife habitat, recreation, erosion control, and landscape improvement. This handbook describes embankment and excavated ponds and outlines the requirements for building each. The information comes from the field experience and observation of land users, engineers, conservationists, and other specialists.

Beginning SAP Fiori

Apress Take a deep dive into SAP Fiori and discover Fiori architecture, Fiori landscape installation, Fiori standard applications, Fiori Launchpad configuration, tools for developing Fiori applications and extending standard Fiori applications. You will learn: Fiori architecture and its applications Setting up a Fiori landscape and Fiori Launchpad Configuring, customizing and enhancing standard Fiori applications Developing Fiori native applications for mobile Internet of Things-based custom Fiori applications with the HANA cloud platform Bince Mathew, a SAP mobility expert working for an MNC in Germany, shows you how SAP Fiori, based on HTML5 technology, addresses the most widely and frequently used SAP transactions like purchase order approvals, sales order creation, information lookup, and self-service tasks. This set of HTML5 apps provides a very simple and accessible experience across desktops, tablets, and smartphones. Prerequisites and steps for setting up a Fiori landscape and Launchpad Fiori standard application configuration Extending and customizing standard Fiori applications Developing custom Fiori applications from scratch Building custom Fiori applications for Internet Of Things using HANA cloud Fiori apps with cordova and kapsel plugins

HCI Beyond the GUI

Design for Haptic, Speech,

Olfactory, and Other Nontraditional Interfaces

Elsevier As technology expands and evolves, one-dimensional, graphical user interface (GUI) design becomes increasingly limiting and simplistic. Designers must meet the challenge of developing new and creative interfaces that adapt to meet human needs and technological trends. **HCI Beyond the GUI** provides designers with this know how by exploring new ways to reach users that involve all of the human senses. Dr. Kortum gathers contributions from leading human factors designers to present a single reference for professionals, researchers, and students. Explores the human factors involved in the design and implementation of the nontraditional interfaces, detailing design strategies, testing methodologies, and implementation techniques Provides an invaluable resource for practitioners who design interfaces for children, gamers and users with accessibility needs Offers extensive case studies, examples and design guidelines

Don't Just Sit There, DO NOTHING

Healing, Chilling, and Living with the Tao Te Ching

Hampton Roads Publishing “Stressed-out readers will find her advice a salve in an overly hurried and critical world.” —*Publisher’s Weekly* “**Jessie Asya Kanzer** is like a Taoist Anne Lamott, and she's written a practical and

actionable guide." —Joel Fotinos, author of *The Prosperity Principles Here are 47 inspirational pieces that are smart, hip, accessible, and rich with insight; Jessie Asya Kanzer's bite-sized stories of struggle, triumph, and contemplation provide a quick burst of mindfulness. Each chapter begins with a verse from the Tao, followed by sharp observations and anecdotes from her own life that give the teachings of Lao Tzu applicability to contemporary life. And each chapter concludes with a "Do Your Tao" section that offers an actionable step, leaving the reader with a sense of grounding and fluidity. Chapters include: "Success Sucks (Sometimes)," "F*ck This, I'm Water," "I Love You, I Not Love You," "The Tao of Babushka," and "Mystics Wear Leggings".*

Advances in Digital Forensics XII

12th IFIP WG 11.9 International
Conference, New Delhi, January 4-6,
2016, Revised Selected Papers

Springer Digital forensics deals with the acquisition, preservation, examination, analysis and presentation of electronic evidence. Networked computing, wireless communications and portable electronic devices have expanded the role of digital forensics beyond traditional computer crime investigations. Practically every crime now involves some aspect of digital evidence; digital forensics provides the techniques and tools to articulate this evidence. Digital forensics also has myriad intelligence applications. Furthermore, it has a vital role in information assurance -- investigations of security breaches yield valuable information that can be used to design more secure systems. *Advances in Digital Forensics XII* describes original research results and innovative applications in the discipline of digital forensics. In addition, it highlights some of the major technical and legal issues related to digital evidence and electronic crime investigations. The areas of coverage include: Themes and Issues, Mobile Device Forensics,

Network Forensics, Cloud Forensics, Social Media Forensics, Image Forensics, Forensic Techniques, and Forensic Tools. This book is the twelfth volume in the annual series produced by the International Federation for Information Processing (IFIP) Working Group 11.9 on Digital Forensics, an international community of scientists, engineers and practitioners dedicated to advancing the state of the art of research and practice in digital forensics. The book contains a selection of twenty edited papers from the Twelfth Annual IFIP WG 11.9 International Conference on Digital Forensics, held in New Delhi, India in the winter of 2016. Advances in Digital Forensics XII is an important resource for researchers, faculty members and graduate students, as well as for practitioners and individuals engaged in research and development efforts for the law enforcement and intelligence communities. Gilbert Peterson, Chair, IFIP WG 11.9 on Digital Forensics, is a Professor of Computer Engineering at the Air Force Institute of Technology, Wright-Patterson Air Force Base, Ohio, USA. Sujeet Shenoj is the F.P. Walter Professor of Computer Science and a Professor of Chemical Engineering at the University of Tulsa, Tulsa, Oklahoma, USA.

Build Your Own Electric Vehicle, Third Edition

McGraw Hill Professional BUILD, CONVERT, OR BUY A STATE-OF-THE-ART ELECTRIC VEHICLE Thoroughly revised and expanded, Build Your Own Electric Vehicle, Third Edition, is your go-to guide for converting an internal combustion engine vehicle to electric or building an EV from the ground up. You'll also find out about the wide variety of EVs available for purchase and how they're being built. This new edition details all the latest breakthroughs, including AC propulsion and regenerative braking systems, intelligent controllers, batteries, and charging technologies. Filled with updated photos, this cutting-edge resource fully describes each component--motor, battery, controller, charger, and chassis--and provides illustrated, step-by-step instructions on how to assemble all the parts. Exclusive web content features current supplier and dealer lists. Custom-built for environmentalists, engineers, students, hobbyists, and mechanics, this hands-on guide puts you in the fast lane toward a cost-effective, reliable green machine. Build Your Own Electric Vehicle, Third Edition, covers: Environmental impact and energy savings The best EV for you--purchase trade-offs, conversion trade-offs, and conversion costs Chassis and design Different types of electric motors and controllers Lithium EV batteries Chargers and electrical systems EV builds and conversions Licensing and insuring your EV Driving and maintenance List of manufacturers and dealers regularly updated on website

The Studio Reader

On the Space of Artists

University of Chicago Press The image of a tortured genius working in near isolation has long dominated our conceptions of the artist's studio.

Examples abound: think Jackson Pollock dripping resin on a cicada carcass in his shed in the Hamptons. But times have changed; ever since Andy Warhol declared his art space a "factory," artists have begun to envision themselves as the leaders of production teams, and their sense of what it means to be in the studio has altered just as dramatically as their practices. The Studio Reader pulls back the curtain from the art world to reveal the real activities behind artistic production. What does it mean to be in the studio? What is the space of the studio in the artist's practice? How do studios help artists envision their agency and, beyond that, their own lives? This forward-thinking anthology features an all-star array of contributors, ranging from Svetlana Alpers, Bruce Nauman, and Robert Storr to Daniel Buren, Carolee Schneemann, and Buzz Spector, each of whom locates the studio both spatially and conceptually—at the center of an art world that careens across institutions, markets, and disciplines. A companion for anyone engaged with the spectacular sites of art at its making, The Studio Reader reconsiders this crucial space as an actual way of being that illuminates our understanding of both artists and the world they inhabit.

Beginning BlackBerry 7 Development

Apres Are you interested in creating BlackBerry apps using the latest BlackBerry 7 and BlackBerry Java Plug-in for Eclipse? Then this is the book for you. Beginning BlackBerry 7 Development offers a hands-on approach to learning how to build and deploy sophisticated BlackBerry apps using the latest tools and techniques available. Assuming only some programming background in Java or a similar language, this book starts with the basics, offering step-by-step tutorials that take you through downloading and installing the BlackBerry development environment, creating your first apps, and exploring the BlackBerry APIs. You'll be introduced to the latest features available in the latest BlackBerry 7 using BlackBerry Java Plug-in for Eclipse, including BlackBerry Application Platform Services, techniques for using multimedia with the BlackBerry, and tools for increasing app performance. To round out the complete development process, you'll also discover the different ways you can package and distribute your apps, from deploying apps on your own website to listing your apps for sale in the BlackBerry App World.

Professional BlackBerry

John Wiley & Sons BlackBerrys enable users to stay connected with wireless access to e-mail, calendars, and corporate data; they have a

phone and a Web browser in addition to other wireless features Written by a BlackBerry insider with assistance from Research in Motion, this book covers support topics ranging from setting up BlackBerry pilot programs to developing applications that let BlackBerry users access corporate data and systems remotely Key topics include how to deploy BlackBerrys within the organization, how to create push applications to extend the functionality of BlackBerrys, and how to implement new features of the latest BlackBerry Enterprise Server (BES) 4.0 Details rolling out BlackBerrys to users in an easy and controlled manner, planning for disaster recovery, and developing Web-based applications using mobile Web technology

Federal Land Transaction Facilitation Act

Nova Science Pub Incorporated The U.S. Department of the Interior's Bureau of Land Management (BLM), Fish and Wildlife Service, and National Park Service, and the U.S. Department of Agriculture's Forest Service manage about 628 million acres of public land, mostly in the 11 western states and Alaska. Under the Federal Land Transaction Facilitation Act (FLTFA), revenue raised from selling BLM lands is available to the agencies, primarily to acquire non-federal land within the boundaries of land they already own -- known as in-holdings, which can create significant land management problems. To acquire land, the agencies can nominate parcels under state-level interagency agreements or the Secretaries can use their discretion to initiate acquisitions. FLTFA expires in 2010. The author was asked to determine (1)FLTFA revenue generated, (2)challenges to future sales, (3)FLTFA expenditures, and (4)challenges to future acquisitions. This is an edited and indexed edition.
