---

Notion Press My First Attempt to Failure is my first attempt to tell the story about my failed startup, which I was earlier hesitant to talk about. While the success stories make headlines with their unicorn status, the failed ones go unnoticed. This is a true story of my start-up which failed in stealth mode. Well, it was not so famous, so the failure also went unnoticed. This book paints a vivid picture of my startup odyssey from leaving my job to starting an online job portal, [www.joblagao.com](http://www.joblagao.com), and eventually shutting it down. This book would help the budding entrepreneurs to get insights into the start-up journey and avoid the mistakes which I made. I have shared some ideas which are relevant for the recruitment industry. I have also shared my views on Product Management and Digital Marketing. I could not make my ideas a huge success, but I sincerely hope that my book on failure guides you to the path of success. You would have read many stories of successful start-ups, now it's time to feel the other side.

---

International Monetary Fund Published since 1950, this authoritative, annual reference is based upon a unique IMF database that tracks exchange and trade arrangements for all 186 IMF member countries, along with Hong Kong SAR, Aruba, and the Netherlands Antilles. The Annual Report on Exchange Arrangements and Exchange Restrictions (AREAER) draws together information available to the IMF from a number of sources, including during official IMF staff visits to member countries. There is a separate chapter for each of the 189 countries included, and these are presented in a clear, easy-to-read tabular format. A summary table allows for simple cross-country comparisons of key features of their exchange and trade regimes. The report's introduction summarizes recent global trends and developments. It discusses such topical issues as exchange rate arrangements, current or capital transactions, or prudential regulations. The individual country chapters outline exchange measures in place, the structure and setting of exchange rates, arrangements for payments and receipts, procedures for resident and nonresident accounts, mechanisms for import and export

payments and receipts, controls on capital transactions, and provisions specific to the financial sector. The report now provides more detailed information on the operations of foreign exchange markets and exchange rate mechanisms and better describes the regulatory framework for current and capital account transactions.
