## When Sophie Thinks She Can't...

*Scholastic Inc.* Three-time Caldecott Honor illustrator Molly Bang helps children solve problems by showing a different -- and highly effective -- approach: "I can't do it" becomes "I can't do it... yet." When Sophie can't solve a math puzzle,

she feels upset and inadequate. "I CAN'T DO IT!" she shouts, expressing the frustration all of us feel when we try and fail. Will she ever be "smart" like her sister? Maybe she isn't smart at all. Luckily Sophie's teacher steps in. What does it mean to be smart? Using current, popular "mindset" techniques, Sophie's class is taught that we get smarter when we exercise our brains, such as when we work harder at solving a puzzle. Struggling to solve a problem doesn't mean "I can't do it!" Sophie and her classmates just can't do it... yet! Readers will cheer when Sophie finally prevails, and at the end of the day, she's confident and optimistic. At home, Sophie uses her new technique to help her dad solve a carpentry puzzle. In this third book about Sophie, Molly Bang again helps children deal with a challenging everyday issue, providing an opening to ask: What do you do when you think, "I can't!"?

## A Basketball Season on the Navajo Nation

*Penguin* The moving story of a Navajo high school basketball team, its members struggling with the everyday challenges of high school, adolescence, and family, and the great and unique obstacles facing Native Americans living on reservations. Deep in the heart of northern Arizona, in a small and isolated patch of the vast 17.5-million-acre Navajo reservation, sits Chinle High School. Here, basketball is passion, passed from grandparent to parent to child. Rez Ball is a sport for winters where dark and cold descend fast and there is little else to do but roam mesa tops, work, and wonder what the future holds. The town has 4,500 residents and the high school arena seats 7,000. Fans drive thirty, fifty, even eighty miles to see the fast-paced and highly competitive matchups that are more than just games to players and fans. Celebrated Times journalist Michael Powell brings us a narrative of triumph and hardship, a moving story about a basketball team on a Navajo reservation that shows how important sports can be to youths in struggling communities, and the transcendent magic and painful realities that confront Native Americans living on reservations. This book details his season-long immersion in the team, town, and culture, in which there were exhilarating wins, crushing losses, and conversations on long bus rides across the desert about dreams of leaving home and the fear of the same.

Bringing Down the Polygamous Empire of Warren Jeffs

*Chicago Review Press* **The compelling story of the struggle by law enforcement and activists to dismantle the Fundamentalist Church of Jesus Christ of Latter Day Saints (FLDS) is finally told. In 1953, when police raided the Short Creek compound of the FLDS, it soon became a political and publicity nightmare eventually costing the governor of Arizona his job. Thus began 50 years of skittish public officials turning a blind eye to heinous offenses such as child abandonment, kidnapping, statutory rape, and incest, as well as massive tax and welfare fraud. Warren Jeffs became the new FLDS prophet and president in 2002, and anti-FLDS activists watched in horror as he used his boundless authority and the resources of a tax-supported community to devastate thousands of lives on cruel whims. This exposé presents a detailed, chilling account of how a hostile, destructive group can manipulate the U.S. judicial system. It is a mesmerizing journey into one of the United States's darkest corners, a story that stretches over three states and deep into the history of the powerful Mormon Church.**

A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That's what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That's where Will's now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother's gun. He gets on the elevator, seventh floor, stoked. He knows who he's after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that's when Will sees that one bullet is missing. And the only one who could have fired Shawn's gun was Shawn. Huh. Will didn't know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck's in the elevator? Just as Will's trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck's cigarette. Will doesn't know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

## Income Investing Explained: Your Questions Answered

*Henry Mah, CMA* After writing two books about Income Investing, I have been contacted regularly by readers with questions and requests for more information. It's not often one feels compelled to write a book because of questions from readers, but that's exactly how this book came about. It's not that readers didn't understand the process I described, it's just that people wanted more details, had specific suggestions and needed more information about making investing decisions, especially during different (and difficult) market conditions. In essence, people wanted an advanced outline to build upon the process described in my earlier books. So, the purpose of this book is not to repeat the process of stock evaluation, which is the foundation of my earlier books, but to provide further explanations and examples to help when making investing decisions. -Where to find ideal stocks for Income investing -How to determine under-valued stocks -How many stocks should you hold and in which sectors? -When to sell, even your long-time good

stocks -What happens and how your decisions might change during a market crisis -Is it ever too late to start investing for income? I'll also introduce a new Excel worksheet to help readers determine under-valued or expensive stocks, directing you to a new website for obtaining dividend data, and even provide a list of 45 Canadian and 35 US stocks, from which to begin your selection of quality income growth stocks. As always, these are my opinions and not professional financial advice. So, if you have the time and want to learn more, let's continue talking about Income Investing!

## Visual Phrasal Verbs

*David Nicholls* This book has been written as a learning aid for EFL students (English as a Foreign Language). It is geared towards upper-intermediate and advanced students, and the first half goes over the most common verbs (e.g. come, bring, put, and make) while the second half runs through the most common prepositions (e.g. up, down, with, and on). The phrasal verbs are grouped together to make them sink in quicker. Multiple images are included in every chapter to draw out the various shades of meaning and to make the words easier to memorize. Each chapter has at least one vocabulary table, one micro-text, one short exercise, and several striking images. At the end of the book, the vocabulary is revised in a number of exercises for antonyms and synonyms. For learners who are hungry for extra resources, there is a playlist on YouTube with almost 100 video lessons ('Learn Phrasal Verbs') that focus on the same vocabulary. This coursebook, combined with the videos, is ideal for self-study, but it could also be used in the classroom.
