Popular Photography Popular Photography Popular Photography Radar Instruction Manual Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. An Encyclopaedia of Hindu Architecture Illustrations: Numerous B/w Illustrations Description: P.K. Acharya's An Encyclopaedia of Hindu Architecture is a comprehensive work on the technical terminology, now obsolete but then in vogue, of the creators of such epics in stone as those of Sanchi and Konark during the ancient and medieval periods of Indian history. It contains about three thousand terms culled, with indefatigable industry spread over a long span of years, from ancient architectural treatises--Manasara, and Vastu-Sastras : Agamas, Puranas, Brahmanas, Sutras, epics, literary works, epigraphical records and manuscripts in obscure scripts. The terms are arranged in the order of Sanskrit alphabet. A brief rendering in English followed by extensive quotations from various sources and supplemented by line drawings and photographs elucidate every aspect of the term, leaving no room for ambiguity. Two appendices, one giving a sketch of Sanskrit treatises on architecture and the other furnishing a list of historical architects with short notes on their works, are added. This monumental work has remained a standard treatise of reference since its publication in 1946 for all connected with architecture. History of Indian and Indonesian Art This is a new release of the original 1927 edition. Epigraphia Zeylanica Being Lithic and Other Inscriptions of Ceylon Includes transliterated text of the inscriptions.
