The Americans U.S. History Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). World Migration Report 2020 *United Nations* Since 2000, IOM has been producing world migration reports. The World Migration Report 2020, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues. How the Other Half Lives Studies Among the Tenements of New York *Applewood Books* Global Trends 2030 Alternative Worlds *Createspace Independent Publishing Platform* This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. NIC 2012-001. Several innovations are included in Global Trends 2030, including: a review of the four previous Global Trends reports, input from academic and other experts around the world, coverage of disruptive technologies, and a chapter on the potential trajectories for the US role in the international system and the possible the impact on future international relations. Table of Contents: Introduction 1 Megatrends 6 Individual Empowerment 8 Poverty Reduction 8 An Expanding Global Middle Class 8 Education and the Gender Gap 10 Role of Communications Technologies 11 Improving Health 11 A MORE CONFLICTED IDEOLOGICAL LANDSCAPE 12 Diffusion of Power 15 THE RISE AND FALL OF COUNTRIES: NOT THE SAME OLD STORY 17 THE LIMITS OF HARD POWER IN THE WORLD OF 2030 18 Demographic Patterns 20 Widespread Aging 20 Shrinking Number of Youthful Countries 22 A New Age of Migration 23 The World as Urban 26 Growing Food, Water, and Energy Nexus 30 Food, Water, and Climate 30 A Brighter Energy Outlook 34 Game-Changers 38 The Crisis-Prone Global Economy 40 The Plight of the West 40 Crunch Time Too for the Emerging Powers 43 A Multipolar Global Economy: Inherently More Fragile? 46 The Governance Gap 48 Governance Starts at Home: Risks and Opportunities 48 INCREASED FOCUS ON EQUALITY AND OPENNESS 53 NEW GOVERNMENTAL FORMS 54 A New Regional Order? 55 Global Multilateral Cooperation 55 The Potential for Increased Conflict 59 INTRASTATE CONFLICT: CONTINUED DECLINE 59 Interstate Conflict: Chances Rising 61 Wider Scope of Regional Instability 70 The Middle East: At a Tipping Point 70 South Asia: Shocks on the Horizon 75 East Asia: Multiple Strategic Futures 76 Europe: Transforming Itself 78 Sub-Saharan Africa: Turning a Corner by 2030? 79 Latin America: More Prosperous but Inherently Fragile 81 The Impact of New Technologies 83 Information Technologies 83 AUTOMATION AND MANUFACTURING TECHNOLOGIES 87 Resource Technologies 90 Health Technologies 95 The Role of the United States 98 Steady US Role 98 Multiple Potential Scenarios for the United States' Global Role 101 Alternative Worlds 107 Stalled Engines 110 FUSION 116 Gini-out-of-the-Bottle 122 Nonstate World 128 Acknowledgements 134 GT2030 Blog References 137 Audience: Appropriate for anyone, from businesses to banks, government agencies to start-ups, the technology sector to the teaching sector, and more. This publication helps anticipate where the world will be: socially, politically, technologically, and culturally over the next few decades. Keywords: Global Trends 2030 Alternative Worlds, global trends 2030, Global Trends series, National Intelligence Council, global trajectories, global megatrends, geopolitics, geopolitical changes The New Americans Economic, Demographic, and Fiscal Effects of Immigration *National Academies Press* This book sheds light on one of the most controversial issues of the decade. It identifies the economic gains and losses from immigration--for the nation, states, and local areas--and provides a foundation for public discussion and policymaking. Three key questions are explored: What is the influence of immigration on the overall economy, especially national and regional labor markets? What are the overall effects of immigration on federal, state, and local government budgets? What effects will immigration have on the future size and makeup of the nation's population over the next 50 years? The New Americans examines what immigrants gain by coming to the United States and what they contribute to the country, the skills of immigrants and those of native-born Americans, the experiences of immigrant women and other groups, and much more. It offers examples of how to measure the impact of immigration on government revenues and expenditures--estimating one year's fiscal impact in California, New Jersey, and the United States and projecting the long-run fiscal effects on government revenues and expenditures. Also included is background information on immigration policies and practices and data on where immigrants come from, what they do in America, and how they will change the nation's social fabric in the decades to come. Global Trends 2030 Alternative Worlds : a Publication of the National Intelligence Council *U.S. Government Printing Office* This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous Global Trends reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of Global Trends 2030. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report. The Gilded Age A Tale of Today The House on Henry Street *Transaction Publishers* Nearly one hundred years after the Henry Street Settlement was founded, this venerable institution still serves the people of the lower East Side of New York. Much of the credit for its survival may be attributed to its founder, Lillian Wald, who is also the author of this book. "The House on Henry Street "was written at the height of the Progressive Era, when economic prosperity and an expansive spirit were pervasive, but when poverty and misery were the lot of countless new immigrants and families in urban areas. This book is the story of the early years of the Settlement and of the personal involvement of Lillian Wald in the social reform activities of the Settlement and the Progressive movements. From the first it was considered a significant work, and was widely and favorably reviewed. It remains significant. The story of the Henry Street Settlement is part of the history of New York City, as well as a key moment in the growth of social work in the United States. It is integrally related to the story of progressivism and social reform. Although the book's style is simple, it tells a complex story, both of one woman's indomitable nature, and of a special institution in a particular neighborhood of New York City. "The House on Henry Street "reflects the spirit of an optimistic era in which actors were part of larger social and political changes. It is also a history that moves easily from the personal, through the community, and finally to the national levels of American government. Professionals in the fields of volunteerism and philanthropy, progressivism, women's studies, and social welfare will find this an absorbing document. The Future of the Public's Health in the 21st Century *National Academies Press* The anthrax incidents following the 9/11 terrorist attacks put the spotlight on the nation's public health agencies, placing it under an unprecedented scrutiny that added new dimensions to the complex issues considered in this report. The Future of the Public's Health in the 21st Century reaffirms the vision of Healthy People 2010, and outlines a systems approach to assuring the nation's health in practice, research, and policy. This approach focuses on joining the unique resources and perspectives of diverse sectors and entities and challenges these groups to work in a concerted, strategic way to promote and protect the public's health. Focusing on diverse partnerships as the framework for public health, the book discusses: The need for a shift from an individual to a population-based approach in practice, research, policy, and community engagement. The status of the governmental public health infrastructure and what needs to be improved, including its interface with the health care delivery system. The roles nongovernment actors, such as academia, business, local communities and the media can play in creating a healthy nation. Providing an accessible analysis, this book will be important to public health policy-makers and practitioners, business and community leaders, health advocates, educators and journalists. Global Trends 2040 A More Contested World *Cosimo Reports* "The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading. The Great Immigration Debate Collection of articles by 16 authors in response to debate generated by comments of Prof. Blainey; paper by C. Perkins annotated separately. Sociology in Our Times: The Essentials *Cengage Learning* Current and relevant to today's students, SOCIOLOGY IN OUR TIMES: THE ESSENTIALS, 11th Edition presents the latest available data and new insights on behaviors, beliefs, issues, and trends in our nation and world from a sociological perspective. The new edition of this bestselling text emphasizes the themes of social change, the effects of social media on communication, and the intertwining nature of politics and social policy in the United States and worldwide. Students contemplate such issues as gun control, prevention of military suicides, environmental activism, and whether employers should be allowed to spy on their employees. New You Can Make a Difference boxes help students learn how to become involved in their communities and the world through such projects as campus kitchens and global networking to fight hunger. First-person accounts of individuals' lived experiences draw students into each chapter by illuminating topics

that reflect the text's primary themes. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Pathways to Urban Sustainability Challenges and Opportunities for the United States *National Academies Press* Cities have experienced an unprecedented rate of growth in the last decade. More than half the world's population lives in urban areas, with the U.S. percentage at 80 percent. Cities have captured more than 80 percent of the globe's economic activity and offered social mobility and economic prosperity to millions by clustering creative, innovative, and educated individuals and organizations. Clustering populations, however, can compound both positive and negative conditions, with many modern urban areas experiencing growing inequality, debility, and environmental degradation. The spread and continued growth of urban areas presents a number of concerns for a sustainable future, particularly if cities cannot adequately address the rise of poverty, hunger, resource consumption, and biodiversity loss in their borders. Intended as a comparative illustration of the types of urban sustainability pathways and subsequent lessons learned existing in urban areas, this study examines specific examples that cut across geographies and scales and that feature a range of urban sustainability challenges and opportunities for collaborative learning across metropolitan regions. It focuses on nine cities across the United States and Canada (Los Angeles, CA, New York City, NY, Philadelphia, PA, Pittsburgh, PA, Grand Rapids, MI, Flint, MI, Cedar Rapids, IA, Chattanooga, TN, and Vancouver, Canada), chosen to represent a variety of metropolitan regions, with consideration given to city size, proximity to coastal and other waterways, susceptibility to hazards, primary industry, and several other factors.

World Social Report 2020 Inequality in a Rapidly Changing World *United Nations* This report examines the links between inequality and other major global trends (or megatrends), with a focus on technological change, climate change, urbanization and international migration. The analysis pays particular attention to poverty and labour market trends, as they mediate the distributional impacts of the major trends selected. It also provides policy recommendations to manage these megatrends in an equitable manner and considers the policy implications, so as to reduce inequalities and support their implementation.

Rosa The Life of an Italian Immigrant *Univ of Wisconsin Press* "Rosa was born in a silk-making village in Lombardy, a major source of north Italian emigration. She first set foot in the United States at the Castle Garden immigrant depot on the tip of Manhattan. Her life in this country was hard, and Ets chronicles it in eloquent detail - Rosa endures a marriage at sixteen to an abusive older man, an unwilling migration to a Missouri mining town, the unassisted birth of a child, and manages to escape from a husband who tried to force her into prostitution.

Triumph of the City How Our Greatest Invention Makes Us Richer, Smarter, Greener, Healthier, and Happier *Penguin* Shortlisted for the Financial Times and McKinsey Best Book of the Year Award in 2011 "A masterpiece." —Steven D. Levitt, coauthor of *Freakonomics* "Bursting with insights." —The New York Times Book Review A pioneering urban economist presents a myth-shattering look at the majesty and greatness of cities America is an urban nation, yet cities get a bad rap: they're dirty, poor, unhealthy, environmentally unfriendly . . . or are they? In this revelatory book, Edward Glaeser, a leading urban economist, declares that cities are actually the healthiest, greenest, and richest (in both cultural and economic terms) places to live. He travels through history and around the globe to reveal the hidden workings of cities and how they bring out the best in humankind. Using intrepid reportage, keen analysis, and cogent argument, Glaeser makes an urgent, eloquent case for the city's importance and splendor, offering inspiring proof that the city is humanity's greatest creation and our best hope for the future.

On Gold Mountain The One Hundred Year Odyssey of My Chinese-American Family *Vintage* When she was a girl, Lisa See spent summers in the cool, dark recesses of her family's antiques store in Los Angeles' Chinatown. There, her grandmother and great-aunt told her intriguing, colourful stories about their family's past - stories of missionaries, concubines, tong wars, glamorous nightclubs, and the determined struggle to triumph over racist laws and discrimination. They spoke of how Lisa's great-great-grandfather emigrated from his Chinese village to the United States, and how his son followed him. As an adult, See spent five years collecting the details of her family's remarkable history. She interviewed nearly one hundred relatives and pored over documents at the National Archives, the immigration office, and in countless attics, basements, and closets for the intimate nuances of her ancestors' lives. The result is a vivid, sweeping family portrait that is at once particular and universal, telling the story not only of one family, but of the Chinese people in America - and of America itself, a country that both welcomes and reviles its immigrants like no other culture in the world. Sociologists in *Action Sociology, Social Change, and Social Justice* *SAGE* Brings the subject matter of sociology to life for students. Linking theory and practice, this textbook explores how sociological knowledge is used in the community to fight for social change and justice.

Eyewitness to America 500 Years of America in the Words of Those who Saw it Happen *Vintage* Hundreds of eyewitness accounts of great moments in American history include Langston Hughes on the Scottsboro boys, Jack London on the 1906 San Francisco earthquake, and other chronicles of the Salem witch trials and the Scopes trial

Managing California's Water From Conflict to Reconciliation *Public Policy Instit. of CA* **Global Innovation Index 2020 Who Will Finance Innovation?** *WIPO* The Global Innovation Index 2020 provides detailed metrics about the innovation performance of 131 countries and economies around the world. Its 80 indicators explore a broad vision of innovation, including political environment, education, infrastructure and business sophistication. The 2020 edition sheds light on the state of innovation financing by investigating the evolution of financing mechanisms for entrepreneurs and other innovators, and by pointing to progress and remaining challenges - including in the context of the economic slowdown induced by the coronavirus disease (COVID-19) crisis.

Dynamic Sociology Or Applied Social Science The Death and Life of Great American Cities *Vintage* Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the bitingly satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.

Managing the Risks of Extreme Events and Disasters to Advance Climate Change Adaptation Special Report of the Intergovernmental Panel on Climate Change *Cambridge University Press* This Intergovernmental Panel on Climate Change Special Report (IPCC-SREX) explores the challenge of understanding and managing the risks of climate extremes to advance climate change adaptation. Extreme weather and climate events, interacting with exposed and vulnerable human and natural systems, can lead to disasters. Changes in the frequency and severity of the physical events affect disaster risk, but so do the spatially diverse and temporally dynamic patterns of exposure and vulnerability. Some types of extreme weather and climate events have increased in frequency or magnitude, but populations and assets at risk have also increased, with consequences for disaster risk. Opportunities for managing risks of weather- and climate-related disasters exist or can be developed at any scale, local to international. Prepared following strict IPCC procedures, SREX is an invaluable assessment for anyone interested in climate extremes, environmental disasters and adaptation to climate change, including policymakers, the private sector and academic researchers.

American Immigration: a Very Short Introduction *VERY SHORT INTRODUCTIONS* "The population of the United States has diverse sources: territorial acquisition through conquest and colonialism, the slave trade, and voluntary immigration, which has been the greatest instrument of population expansion and has been central to the transition in the nineteenth and twentieth centuries from a rural-agricultural to an urban-industrial society. Recognition of the need for labor to develop and expand economic activity has been central to policies and laws enabling mass immigration. Many Americans, too, value the memory of immigrant ancestors, and are sentimentally inclined to immigrant strivings. Alongside the embrace of immigration has been the perception that immigration destabilizes social order, cultural coherence, job markets, and political alignments. In some observers that recognition has been animated by racist appraisals of various immigrant peoples and by nativism, a general dislike of people and things foreign to Americans. The century and a half of American nationhood has been characterized by both support for openness to immigration and embrace of a cosmopolitan formulation of American identity and for restrictions and assertions of belief in a core Anglo-American national character. The book traces three massive waves of immigration from the mid-nineteenth century to the present, and analyses the nature of immigration as a purposeful, structured activity, attitudes supporting or hostile to immigration, policies and laws regulating immigration, and the nature of and prospects for assimilation. This second edition takes account of the dramatic developments since 2011, including the crisis along the southwestern border and the intense conflict over illegal immigration"--

Hazard Mitigation Grant Program Desk Reference (FEMA 345) *Createspace Independent Pub* FEMA's Hazard Mitigation Grant Program is a powerful resource in the combined effort by Federal, State, and local government, as well as private industry and homeowners, to end the cycle of repetitive disaster damage. The Robert T. Stafford Disaster Relief and Emergency Assistance Act was passed on November 23, 1988, amending Public Law 93-288, the Disaster Relief Act of 1974. The Stafford Act included Section 404, which established the Hazard Mitigation Grant Program. In 1993, the Hazard Mitigation and Relocation Act amended Section 404 to increase the amount of HMGP funds available and the cost-share to 75 percent Federal. This amendment also encouraged the use of property acquisition and other non-structural flood mitigation measures. In an effort to streamline HMGP delivery, FEMA encourages States to develop their mitigation programs before disaster strikes. States are adopting a more active HMGP management role. Increased capabilities may include: Conducting comprehensive all-hazard mitigation planning prior to disaster events; Providing applicants technical assistance on sound mitigation techniques and hazard mitigation policy and procedures; Coordinating mitigation programs through interagency teams or councils. Conducting benefit-cost analyses; and Preparing National Environmental Policy Act reviews for FEMA approval. States that integrate the HMGP with their frequently updated State Administrative and Hazard Mitigation Plans will create cohesive and effective approaches to loss reduction. This type of coordinated approach minimizes the distinction between "pre-disaster" and "post-disaster" time periods, and instead produces an ongoing mitigation effort. Hazard mitigation is any sustained action taken to reduce or eliminate long-term risk to people and property from natural hazards and their effects. A key purpose of the HMGP is to ensure that the opportunity to take critical mitigation measures to protect life and property from future disasters is not lost during the recovery and reconstruction process following a disaster. Program grant funds available under Section 404 of the Stafford Act provide States with the incentive and capability to implement mitigation measures that previously may have been infeasible. The purpose of this Desk Reference is to: Provide comprehensive information about FEMA's Hazard Mitigation Grant Program (HMGP); Increase awareness of the HMGP as an integral part of statewide hazard mitigation efforts; and Encourage deeper commitments and increased responsibilities on the part of all States and communities to reduce damage and losses from natural disasters. This Desk Reference is organized to simplify program information and assist the reader with practical guidance for successful participation in the program. Lists of program-related acronyms and definitions are included, along with appendices that amplify selected aspects of the HMGP. This Desk Reference is organized into 14 sections, each of which presents a major HMGP subject area. In each section, information is presented on the right side of the page. In several sections, job aids containing supplemental material are provided. The job aids for each section can be found at the end of the section. At the front of each section, there is a detailed table of contents to help you locate specific information.

Hanging Together Unity and Diversity in American Culture *Yale University Press* This book presents three decades of writings by one of America's most distinguished historians. John Higham, renowned for his influential works on immigration, ethnicity, political symbolism, and the writing of history, here traces the changing contours of American culture since its beginnings, focusing on the ways that an extraordinarily mobile society has allowed divergent ethnic, class, and ideological groups to "hang together" as Americans. The book includes classic essays by Higham and more recent writings, some of which have been substantially revised for this publication. Topics range widely from the evolution of American national symbols and the fate of our national character to new perspectives on the New Deal, on other major turning points, and on changes in race relations after major American wars. Yet they are unified by an underlying theme: that a heterogeneous society and an inclusive national culture need each other. Report of the

National Advisory Commission on Civil Disorders Referred to as the Kerner Commission Report. Companion to Urban and Regional Studies *John Wiley & Sons* **COMPANION TO URBAN AND REGIONAL STUDIES** Indispensable overview and timely coverage of the major issues, debates, and research topics in urban and regional studies Companion to Urban and Regional Studies offers an up-to-date view of the rapidly growing field, exploring a diversity of theoretical perspectives, current and emerging research, and critical global policy concerns. Uniquely broad in geographical and thematic scope, this comprehensive volume brings together essays by more than fifty international scholars and researchers to provide expert assessments spanning the many dimensions of urban studies. Organized into five parts, the Companion begins with a review of the current state of cities across East Asia, Sub-Saharan Africa, North America, Europe, and Latin America, and all other world regions. Subsequent sections discuss contemporary theoretical perspectives, describe common methodological approaches used by urban scholars, and examine the political, social, and economic problems facing twenty-first century cities. Covering historical issues, current challenges, and comparative perspectives in urban studies, this timely resource: Addresses intensely debated policy issues such as governance, housing, immigration and migration, segregation, social mix, and gentrification Describes the use of demographic methods, advanced spatial analysis, social networks, policy mobilities, and ethnographies in urban studies research Discusses critical urban theory, feminist urban research, urbanization and environmental change, and the legacy of the Chicago School Covers contemporary research topics such as urban and regional inequalities, social heterogeneity and diversity, financialization Includes representative case studies of each region, including Australasia, Latin America, East Asia and South Asia Companion to Urban and Regional Studies is essential reading for scholars, researchers, practitioners, urban activists, and students, and it represents a must-have complement to The Wiley Blackwell Encyclopedia of Urban and Regional Studies. **The Challenge of Crime in a Free Society A Report** This report of the President's Commission on Law Enforcement and Administration of Justice -- established by President Lyndon Johnson on July 23, 1965 -- addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers. **Investing in Cultural Diversity and Intercultural Dialogue** *UNESCO* This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community. **The Jungle** *OUP Oxford* A searing novel of social realism, Upton Sinclair's *The Jungle* follows the fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print. **How Immigrants Contribute to Developing Countries' Economies** *OECD Publishing* **How Immigrants Contribute to Developing Countries' Economies** is the result of a project carried out by the OECD Development Centre and the International Labour Organization, with support from the European Union. The report covers the ten project partner countries. **The Cambridge Economic History of the United States** *Cambridge University Press* This three volume work offers a comprehensive survey of the history of economic activity and economic change in the United States, and in those regions whose economies have at certain times been closely allied to that of the US. **Health, United States, 2016, with Chartbook on Long-Term Trends in Health** *Government Printing Office* This annual overview report of national trends in health statistics contains a Chartbook that assesses the nation's health by presenting trends and current information on selected measures of morbidity, mortality, health care utilization and access, health risk factors, prevention, health insurance, and personal health-care expenditures. Chapters devoted to population characteristics, prevention, health risk factors, health care resources, personal health care expenditures, health insurance, and trend tables may provide the health/medical statistician, data analyst, biostatistician with additional information to complete experimental studies or provide necessary research for pharmaceutical companies to gain data for modeling and sampling. Undergraduate students engaged in applied mathematics or statistical compilations to graduate students completing biostatistics degree programs to include statistical inference principles, probability, sampling methods and data analysis as well as specialized medical statistics courses relating to epidemiology and other health topics may be interested in this volume. The late President expounds the need for an enlargement of our narrow immigration laws. His book expresses an ideal defined by Washington in the first years of the Republic: that America should always be a "propitious asylum for the unfortunates of other countries." **Truth Decay An Initial Exploration of the Diminishing Role of Facts and Analysis in American Public Life** *Rand Corporation* Political and civil discourse in the United States is characterized by "Truth Decay," defined as increasing disagreement about facts, a blurring of the line between opinion and fact, an increase in the relative volume of opinion compared with fact, and lowered trust in formerly respected sources of factual information. This report explores the causes and wide-ranging consequences of Truth Decay and proposes strategies for further action. **Land Grants to States Urban People and Places The Sociology of Cities, Suburbs, and Towns** *SAGE Publications* Daniel Monti, Michael Ian Borer, and Lyn C. Macgregor provide a thorough and comprehensive survey of the contemporary urban world that is accessible to students with **Urban People and Places: The Sociology of Cities, Suburbs, and Towns**. This new title will give balanced treatment to both the process by which cities are built (i.e., urbanization) and the ways of life practiced by people that live and work in more urban places (i.e., urbanism) unlike most core texts in this area. Whereas most texts focus on the socio-economic causes of urbanization, this text analyses the cultural component: how the physical construction of places is, in part, a product of cultural beliefs, ideas, and practices and also how the culture of those who live, work, and play in various places is shaped, structured, and controlled by the built environment. Inasmuch as the primary focus will be on the United States, global discussion is composed with an eye toward showing how U.S. cities, suburbs, and towns are different and alike from their counterparts in Africa, Asia, and Central and South America.
