### Study Guide to Animal Farm by George Orwell

**Influence Publishers** A comprehensive study guide offering in-depth explanation, essay, and test prep for George Orwell's Animal Farm, one of the most famous political satires to this day. As a book of the twentieth-century prior to the Cold War, it remains among the most celebrated allegorical novellas. Moreover, Animal Farm, while controversial at its time, became a success due to the political shift of the Cold War. This Bright Notes Study Guide explores the context and history of George Orwell's classic work, helping students to thoroughly explore the reasons it has stood the literary test of time. Each Bright Notes Study Guide contains: - Introductions to the Author and the Work - Character Summaries - Plot Guides - Section and Chapter Overviews - Test Essay and Study Q&As The Bright Notes Study Guide series offers an in-depth tour of more than 275 classic works of literature, exploring characters, critical commentary, historical background, plots, and themes. This set of study guides encourages readers to dig deeper in their understanding by including essay questions and answers as well as topics for further research.

Reviewing GED flash cards is the first step toward more confident GED preparation and ultimately, higher GED exam scores!

### The Triumph of Broken Promises

### The End of the Cold War and the Rise of Neoliberalism

**Harvard University Press** A powerful case that the economic shocks of the 1970s hastened both the end of the Cold War and the rise of neoliberalism by forcing governments to impose austerity on their own people. Why did the Cold War come to a peaceful end? And why did neoliberal economics sweep across the world in the late twentieth century? In this pathbreaking study, Fritz Bartel argues that the answer to these questions is one and the same. The Cold War began as a competition between capitalist and communist governments to expand their social contracts as they raced to deliver their people a better life. But the economic shocks of the 1970s made promises of better living untenable on both sides of the Iron Curtain. Energy and financial markets placed immense pressure on governments to discipline their social contracts. Rather than make promises, political leaders were forced to break them. In a sweeping narrative, The Triumph of Broken Promises tells the story of how the pressure to break promises spurred the end of the Cold War. In the West, neoliberalism provided Western leaders like Ronald Reagan and Margaret Thatcher with the political and ideological tools to shut down industries, impose austerity, and favor the interests of capital over labor. But in Eastern Europe, revolutionaries like Lech Walesa in Poland resisted any attempt at imposing market discipline. Mikhail Gorbachev tried in vain to reform the Soviet system, but the necessary changes ultimately presented too great a challenge. Faced with imposing economic discipline antithetical to communist ideals, Soviet-style governments found their legitimacy irreparably damaged. But in the West, politicians could promote austerity as an antidote to the excesses of ideological opponents, setting the stage for the rise of the neoliberal global economy.

### The Long Game

## China's Grand Strategy to Displace American Order

[Oxford University Press](#) For more than a century, no US adversary or coalition of adversaries - not Nazi Germany, Imperial Japan, or the Soviet Union - has ever reached sixty percent of US GDP. China is the sole exception, and it is fast emerging into a global superpower that could rival, if not eclipse, the United States. What does China want, does it have a grand strategy to achieve it, and what should the United States do about it? In *The Long Game*, Rush Doshi draws from a rich base of Chinese primary sources, including decades worth of party documents, leaked materials, memoirs by party leaders, and a careful analysis of China's conduct to provide a history of China's grand strategy since the end of the Cold War. Taking readers behind the Party's closed doors, he uncovers Beijing's long, methodical game to displace America from its hegemonic position in both the East Asia regional and global orders through three sequential "strategies of displacement." Beginning in the 1980s, China focused for two decades on "hiding capabilities and biding time." After the 2008 Global Financial Crisis, it became more assertive regionally, following a policy of "actively accomplishing something." Finally, in the aftermath populist elections of 2016, China shifted to an even more aggressive strategy for undermining US hegemony, adopting the phrase "great changes unseen in century." After charting how China's long game has evolved, Doshi offers a comprehensive yet asymmetric plan for an effective US response. Ironically, his proposed approach takes a page from Beijing's own strategic playbook to undermine China's ambitions and strengthen American order without competing dollar-for-dollar, ship-for-ship, or loan-for-loan.

## The European Union

### Questions and Answers

The European Union (EU) is a political and economic partnership that represents a unique form of cooperation among sovereign countries. The EU is the latest stage in a process of integration begun after World War II, initially by six Western European countries, to foster interdependence and make another war in Europe unthinkable. The EU currently consists of 28 member states, including most of the countries of Central and Eastern Europe, and has helped to promote peace, stability, and economic prosperity throughout the European continent. The EU has been built through a series of binding treaties. Over the years, EU member states have sought to harmonize laws and adopt common policies on an increasing number of economic, social, and political issues. EU member states share a customs union; a single market in which capital, goods, services, and people move freely; a common trade policy; and a common agricultural policy. Nineteen EU member states use a common currency (the euro), and 22 member states participate in the Schengen area of free movement in which internal border controls have been eliminated. In addition, the EU has been developing a Common Foreign and Security Policy (CFSP), which includes a Common Security and Defense Policy (CSDP), and pursuing cooperation in the area of Justice and Home Affairs (JHA) to forge common internal security measures. Member states work together through several EU institutions to set policy and to promote their collective interests. In recent years, however, the EU has faced a number of internal and external crises. Most notably, in a June 2016 public referendum, voters in the United Kingdom (UK) backed leaving the EU. The pending British exit from the EU (dubbed "Brexit") comes amid multiple other challenges, including the rise of populist and to some extent anti-EU political parties, concerns about democratic backsliding in some member states (including Poland and Hungary), ongoing pressures related to migration, a heightened terrorism threat, and a resurgent Russia. The United States has supported the European integration project since its inception in the 1950s as a means to prevent another catastrophic conflict on the European continent and foster democratic allies and strong trading partners. Today, the United States and the EU have a dynamic political partnership and share a huge trade and investment relationship. Despite periodic tensions in U.S.-EU relations over the years, U.S. and EU policymakers alike have viewed the partnership as serving both sides' overall strategic and economic interests. EU leaders are anxious about the Trump Administration's commitment to the EU project, the transatlantic partnership, and an open international trading system-especially amid the Administration's imposition of tariffs on EU steel and aluminum products since 2018 and the prospects of future auto tariffs. In July 2018, President Trump reportedly called the EU a "foe" on trade but the Administration subsequently sought to de-escalate U.S.-EU tensions and signaled its intention to launch new U.S.-EU trade negotiations. Concerns also linger in Brussels about the implications of the Trump Administration's "America First" foreign policy and its positions on a range of international issues, including Russia, Iran, the Israeli-Palestinian conflict, climate change, and the role of multilateral institutions. This report serves as a primer on the EU. Despite the UK's vote to leave the EU, the UK remains a full member of the bloc until it officially exits the EU (which is scheduled to occur by October 31, 2019, but may be further delayed). As such, this report largely addresses the EU and its institutions as they currently exist. It also briefly describes U.S.-EU political and economic relations that may be of interest.

## A Study Guide for Political Theories for Students: FASCISM

[Gale, Cengage Learning](#) Designed with busy students in mind, this concise study guide examines major political theories and is organized into the following easily digestible sections: overview, history, theory in depth, theory in action, analysis and critical response, topics for further study, and bibliography.

## Cold War: The Essential Reference Guide

### The Essential Reference Guide

[ABC-CLIO](#) The impact of the Cold War is still being felt around the world today. This insightful single-volume reference captures the events and personalities of the era, while also inspiring critical thinking about this still-controversial period. • Several analytical essays by prominent historians, plus 85 additional A-Z reference entries about conflicts, incidents, leaders, and issues • 35 examples of relevant primary source documents, including speeches, treaties, policy statements, and letters, such as the Marshall Plan and Winston Churchill's "Iron Curtain" speech • A detailed chronology of important events that occurred before, during, and after the Cold War • Numerous maps and images of key leaders and events • A comprehensive bibliography of print resources

### International Conflict Resolution After the Cold War

[National Academies Press](#) The end of the Cold War has changed the shape of organized violence in the world and the ways in which governments and others try to set its limits. Even the concept of international conflict is broadening to include ethnic conflicts and other kinds of violence within national borders that may affect international peace and security. What is not yet clear is whether or how these changes alter the way actors on the world scene should deal with conflict: Do the old methods still work? Are there new tools that could work better? How do old and new methods relate to each other? *International Conflict Resolution After the Cold War* critically examines evidence on the effectiveness of a dozen approaches to managing or resolving conflict in the world to develop insights for conflict resolution practitioners. It considers recent applications of familiar conflict management strategies, such as the use of threats of force, economic sanctions, and negotiation. It presents the first systematic assessments of the usefulness of some less familiar approaches to conflict resolution, including truth commissions, "engineered" electoral systems, autonomy arrangements, and regional organizations. It also opens up analysis of emerging issues, such as the dilemmas facing humanitarian organizations in complex emergencies. This book offers numerous practical insights and raises key questions for research on conflict resolution in a transforming world system.

### 5 Steps to a 5: AP U.S. History 2018, Elite Student Edition

[McGraw Hill Professional](#) Get ready to ace your AP U.S. History Exam with this easy-to-follow, multi-platform study guide *5 Steps to a 5: AP U.S. History 2018 Elite Student Edition* introduces an effective 5-step study plan to help you build the skills, knowledge, and test-taking confidence you need to achieve a high score on the exam. This popular test prep guide matches the latest course syllabus and latest exam. ### The Steps to War

### An Empirical Study

The question of what causes war has concerned statesmen since the time of Thucydides. *The Steps to War* utilizes new data on militarized interstate disputes from 1816 to 2001 to identify the factors that increase the probability that a crisis will escalate to war. In this book, Paul Senese and John Vasquez test one of the major behavioral explanations of war--the steps to war--by identifying the various factors that put two states at risk for war. Focusing on the era of classic international politics from 1816 to 1945, the Cold War, and the post-Cold War period, they look at the roles of territorial disputes, alliances, rivalry, and arms races and show how the likelihood of war increases significantly as these risk factors are combined. Senese and Vasquez argue that war is more likely in the presence of these factors because they increase threat perception and put both sides into a security

dilemma. *The Steps to War* calls into question certain prevailing realist beliefs, like peace through strength, demonstrating how threatening to use force and engaging in power politics is more likely to lead to war than to peace.

## History for the IB Diploma Paper 3 The Cold War and the Americas (1945–1981)

[Cambridge University Press](#) Comprehensive books to support study of History for the IB Diploma Paper 3, revised for first assessment in 2017. ## Gendering World Politics

## Issues and Approaches in the Post-Cold War Era

[Columbia University Press](#) Tickner focuses her distinctively feminist approach on new issues of the international relations agenda since the end of the Cold War, such as ethnic conflict and other new security issues, globalizations, democratization, and human rights.

## The Dead Volcano

## The Background and Effects of Nuclear War Complacency

[Greenwood Publishing Group](#) Is nuclear war just around the corner? Cimballa argues that nuclear complacency could cause a nuclear war in the 21st century. He reviews pertinent Cold War history to show the difficulty that Americans and Soviets experienced in adjusting their military thinking to the realities of nuclear stalemate. He suggests that the end of the Cold War released many of the brakes on belligerency and brinkmanship that developed as U.S. and Soviet leaders learned nuclear aversion by hard experience. Diminished credibility of nuclear deterrence in the 21st century only increases the likelihood of a post-Cold War stumble into nuclear disaster.

## East Central European Migrations During the Cold War

## A Handbook

[Walter de Gruyter GmbH & Co KG](#) "An extremely useful and much needed survey. Over eleven chapters, authors from eight countries cover the complex history of migration from the perspective of Central and Eastern Europe between 1945 and 1993. Following in the footsteps of Klaus Bade's Encyclopedia of European Migrations, the authors make extensive use of sources in national languages, while providing an extensive overview of population movements in the region between the Baltic, Black, and Adriatic Seas. The individual chapters shed light on phenomena overlooked in other volumes, including individual state reactions to various migratory phenomenon, and the political, economic, and ideological consequences of human movement. The chapters of this volume are uniform not only in their informative nature, but also in suggesting new pathways for in-depth research." Adam Walaszek, Jagiellonian University, Kraków, Poland "Eastern Europe is an emblematic space of mobility and its Cold War history cannot be told without considering migration from and into the countries of the region. This volume comes at a timely moment and provides a uniquely comprehensive account, full with useful information for further research. It will be a must-read both for migration studies scholars and for area specialists." Ulf Brunnbauer, Leibniz Institute for East and Southeast European Studies, Regensburg, Germany "The Handbook is a gift to students of migration on three counts. It gathers the expertise of scholars fluent in the languages - and familiar with the archives - of Eastern and Central Europe. Thus it brings the multi-layered and complex histories of movement beyond the flat descriptor of "Soviet bloc" or Eastern European migrations. The Handbook is both rich and lucid, presenting in-depth materials on the European twentieth-century, on one hand, and organizing each chapter in a similar way, offering the reader transparently comparable histories. From Estonia south to Albania, and from the USSR west to the GDR, each chapter elucidates a complex migration history distinguished by national politics, ethnic composition, and economics - moving from the cataclysmic impacts of World War II to the international migrations and politics of Cold War movement, as well as the politics of Cold War emigrants themselves. Each chapter ends with an epilogue on post-1989 international migrations and a valuable addendum on published and archival sources. Finally, the Handbook models the kind of high quality work produced by international scholarly cooperation at its best." Leslie Page Moch, Michigan State University Table of contents Introduction (Anna Mazurkiewicz) Albania (Agata Domachowska) Baltic States: Estonia, Latvia and Lithuania (Pauli Heikkilä) Bulgaria (Detelina Dineva) Czechoslovakia (Michael Cude and Ellen Paul) Germany (Bethany Hicks) Hungary (Katalin Kádár Lynn) Poland (Sławomir Łukasiewicz) Romania (Beatrice Scutaru) Ukraine (Anna Fiń) USSR (Alexey Antoshin) Yugoslavia (Brigitte Le Normand)

## Beyond the Cold War of Words

## How online media can make a difference in the post-Soviet space

[The Hague Centre for Strategic Studies](#) This report is commissioned by RNW, an international media organization based in The Netherlands that aims to promote free speech and fundamental freedoms in countries where these are severely restricted. RNW (co)creates content and online platforms where young people can form and express their opinions about sensitive issues. This study zooms in on a select number of countries belonging to the post-Soviet space that lie on the fault lines of overlapping spheres of influence between Europe and Russia. Specifically, the report assesses the risks of the current one-sided media services to Russian speaking minorities in Latvia, Belarus, Ukraine and Moldova. In doing so, the study examines the extent to which RNW could make a meaningful contribution to a more balanced information service, focusing on online and social media. Furthermore, the report analyzes the opportunities for RNW to operate in these countries, and provides an inventory of the kinds of (legal) barriers that exist that could hinder this aim.

## Study Guide for Chemical Principles

## Third Edition, by Dickerson, Gray, and Haight

## Experts, Social Scientists, and Techniques of Prognosis in Cold War America

[Springer Nature](#) This book describes how Cold War researchers used expert opinions to construct foreknowledge of geopolitical relevance. Focusing on the RAND Corporation, an American think tank with close relations to the armed forces, Dayé analyses the development of two techniques of prognosis, the Delphi technique and Political Gaming. Based on archival research and interviews, the chapters explore the history of this series of experiments to understand how contemporary social scientists conceived of one of the core categories of the Cold War, the expert, and uncover the systematic use of expert opinions to craft prognoses. This consideration of the expert's role in Cold War society and what that can tell us about the role of the expert today will be of interest to students and scholars across the history of science, the sociology of knowledge, future studies, the history of the Cold War, social science methodology, and social policy.

## CliffsTestPrep Regents U.S. History and Government Workbook

[Cliff Notes](#) Designed with New York State high school students in mind. CliffsTestPrep is the only hands-on workbook that lets you study, review, and answer practice Regents exam questions on the topics you're learning as you go. Then, you can use it again as a refresher to prepare for the Regents exam by taking a full-length practictetest. Concise answer explanations immediately follow each question--so everything you need is right there at your fingertips. You'll get comfortable with the structure of the actual exam while also pinpointing areas where you need further review. About the contents: Inside this workbook, you'll get an introduction and a short lesson on writing essays. You'll also find sequential, topic-specific test questions with fully explained answers for each of the following sections: U.S. and New York State History World History Geography Economics Civics, Citizenship, and Government A full-length practice test at the end of the book is made up of questions culled from multiple past Regents exams. Use it to identify your weaknesses, and then go back to those sections for more study. It's that easy! The only review-as-you-go workbook for the New York State Regents exam.

That's why we've created this 5-step plan to help you study more effectively, use your preparation time wisely, and get your best score. This easy-to-follow guide offers you a complete review of your AP course, strategies to give you the edge on test day, and plenty of practice with AP-style test questions. You'll sharpen your subject knowledge, strengthen your thinking skills, and build your test-taking confidence with Full-length practice exams modeled on the real test All the terms and concepts you need to know to get your best score Your choice of three customized study schedules--so you can pick the one that meets your needs The 5-Step Plan helps you get the most out of your study time: Step 1: Set Up Your Study Program Step 2: Determine Your Readiness Step 3: Develop the Strategies Step 4: Review the Knowledge Step 5: Build Your Confidence Topics include: The Settling of the Western Hemisphere and Colonial America (1450-1650); The British Empire in America: Growth and Conflict (1650-1750); Resistance, Rebellion, and Revolution (1750-1775); The American Revolution and the New Nation (1775-1787); The Establishment of the New Political Systems (1787-1800); The Jeffersonian Revolution (1800-1820); The Rise of Manufacturing and the Age of Jackson (1820-1845); The Union Expanded and Challenged (1835-1860); The Union Divided: The Civil War (1861-1865); The Era of Reconstruction (1865-1877); Western Expansion and Its Impact on the American Character (1860-1895); America Transformed into the Industrial Giant of the World (1870-1910); The Rise of American Imperialism (1890-1913); The Progressive Era (1895-1914); The United States and World War I; America in the 1920s: The Beginning of Modern America; The Great Depression and the New Deal; World War II; The Origins of the Cold War; The 1950s: Prosperity and Anxiety; America in an Era of Turmoil (1960-1975); America from 1968-1988: Decline and Rebirth; America from 1988 to 2000: Prosperity and a New World Order; America from 2001 to 2006: The Threat of Terrorism and the Increase of Presidential Power; and Contemporary America: Evaluating the "Big Themes" of American History Also includes: Practice tests \*AP, Advanced Placement Program, and College Board are registered trademarks of the College Entrance Examination Board, which was not involved in the production of, and does not endorse, this product.

## The Devil We Knew

## Americans and the Cold War

[Oxford University Press, USA](#) An incisive history of the Cold War from the American perspective traces key events, from Truman's creation of the CIA to the Reagan era, examining the strategic ideals and misconceptions that led America to pursue the war against communism.

## Competitive Authoritarianism

## Hybrid Regimes after the Cold War

[Cambridge University Press](#) Based on a detailed study of 35 cases in Africa, Asia, Latin America, and post-communist Eurasia, this book explores the fate of competitive authoritarian regimes between 1990 and 2008. It finds that where social, economic, and technocratic ties to the West were extensive, as in Eastern Europe and the Americas, the external cost of abuse led incumbents to cede power rather than crack down, which led to democratization. Where ties to the West were limited, external democratizing pressure was weaker and countries rarely democratized. In these cases, regime outcomes hinged on the character of state and ruling party organizations. Where incumbents possessed developed and cohesive coercive party structures, they could thwart opposition challenges, and competitive authoritarian regimes survived; where incumbents lacked such organizational tools, regimes were unstable but rarely democratized.

## The No-nonsense Guide to the Arms Trade

[Verso](#) The ending of the Cold War was supposed to increase global security and divert expenditure previously earmarked for arms purchases to more constructive ends. Instead, the arms trade has flourished. Not only conventional arms, but also police and surveillance equipment, have been provided by Western countries seeking to make a profit from conflict in unstable parts of the world. Foreign debt has remained high, development has been held back, and human rights have been systematically abused, all with the connivance of an arms trade prepared to turn a blind eye to the uses to which increasingly sophisticated weaponry is put, so long as hefty profits can be reaped. This disturbing book names the players in the arms trade and charts the impact that it has had on war, human rights, and development. The financial and trade mechanisms that permit the arms trade to continue are revealed, amid sordid tales of bribery and corruption. Gideon Burrows concludes his examination by reviewing the ways in which this trade can be controlled or even abolished.
