TALES FROM THE OAK HAMMOCK

iUniverse Other than black and white TV, the baby boomer boys growing up in the little oak hammock east of South Florida's everglades don't have much to entertain them. Personal computers and the Internet are still decades away. Organized youth sports are all but non-existent in their environs. Rock and roll is king but exists only on an AM radio station and a stack of black vinyl disks. So how does a brotherhood of youngsters come of age while manufacturing adventure from an otherwise uneventful existence in the early '60s? How do they spend their summers when girls are still mysterious, undiscovered creatures and the bicycle is the only mode of transportation? And how do they face life's unanswered questions while anticipating their once-in-a-lifetime trip to the New York World's Fair? Tales from the Oak Hammock chronicles the amusing answers to these questions as it recounts the misadventures—and misdemeanors—of boys who sometimes catch a glimpse of life's meaning—but more often merely observe its puzzling complexities. They are the first generation raised by TV so they surely don't have all the answers—but this one thing they know: Life isn't always fair, but it's almost always in black and white!

IRISHNESS AND WOMANHOOD IN NINETEENTH-CENTURY BRITISH WRITING

Ashgate Publishing, Ltd. Using Lady Morgan's *The Wild Irish Girl* as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps the genealogy of this development in fiction, political discourse, and the popular press, from Edgeworth's *Castle Rackrent* through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s.

CUSTOM MAID KNOWLEDGE FOR NEW WORLD DISORDER

CAL Books Political commentator Peter de Krassell contends that globalization was a 19th Century model of economics that was based on scarcity and actually died in the last decade of the 20th Century when the whole World was in surplus. In this fast paced geopolitical journey across America, China, the Middle East and beyond, de Krassell looks at the history of the major empires of the last 150 years (including that of the USA), their achievements, shortcomings and religious failures that all lead to globalization. Learning from the past he posits "interlocalism" as the successor to globalization. This latest book in his Custom Maid series offers a completely revolutionary new approach to contemplating our future and is must read material for anyone with an interest in understanding the political and economic situation now and wanting to see how the future might look.
