## The Fourfold Gospel

*Deward Publishing* The classic *Harmony of the Gospels* by J. W. McGarvey and Philip Y. Pendleton with interspersed comments. Attractively re-typeset, this enduring work is a valuable resource to modern Bible students. "In most commentaries a fifth or sixth of the space is taken up in drawing distinctions between the texts of the four Gospels, while in this work these distinctions are placed before the reader's eye, where he can see them for himself at a glance. Moreover, in other commentaries, which give the text, another sixth or seventh of the work is taken up in reprinting in the notes that portion of the text concerning which the commentator wishes to speak. Our interjected method avoids all this needless repetition, and makes it possible for us to present the comment with the least preliminary verbiage or introductory setting. Time is also saved because the reader does not have to look back and forth from the text at the top to the comment at the bottom of the page. Again, other commentaries lose a large amount of space by using the King James text. Those which preceded the revision waste space correcting the translation and modernizing its English: those published since the revision suffer a similar waste by drawing endless comparisons between the two texts. By choosing the American revision as the basis for our work, we have a text which needs but little explanation or apology, and we are thereby enabled to employ the reader's time and strength to his best advantage." --Excerpted from the Introduction

## A Critique of High-Performance Sport

*Routledge* *Fastest, Highest, Strongest* presents a comprehensive challenge to the dominant orthodoxy concerning the use of performance-enhancing drugs in sport. Examining the political and economic transformation of the Olympic Movement during the twentieth century, the authors argue that the realities of modern sport require a serious reassessment of current policies, in particular the ban on the use of certain substances and practices. The book includes detailed discussion of: \* The historical importance of World War II and the Cold War in the development of a high-performance culture in sport \* The changing Olympic project: from amateurism to a fully professionalized approach \* The changing meaning of "sport" \* The role of sport science, technology and drugs in pursuing ever-better performance \* The major ethical and philosophical arguments used to support the ban on performance-enhancing substances in sport. *Fastest, Highest, Strongest* is a profound critical examination of modern sport. Its straightforward style will appeal to under- and post-graduate students as well as scholars of sports ethics and history, policy makers and all those interested in the changing nature of sport.

## Jewish Doctors and the Holocaust

## The Anatomy of Survival in Auschwitz

*Walter de Gruyter GmbH & Co KG* This is the first attempt to explain how Jewish doctors survived extreme adversity in Auschwitz where death could occur at any moment. The ordinary Jewish slave labourer survived an average of fifteen weeks. Ross Halpin discovers that Jewish doctors survived an average of twenty months, many under the same horrendous conditions as ordinary prisoners. Despite their status as privileged prisoners Jewish doctors starved, froze, were beaten to death and executed. Many Holocaust survivors attest that luck, God and miracles were their saviors. The author suggests that surviving Auschwitz was far more complex. Interweaving the stories of Jewish doctors before and during the Holocaust Halpin develops a model that explains the anatomy of survival. According to his model the genesis of survival of extreme adversity is the will to live which must be accompanied by the necessities of life, specific personal traits and defence mechanisms. For survival all four must co-exist.

## Utopia for Realists

### How We Can Build the Ideal World

*Little, Brown Universal basic income. A 15-hour workweek. Open borders. Does it sound too good to be true? One of Europe's leading young thinkers shows how we can build an ideal world today. "A more politically radical Malcolm Gladwell." --New York Times* After working all day at jobs we often dislike, we buy things we don't need. Rutger Bregman, a Dutch historian, reminds us it needn't be this way-and in some places it isn't. Rutger Bregman's TED Talk about universal basic income seemed impossibly radical when he delivered it in 2014. A quarter of a million views later, the subject of that video is being seriously considered by leading economists and government leaders the world over. It's just one of the many utopian ideas that Bregman proves is possible today. Utopia for Realists is one of those rare books that takes you by surprise and challenges what you think can happen. From a Canadian city that once completely eradicated poverty, to Richard Nixon's near implementation of a basic income for millions of Americans, Bregman takes us on a journey through history, and beyond the traditional left-right divides, as he champions ideas whose time have come. Every progressive milestone of civilization—from the end of slavery to the beginning of democracy—was once considered a utopian fantasy. Bregman's book, both challenging and bracing, demonstrates that new utopian ideas, like the elimination of poverty and the creation of the fifteen-hour workweek, can become a reality in our lifetime. Being unrealistic and unreasonable can in fact make the impossible inevitable, and it is the only way to build the ideal world.

## Archaeological Commentary on the Bible

*Doubleday Books* "From the 'picnic-type excavations' of early digs to the sophisticated archaeological methods of today, the artifacts recovered from Bible lands have revealed a new perspective for understanding biblical text. Here, in the only book of its kind, all the resulting information has been gathered and arranged in order, from Genesis to Revelation, by chapter and verse. Interspersed among these pages are photographs of the ruins, inscriptions, and biblical sites that give a tangible and immediate sense to the peoples, culture, and places of sacred history. As a succinct and valuable summary of archaeological discoveries to date, this volume records findings which have helped scholars understand biblical times more accurately. It explains documents which have given an otherwise unattainable clarity to antique customs and thought, and it deciphers the meaning of many passages

whose interpretation has been obscured or stymied by the lack of similar keys. Originally published in Spanish, 'Archaeological Commentary on the Bible' is here translated into English, adapted and updated to make the information as accurate and timely as possible." -- Amazon.com.

## Theology and Ecology Across the Disciplines

## On Care for Our Common Home

*Bloomsbury Publishing* The threat of ecological collapse is increasingly becoming a reality for the world's populations, both human and nonhuman; addressing this global challenge requires enormous cultural creativity and demands a diversity of perspectives, especially from the humanities. *Theology and Ecology Across the Disciplines* draws from a variety of academic disciplines and positions in order to explore the role and nature of environmental responsibility, especially where such themes intersect with religious or theological viewpoints. Covering disciplines such as history, philosophy, literature, politics, peace studies, economics, women's studies, and the ecological sciences as well as systematic and moral theology, the contributors emphasize how these positions have begun to develop distinct perspectives on urgent ecological issues, as well as pointing toward specific practices at the local and international level. This volume provides a multidisciplinary point of departure for urgent conversations on environmental responsibility that resist simplistic solutions. Rather, the contributors highlight the complex nature of modern ecology, and suggest creative ways forward in the situation of an apparently intractable global problem.

## The Poverty of Historicism

*Routledge* On its publication in 1957, *The Poverty of Historicism* was hailed by Arthur Koestler as 'probably the only book published this year which will outlive the century.' A devastating criticism of fixed and predictable laws in history, Popper dedicated the book to all those 'who fell victim to the fascist and communist belief in Inexorable Laws of Historical Destiny.' Short and beautifully written, it has inspired generations of readers, intellectuals and policy makers. One of the most important books on the social sciences since the Second World War, it is a searing insight into the ideas of this great thinker.

## Mission at and from the Margins

## Patterns, Protagonists and Perspectives

*Regnum Edinburgh Centenary* *Mission At and From the Margins: Patterns, Protagonists and Perspective* revisits the 'hi-stories' of Mission from the 'bottom up' paying critical attention to people, perspectives and patterns that have often been elided in the construction of mission history. Focusing on the mission story of Christian churches in the South Indian state of Andhra Pradesh, where Christianity is predominantly Dalit in its composition, this collection of essays, ushers its readers to re-shape their understanding of the landscape of mission history by drawing their attention to the silences and absences within pre-dominant historical accounts. Contributors drawn from various Christian denominations explore not only the complex, contested and complicated interplay between caste, colonialism and Christianity in Andhra Pradesh but also the contemporary challenges for Christian mission at a wider level. Not confining itself to the past history of Christian mission, the book engages critical issues as it analyses the missiological challenges of the present and offers theological imagination for the future of mission, which, while embracing the voices and visions of the margins, resists any and all forms of marginalization. Joseph Prabhakar Dayam and Peniel Jesudason Rufus Rajkumar have compiled a comprehensive, compelling, creative, and contextual mission manual on how oppressed communities (Dalits) invent novel patterns, spawn unexpected protagonists, and extract new perspective through the celebration and spread of the Christian Gospel in South India. While familiar with the various bird's eye views of Christian mission in India, these feet-on-the-ground theologians, historians, biblical scholars, and missiologists included in this volume offer a plethora of snail's crawl standpoints on the working of mission by focusing on the vibrant and productive features of the margins. In this edited book, Dayam and Rajkumar have woven an ethnographically rich and missiologically sophisticated south Indian tapestry from the colorful local spinning wheels of rural, outcast, and neglected Christian communities. Sathianathan Clarke, Bishop Sundo Kim Chair for World Christianity, Professor of Theology, Culture and Mission, Wesley Theological Seminary Peniel Jesudason Rufus Rajkumar, is Programme Executive for Interreligious Dialogue and Cooperation with the World Council of

Churches, Geneva. He was earlier Associate Professor of Christian Social Ethics at the United Theological College, Bangalore. Joseph Prabhakar Dayam is convener of Collective of Dalit Ecumenical Christian Scholars (CODECS) and Associate Professor of Systematic and Philosophical Theology at the Gurukul Lutheran Theological College and Research Institute, Chennai India.

## Unholy Alliance

### A History of Nazi Involvement with the Occult (New and Expanded Edition)

*Nicolas-Hays, Inc.* In June of 1979, Peter Levenda flew to Chile—then under martial law—to investigate claims that a mysterious colony and torture center in the Andes Mountains held a key to the relationship between Nazi ideology and its post-war survival on the one hand, and occult ideas and practices on the other. He was detained there briefly and released with a warning: “You are not welcome in this country.” The people who warned him were not Chileans but Germans, not government officials but agents of the assassination network Operation Condor. They were also Nazis, providing a sanctuary for men like Josef Mengele, Hans-Ulrich Rudel, and Otto Skorzeny. In other words: ODESSA. Published in 1995, *Unholy Alliance* was the first book in English on the subject of Nazi occultism to be based on the captured Nazi archives themselves, as well as on the author’s personal investigations and interviews, often conducted under dangerous conditions. The book attracted the attention of historians and journalists the world over and has been translated into six languages. A later edition boasts the famous foreword by Norman Mailer. How did occultism come to play such an important role in the development of Nazi political ideology? What influence did such German and Austrian occult leaders as Lanz von Liebenfels and Guido von List have over the fledgling Nazi party? What was the Thule Gesellschaft, and who was its creator, Baron von Sebottendorf? Did the Nazi high command really believe in occultism? In astrology? In magic and reincarnation? This is a new and expanded edition of the original text, with much additional information on the rise of extremist groups in Europe, Latin America, Asia, and the United States and the esoteric beliefs that are at their foundations. It is the first book in a trilogy that includes *Ratline* and *The Hitler Legacy*. This is where it all began.

Tennent, Author of *Theology in the Context of World Christianity*.

### Ford—A Village in the West Highlands of Scotland

### A Case Study of Repopulation and Social Change in a Small Community

*University Press of Kentucky* The Highlands of Scotland, like the southern Appalachians of the United States, have long been a problem area in Great Britain, troubled with a fading economy and loss of population. Most books about the region, however, are popular volumes that romanticize a bygone way of life. This study of Ford, a village of some 160 people in western Argyllshire, thus fills a gap in the literature and provides a look at the present realities of Scottish life. Although the Highlands are by no means a homogeneous region, Ford in its size and makeup is perhaps a representative rural settlement. John Stephenson, who conducted extensive interviews in the village during 1981, focuses his study on the theme of survival, on whether this particular village shows signs of enduring as a community of people bound together by common interests and situations. Though necessarily tentative, his conclusions are optimistic. Ford has shown a recent increase in population, consisting almost entirely of newcomers, and though its residents have now a more varied background, they seem to have a sense of place, of belonging to the village. This book will provide new insights not only for those interested in life in the Highlands but also for all those interested in small communities in other parts of the world.

## Epic

### The Storyline of the Bible

*Moody Publishers* To many people, the Bible is a series of incongruous and confusing stories. It jumps from one person or place to the next leaving the reader scrambling to keep up and make sense of it all. That’s a tall task. *Epic* provides a big picture view of the Bible to explain how its individual pieces fit together. Is it really possible that the Bible’s collection of 66 books actually has a single storyline? Yes! The theme of that storyline is redemption, and *Epic* traces it from Genesis to Revelation. Discover in the opening chapters of the Bible why redemption became humanity’s desperate need. Learn how God set this rescue effort into motion through promises He made to Abraham. Follow the unfolding of these promises through Old Testament history. Note the role of the prophets, from Isaiah to Malachi, in the overall drama. Witness Jesus Christ bringing redemption to a climax. Perfect for believers at any stage, small group leaders, and those discipling others, *Epic* will open your eyes to the way all the different parts of scripture contribute to a single story that can change your life.

### Supplementary Exercises for Introducing Biblical Hebrew by Allen P. Ross

This Supplement is intended to provide a diverse and extensive range of additional practice material for use in mastering the grammatical content of *Introducing Biblical Hebrew* by Allen P. Ross (Grand Rapids: Baker Academic, 2001). It is based upon the writing system, vocabulary, morphology and syntax of Biblical Hebrew as these are presented in *Introducing Biblical Hebrew*, running parallel to the first 41 chapters of that volume. Chapters 1-6 deal progressively with the introductory issues of writing and pronouncing Hebrew, with practice based upon Genesis 1-2. Three types of exercise accompany the study of vocabulary, morphology and syntax: parsing of isolated forms, with emphasis upon the verb (chapters 10-41); two sections of sentences composed in Hebrew, the first focussed upon the material of the current chapter and the second containing longer sentences drawn from all the material encountered up to that point (chapters 3-41, with isolated phrases initially); and three sections of passages drawn directly from the Hebrew Bible (chapters 9-41) - isolated verses containing salient features of the grammar studied at that point, longer prose passages (Gen 1:1-2:4, 22:1-19, Deut 8-11, Ruth 1-4, Gen 37:12-36), and short poetic passages from the Psalms (Ps 1, 121, 133, 100, 103, 19, 113, 27, 91, 34, 8). Unfamiliar forms and syntax in the OT passages are footnoted, making it possible to read them without recourse to additional language tools. David M. Clemens (PhD,

University of Chicago) is a lecturer in Hebrew at Regent College.

### Introduction to the Prophets

*Wm. B. Eerdmans Publishing* Writing in a conversational rather than a scholarly tone, Paul Redditt assumes little or no prior knowledge of the Old Testament as he presents and introduces the Major and Minor Prophets in the canonical order of the English Bible. The chapters of Redditt's Introduction to the Prophets discuss the place of each book in the canon; the literary setting of each book; their structure, integrity, and authorship; the main genre(s) in each; special features of each book; basic emphases of each book; and problems -- theological, literary, or historical -- raised by a study of the book. Among other things, Redditt demonstrates that the prophets were both "foretellers" and "forthtellers," and he argues that the Old Testament prophets developed the concept of monotheism. Each chapter ends with questions for further reflection. Concluding the volume are a helpful glossary and several indexes.

## The Roll in England and France in the Late Middle Ages

### Form and Content

*Walter de Gruyter GmbH & Co KG* In the Middle Ages, rolls were ubiquitous as a writing support. While scholars have long examined the texts and images on rolls, they have rarely taken the manuscripts themselves into account. This volume readdresses this imbalance by focusing on the materiality and various usages of rolls in late medieval England and France. Researchers from England, France, Germany and Singapore demonstrate in 11 contributions how this approach can increase our understanding of the rolls and their contents, as well as the contexts in which they were produced and used.

## The Heart of Hebrew History

*B&H Publishing Group* In 1948 the author of this volume was invited by the Education Commission of the Southern Baptist Convention to prepare a textbook on the Old Testament for use by college students. The book is intended primarily for students on the freshman and sophomore level. While some attention has been given to background materials such as geography and antiquities, the chief purpose of the writer has been to present the leading facts in the history of the Hebrew people as given in the Old Testament.

## The Political Economy of Hazards and Disasters

*Rowman Altamira* Throughout history, societies have had to decide whom to 'sacrifice' and whom to help in times of disaster. This volume examines how elite groups attempt to maintain power through the use of particular economic, political, and ideological instruments and how both ruling elites and common people endeavor to create meaningful traditions while enduring hardship. The Political Economy of Hazards and Disasters demonstrates how vulnerability is economically constructed, primary producers adapt their production regimes, how traders and merchants adapt their practices, and how political economic objectives play out in recovery efforts.
