MEETING THE FAMILY

OXFORD LATIN COURSE

[Oxford University Press, USA](#) **Designed for North American students, this special version of the Oxford Latin Course combines the best features of both modern and traditional methods of Latin teaching, providing an exciting, stimulating introduction and approach to Latin based on the reading of original texts. In this four-volume North American edition, the order of declensions corresponds to customary U.S. usage, and the spelling has been Americanized. In addition, it offers full-color illustrations and photographs throughout Parts I and II and an expanded Teacher's Book with translations for each part. Parts I-III (now available in hardcover editions) are built around a narrative detailing the life of Horace, now based more closely on historical sources, which helps students to get to know real Romans--with their daily activities, concerns, and habits--and to develop an understanding of Roman civilization during the time of Cicero and Augustus. Part IV (paperback) is a reader consisting of extracts from Caesar, Cicero, Catullus, Virgil, Livy, and Ovid. The second edition of the Oxford Latin Course has been carefully designed to maximize student interest, understanding, and competence. It features a clearer presentation of grammar, revised narrative passages, new background sections, more emphasis on daily life and on the role of women, a greater number and variety of exercises, and review chapters and tests. Each chapter**

opens with a set of cartoons with Latin captions that illustrate new grammar points. A Latin reading follows, with new vocabulary highlighted in the margins and follow-up exercises that focus on reading comprehension and grammatical analysis. A background essay in English concludes each chapter. Covering a variety of topics--from history to food, from slavery to travel, these engaging essays present a well-rounded picture of Augustan Rome. The Oxford Latin Course, Second Edition offers today's students and teachers an exceptionally engaging and attractive introduction to the language, literature, and culture of Rome--one that builds skills effectively and is exciting to use.

LEARNING DISABILITIES SCREENING AND EVALUATION GUIDE FOR LOW- AND MIDDLE-INCOME COUNTRIES

[RTI Press](#) Learning disabilities are among the most common disabilities experienced in childhood and adulthood. Although identifying learning disabilities in a school setting is a complex process, it is particularly challenging in low- and middle-income countries that lack the appropriate resources, tools, and supports. This guide provides an introduction to learning disabilities and describes the processes and practices that are necessary for the identification process. It also describes a phased approach that countries can use to assess their current screening and evaluation services, as well as determine the steps needed to develop, strengthen, and build systems that support students with learning disabilities. This guide also provides intervention recommendations that teachers and school administrators can implement at each phase of system development. Although this guide primarily addresses learning disabilities, the practices, processes, and systems described may be also used to improve the identification of other disabilities commonly encountered in schools.

LEARN TO READ LATIN

WORKBOOK PART 2

[Yale University Press](#) Learn to Read Latin helps students acquire an ability to read and appreciate the great works of Latin literature as quickly as possible. It not only presents basic Latin morphology and syntax with clear explanations and examples but also offers direct access to unabridged passages drawn from a wide variety of Latin texts. As beginning students learn basic forms and grammar, they also gain familiarity with patterns of Latin word order and other features of style. Learn to Read Latin is designed to be comprehensive and requires no supplementary materials. Explains English grammar points and provides drills especially for today's students. Offers sections on Latin metrics. Includes numerous unaltered examples of ancient Latin prose and poetry. Incorporates selections by authors such as Caesar, Cicero, Sallust, Catullus, Vergil, and Ovid, presented chronologically with introductions to each author and work. Offers a comprehensive workbook that provides drills and homework assignments. This enlarged second edition improves upon an already strong foundation by streamlining grammatical explanations, increasing the number of syntax and morphology drills, and offering additional short and longer readings in Latin prose and poetry.

CICERO, PHILIPPIC 2, 44-50, 78-92, 100-119

LATIN TEXT, STUDY AIDS WITH VOCABULARY, AND COMMENTARY

[Open Book Publishers](#) Cicero composed his incendiary Philippics only a few months after Rome was rocked by the brutal assassination of Julius Caesar. In the tumultuous aftermath of Caesar's death, Cicero and Mark Antony found themselves on opposing sides of an increasingly bitter and dangerous battle for control. Philippic 2 was a weapon in that war. Conceived as Cicero's response to a verbal attack from Antony in the Senate, Philippic 2 is a rhetorical firework that ranges from abusive references to Antony's supposedly sordid sex life to a sustained critique of what Cicero saw as Antony's tyrannical ambitions. Vituperatively brilliant and politically committed, it is both a carefully crafted literary artefact and an explosive example of crisis rhetoric. It ultimately led to Cicero's own gruesome death. This course book offers a portion of the original Latin text, vocabulary aids, study questions, and an extensive commentary. Designed to stretch and stimulate readers, Ingo Gildenhard's volume will be of particular interest to students of Latin studying for A-Level

or on undergraduate courses. It extends beyond detailed linguistic analysis to encourage critical engagement with Cicero, his oratory, the politics of late-republican Rome, and the transhistorical import of Cicero's politics of verbal (and physical) violence.

ENGAGING YOUNG CHILDREN

A NURTURING PEDAGOGY

Gill & Macmillan Ltd **This book is about the theory and processes that inform daily practice with young children in early childhood education and care settings. It offers a clear overview of the historical developments of early childhood education policy and theoretical thinking in Ireland, within an international context. It reflects on the rapid worldwide changes in the lives of parents and young children and takes on the question of how to provide quality childcare and education for your children. It emphasises the concepts of the child as an active agent in his or her own development, it introduces the concept of a nurturing pedagogy, and highlights the fact that bringing up children is a social endeavour. This book analyses and critiques early childhood policy development and implementation in Ireland while complimenting developments such as Siolta - The National Quality Framework and the National Framework for Early Learning. It contextualises international research findings on young children's development and learning; and the role of practitioners and the critical importance of the learning environment as applied to children's everyday experiences and setting practice in Ireland. In summary, this book focuses on the centrality of the child in the learning process as well as on the critical role of the adult in early childhood pedagogy.**

ECCE ROMANI: PASTIMES AND CEREMONIES

Longman Publishing Group

STARTING TO TEACH LATIN

Bloomsbury Publishing This handbook for teachers provides both practical, up-to-date guidance and a theoretical overview on a number of key topics in Latin teaching. Using a wealth of interviews, observations and pupil transcripts, Steven Hunt title utilizes case-study evidence of excellent practice in teaching and learning from a wide variety of institutions: from outreach programmes, community schools and academies in the UK, to New York Charter Schools, KIP schools and schools in Eastern Seaboard states in the USA. Offering practical advice on topics such as essay writing, teaching controversial topics including women, slavery, ethnicity and social hierarchy, making use of primary sources and using ICT to advance language skills, the book also engages with broader questions of approach and theory. These include a survey of the three main approaches to Latin teaching: grammar-translation, communicative and reading approaches; explanation of cognitive and social approaches to learning; and analysis of the differences between intrinsic and extrinsic

motivation. Moreover, traditional arguments about the value and purpose of learning Latin at school level are re-examined in the light of current educational thinking and government policy-making. This book is invaluable for trainees, newly qualified teachers and more experienced practitioners looking for practical ideas and strategies to motivate and engage learners of Latin. A companion website www.startingtoteachlatin.org is under construction and will contain a range of resources and information for teachers.

LATIN BY THE NATURAL METHOD

From the Preface: Most Americans who have studied Latin, with our priests and seminarians included, have employed this method, which they thought was 'traditional'. But as something fully developed, this tradition scarcely goes farther back than 1880; and even in its beginnings it hardly antedates the seventeenth century. In contrast to this method of grammatical analysis, Father Most's textbooks reproduce much of the "natural method" by which children learn their native language. Hence, the significance of Father Most's books is manifestly great for the Latin classes in any Catholic high schools or colleges. So much of our Catholic doctrine and culture have been deposited in Latin that we want many of our educated Catholics to be able to use Latin with ease. But the special significance of Father Most's texts is for the Latin classes in our seminaries. Here the students still have much the same cogent motives to master the art of using Latin with ease as the pupils of the thirteenth or sixteenth century. They need it as an indispensable means of communicating thought in their higher studies, and afterwards throughout life. The objectives (knowledge about Latin and training of mind) and corresponding methods (grammatical analysis and translation) "traditional" since 1880 have taken over in our seminaries; and there too the students have been experiencing an ever growing inability to use Latin. Father Most's textbooks can contribute much towards revolutionizing the teaching of Latin by bringing back, as the chief objective, the art of reading, writing, and (when desired) speaking Latin with ease." Fr. Most's textbooks can be classed in categories of similar texts, such as Hans Ørberg's *Lingua Latina*, as well as *Ecce Romani* which is a simplification of Ørberg or others which aim to teach Latin not even so much as a modern language, as to teach it by a method more natural to the philosophy of learning Languages. Fr. Most's text follows the view that Latin of the later period is actually more advanced in communicating ideas and is easier to learn than Latin of the classical period, and thus this Second Volume begins the transition with readings and vocabulary from the Vulgate, continuing with the more ancient collects of the 1962 *Missale Romanum*, St. Cyprian and culminating with a reading from the Roman Historian Sallust. This is an excellent text applying the "natural method" with English language instruction to help the student read and understand Latin natively, with numerous vehicles for simplifying the necessary memorization as well as aiding in truly understanding Latin without constant need to look in a dictionary for rudimentary sentences. This is reprinted from the 1960 edition, and follows the presentation of the text found in that edition.

FORWARD WITH CLASSICS

CLASSICAL LANGUAGES IN SCHOOLS AND COMMUNITIES

Bloomsbury Publishing Despite their removal from England's National Curriculum in 1988, and claims of elitism, Latin and Greek are increasingly re-entering the 'mainstream' educational arena. Since 2012, there have been more students in state-maintained schools in England studying classical subjects than in independent schools, and the number of schools offering Classics continues to rise in the state-maintained sector. The teaching and learning of Latin and Greek is not, however, confined to the classroom: community-based learning for adults and children is facilitated in newly established regional Classics hubs in evenings and at weekends, in universities as part of outreach, and even in parks and in prisons. This book investigates the motivations of teachers and learners behind the rise of Classics in the classroom and in communities, and explores ways in which knowledge of classical languages is considered valuable for diverse learners in the 21st century. The role of classical languages within the English educational policy landscape is examined, as new possibilities exist for introducing Latin and Greek into school curricula. The state of Classics education internationally is also investigated, with case studies presenting the status quo in policy and practice from Australasia, North America, the rest of Europe and worldwide. The priorities for the future of Classics education in these diverse locations are

compared and contrasted by the editors, who conjecture what strategies are conducive to success.

LEGONIUM

SEASON ONE

A Latin reader like no other. Legonium is both a town and a tale. It is a town built entirely from LEGO® bricks, and filled with an incredible cast of characters. There is Marcellus, the struggling artist; Augustus, the bank manager; Miranda, the police officer; Monas Bricvir, the private detective; plus a suspicious character spotted on the roof of the town bank; and, of course, Pico, the cat. And it is a tale told completely in Latin, with a full range of grammatical structures, repetition of vocabulary, hundreds of pictures, and a supplementary English translation. There is a police chase, a trip to Pompeii, a talkative parrot, and a mysterious suitcase.

LATIN BEYOND GCSE

Bloomsbury Publishing **Latin Beyond GCSE** covers all the linguistic requirements for the OCR AS and A Level in Latin. It aims to bring students to a point where they can tackle original Latin texts with confidence. Although designed as a continuation of Latin to GCSE, it is self-contained and can be used independently. This new edition is brought in line with the new OCR specifications and benefits from a completely redesigned layout, with added colour and images. The answer key is available on a companion website. The first part of the book introduces new constructions and the translation of sentences from English to Latin, with reading passages at AS standard. The next sections provide translation and comprehension passages at AS and A-level, including verse unseens, scansion, and a list of 300 common poetic words. Next come longer unadapted extracts from a range of authors. Finally there is a reference section including a summary of all constructions, a comprehensive grammar, and a general vocabulary of about 1200 Latin words.

WHELLOCK'S LATIN, 6TH EDITION REVISED

Harper Collins The classic, single-volume introductory Latin textbook, introduced in 1956 and still the bestselling and most highly regarded textbook of its kind. Wheelock's Latin, sixth edition, revised, has all the features that have made it the best-selling single-volume beginning Latin textbook, many of them revised and expanded: o 40 chapters with grammatical explanations and readings based on ancient Roman authors o Self-tutorial exercises with an answer key for independent study o An extensive English-Latin/ Latin-English vocabulary section o A rich selection of original Latin readings -- unlike other textbooks which contain primarily made-up Latin texts o Etymological aids Also includes maps of the Mediterranean, Italy and the Aegean area, as well as numerous photographs illustrating aspects of classical culture, mythology, and historical and literary figures presented in the chapter readings. o The leading self-tutorial Latin program. Also great for college and accelerated high school courses. o Wheelock's Latin is the top-selling Latin reference in the US. o Interest and enrolments in Latin have been steadily rising in the U.S. for the past 20 years. One-half million people are currently enrolled in Latin classes, and

at least 10,000 teachers, professors and graduate assistants are teaching the language in America.

ON LATIN ADVERBS

Amsterdam University Press This study deals with a number of aspects of the words which are usually called adverbs in Latin. It contains on the one hand a critical discussion of their treatment in Latin grammatical studies -- the characteristics attributed to them, their relationship to other words -- and on the other hand a discussion of the conditions that have to be met in order to achieve a better (sub)classification -- general problems of classification as well as criteria for affecting such classification -- and a better description of the functions of adverbs in larger constructions. The study contains, therefore, both language-specific sections and more general ones. The author wrote the passages specifically dealing with Latin in such a way that they are clear enough to the non-Latinist, the more general passages in such a way that they are understandable for Latinists who are not acquainted with recent developments in linguistics.
