Words, colours, mannerisms and other cues you don't realise are affecting you, change what you think. The confidence you have in your ability to reason and to consciously choose what to do is caused by a series of illusions that scientists are only just beginning to understand. The discovery of these illusions will change the way we see ourselves more than the discoveries of Darwin and Copernicus. *Unthink* explores the unconscious decisions we make, and covers a variety of topics, ranging from how we choose politicians and romantic partners to more abstract subjects such as whether we can consciously decide to move our fingers. The counter-intuitive observations that Chris makes in the book include: ? If you want someone to fancy you, wear red and meet them somewhere frightening. ? When waitresses repeat customers' orders back to them instead of just saying 'yes' they receive bigger tips. ? To reduce your shopping bill, start at the beer and snacks end of the store and work backwards. ? If you sit someone in an upright chair when you give them good news they will be prouder of their achievements. ? Having a picture of your family on your desk might make you work harder, but you'll be rattier when you get home! Chris Paley shows us how we can understand ourselves and others better, by having a greater understanding of the way that the unconscious mind has an impact of the way we live our lives. **The Famous Five Short Story Collection** \\\\[Hachette UK\\\\]\\\\(#\\\\) Julian, Dick, Anne, George and Timmy the dog find excitement and adventure wherever they go in Enid Blyton's most popular series.
