### A COOPERATIVE WORKFLOW FOR PHOTOGRAPHERS, DESIGNERS, AND PRINTERS

---

Pearson Education Twenty years ago, achieving predictable CMYK color on press was a relatively straightforward process. All the partners in the process—photographers, designers, and printers—had clearly defined roles and responsibilities. With the introduction of

Adobe Photoshop in 1990, the digital imaging revolution changed all that. Roles suddenly shifted and blurred. Standards disintegrated. The entire process quickly spiraled into a chaotic free-for-all that couldn't help but leave everyone frustrated as they scratched their heads and wondered, "What's wrong with my color?" CMYK 2.0: A Cooperative Workflow for Photographers, Designers, and Printers has one purpose: to get us all back on the same path to creating predictable color in the RGB-to-CMYK workflow. In a field that often features very strong—and very different—opinions, author Rick McCleary emphasizes the need for cooperation, collaboration, and communication. After first establishing a context for how we all got here, McCleary redefines each partner's role in the process, demystifies the entire RGB-to-CMYK workflow, and offers a clear, step-by-step guide to achieving predictable color on press. Written with exceptional clarity, CMYK 2.0 presents a highly detailed and thoroughly rigorous approach to CMYK color, and it offers a workflow that all photographers, designers, and printers need—one that works. The book's companion website provides a collaborative forum of growing resources and information on all things CMYK.

**THE COURAGEOUS WOMAN WHO INFLAMED THE MUSLIM WORLD SPEAKS OUT AGAINST THE EVILS OF ISLAM**

---

St. Martin's Press From the front page of The New York Times to YouTube, Dr. Wafa Sultan has become a force radical Islam has to reckon with. For the first time, she tells her story and what she learned, first-hand, about radical Islam in A God Who Hates, a passionate memoir by an outspoken Arabic woman that is also a cautionary tale for the West. She grew up in Syria in a culture ruled by a god who hates women. "How can such a culture be anything but barbarous?", Sultan asks. "It can't", she concludes "because any culture that hates its women can't love anything else." She believes that the god who hates is waging a battle between modernity and barbarism, not a battle between religions. She also knows that it's a battle radical Islam will lose. Condemned by some and praised by others for speaking out, Sultan wants everyone to understand the danger posed by A God Who Hates.

The Evils want to destroy her soul, while billionaire Sentinel demon, Zachary Winston, claims that he wants to protect her. Kat opts for Zach's protection...but it doesn't come without a price. It requires a demon bargain...and what he suggests surprises poor Kat almost as much as the fact that demons really do exist. Why would the handsome billionaire want to make such an agreement with a curvy, plain redheaded woman like her? Billionaire Zachary Winston has a mission and it's one that he vows to complete. As a Sentinel demon, his task is to protect Kat from the Evils that will corrupt her soul. His only problem is that she is his "radiant," the one woman who can lighten the darkness of his demon existence and be his eternal mate. Zach has to fight an internal war between man and demon as he protects Kat, not quite sure which one will win. He's one part demon, one part man, but they both yearn for Kat's lush, full figured body and kind, compassionate heart. As Zach becomes more and more enchanted with Kat, he's hoping she can learn to love a lonely man/demon that's only slightly wicked. This paranormal romance contains graphic language, steamy love scenes, and lovable alpha males that also happen to be mythological demons.

---

Little, Brown Spark A provocative look at the new, digital landscape of childhood and how to navigate it. In *The New Childhood*, Jordan Shapiro provides a hopeful counterpoint to the fearful hand-wringing that has come to define our narrative around children and technology. Drawing on groundbreaking research in economics, psychology, philosophy, and education, *The New Childhood* shows how technology is guiding humanity toward a bright future in which our children will be able to create new, better models of global citizenship, connection, and community. Shapiro offers concrete, practical advice on how to parent and educate children effectively in a connected world, and provides tools and techniques for using technology to engage with kids and help them learn and grow. He compares this moment in time to other great technological revolutions in humanity's past and presents entertaining micro-histories of cultural fixtures: the sandbox, finger painting, the family dinner, and more. But most importantly, *The New Childhood* paints a timely, inspiring and positive picture of today's children, recognizing that they are poised to create a progressive, diverse, meaningful, and hyper-connected world that today's adults can only barely imagine.
