FERRARI 333 SP

Veloce Publishing Ltd **This book details the origin and racing history of the Ferrari 333 SP. Uniquely, none of the 333 SP models were entered into races by Ferrari itself. The cars were built specifically for customer use; a purchase price of \$900,000 included two spare engines and race technical support supplied by Ferrari engineers. A total of 40 cars were built; the first four by Ferrari, the remainder manufactured by Dallara & Michellotto using Ferrari engines. All of the cars were sold to, and race entries made by, privateer teams. From 1994, the cars contested the IMSA World Sports Car Championship, the United States Road Racing Championship, and the American Le Mans Series, at circuits throughout North America. In 1997, the cars also featured in the Europe-based International Sports Racing Series, as well as the 24 Hours of Le Mans. Two years later, the Doran-Lista team installed a Judd V10 engine into its 333 SP, with the aim of increasing power and improving fuel efficiency. In all, from the 126 races entered, 47 victories were claimed by the 333 SP.**

MASERATI 250F IN FOCUS

Veloce Publishing Ltd **The Maserati 250F raced against Ferrari, Mercedes-Benz and Vanwall for Grand Prix supremacy during the 2500cc Grand Prix Formula years of '54-'60. Period photographs, including contributions from Tom March, are presented, along with engine cutaways, drawings, technical descriptions, and the chassis and race numbers of every 250F to have competed during this period. Stories from leading drivers who raced the 250F, including Sir Stirling Moss, Juan Fangio, and Mike Hawthorn, along with Anthony Pritchard's lively text, helps bring the racing story of this iconic model back to life.**
