### KEY=EVEREST - PRECIOUS LARSEN

**Into Thin Air Anchor #1 NATIONAL BESTSELLER** • "A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism." —PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that "suggested that a murderous storm was bearing down." He was wrong. The storm, which claimed five lives and left countless more—including Krakauer's—in guilt-ridden disarray, would also provide the impetus for *Into Thin Air*, Krakauer's epic account of the May 1996 disaster. By writing *Into Thin Air*, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of *Into Thin Air* includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. "I have no doubt that Boukreev's intentions were good on summit day," writes Krakauer in the postscript, dated August 1999. "What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients." As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since *Into Thin Air*'s denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored *The Climb*, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters—a prestigious prize intended "to honor writers of exceptional accomplishment." According to the Academy's citation, "Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind." **Backpacker** Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. Displaying the sort of vigor that President Kennedy so admired, Unsoeld became the most visible hero of an ascent of Everest's previously-unclimbed West Ridge -- an ascent that cost him parts of both feet and nearly his life. His casual fearlessness and physical power established the template for extreme adventure, and his lectures as a charismatic professor inspired the generation of the sixties to test itself in acts of physical daring. *Fatal Mountaineer* sets Willi Unsoeld's intense life against the story of two defining adventures: the triumph on Everest and a more ill-starred expedition in 1976, when he led a group of mountaineers up a new route on Nanda Devi, the tallest peak in India. One of that gifted group of climbers was Willi's daughter, Devi -- a golden girl named for the mountain she sought to ascend with her beloved father. The intense rivalries within the expedition team, and the dangers of the route, led to an outcome darkened by tragedy, an outcome that continues to fuel one of the most tormenting debates in mountaineering history. Blending adventure with a frank look at the cultural background, *Fatal Mountaineer* considers the pressures on mountaineers in a period of our history torn by conflict. It balances hunger for fame with stark tragedy, a man's ambition with a father's love. Unsoeld emerges as an American classic, a self-invented genius of adventure to rank with Mark Twain or Will Rogers for sheer attractiveness. Under the close scrutiny of this thrilling story, his heroism turns out to be deeply authentic—as does his suffering. **Database Management Objectives, System Functions, and Administration New York : McGraw-Hill The Himalayan Database The Expedition Archives of Elizabeth Hawley Amer Alpine Club** The historical archives of Elizabeth Hawley—for more than 40 years the meticulous chronicler of mountaineering expeditions in Nepal—are now available on this searchable CD. **Beyond the Limits A Woman's Triumph on Everest Little Brown & Company** The first American woman to reach the summit of Everest recounts her ascent, describing the grueling training she endured, the constant danger of the climb, close calls, and the pressing threat of death. 40,000 first printing. \$40,000 ad/promo. **The Labor Movement in Wisconsin A History Madison, Wis. : State Historical Society of Wisconsin** Wisconsin's workers and their leaders have always been in the vanguard of those concerned with social justice, fair labor practices, humane working conditions, and political equality. Professor Ozanne's book, based upon years of research in newspapers, manuscripts, and the archives of both labor and management, provides a broad overview of an important chapter in Wisconsin history. **Fashion Cultures Revisited Theories, Explorations and Analysis Routledge** Following on from the ground-breaking collection *Fashion Cultures*, this second anthology, *Fashion Cultures Revisited*, contains 26 newly commissioned chapters exploring fashion culture from the start of the new millennium to the present day. It includes listings of many specific mountains, but more important, it is replete with geological terminology, birds and animals, flowers and trees, climbers and mountaineers, as well as associated tasks such as logging, mining, skiing, and climbing. The *Mountain Encyclopedia* is invaluable as a source of data and information, but it is also enjoyable to read straight through. **The Last Step The American Ascent of K2 Mountaineers Books** The personal story of the 1978 American team who, following five failed attempts by previous American teams, achieved the summit of K2. **Animal Talk Breaking the Codes of Animal Language Simon and Schuster** An authoritative study of the mysteries of animal communication draws on the latest scientific research and real-life animal stories to explain the diverse ways in which wild animals of various species communicate with one another. 40,000 first printing. **A History of Mountain Climbing Flammarion** Beginning with the first conquest of the Alps in the eighteenth century, the drive to scale the world's tallest peaks has inspired generations of amateur and professional climbers and explorers. In breathtaking illustrations and an exciting, accessible text, Roger Frison-Roche and Sylvain Jouty bring the history of mountain climbing vividly to life. Supplemented by biographies of fifty of the world's most celebrated mountain climbers and a detailed chronology, this thrilling chronicle of the triumphs and defeats that have marked the history of the sport will appeal to mountain-climbing enthusiasts and anyone who loves the great outdoors. **Clouds from Both Sides An Autobiography Random House (NY)** A British mountaineer who died of exposure shortly after completing the ascent of K2, describes her experiences as a climber, teacher, and filmmaker **Knowledge and Practical Interests OUP Oxford** Jason Stanley presents a startling and provocative claim about knowledge: that whether or not someone knows a proposition at a given time is in part determined by his or her practical interests, i.e. by how much is at stake for that person at that time. So whether a true belief is knowledge is not merely a matter of supporting beliefs or reliability; in the case of knowledge, practical rationality and theoretical rationality are intertwined. Stanley defends this thesis against alternative accounts of the phenomena that motivate it, such as the claim that knowledge attributions are linguistically context-sensitive (contextualism about knowledge attributions), and the claim that the truth of a knowledge claim is somehow relative to the person making the claim (relativism about knowledge). In the course of his argument Stanley introduces readers to a number of strategies for resolving philosophical paradox, making the book essential not just for specialists in epistemology but for all philosophers interested in philosophical methodology. Since a number of his strategies appeal to linguistic evidence, it will be of great interest to linguists as well. **Nothing Venture, Nothing Win Coward McCann K2 The Story of the Savage Mountain Mountaineers Books** K2 is the world's second highest mountain, but its savage reputation is second to none. The loss of Alison Hargreaves and six companions in 1995 was a grim echo of the multiple deaths in 1986 and of earlier disasters which have become part of climbing legend. K2 has always attracted the greatest names in mountaineering. Wiessner, Houston, Bonatti, Diemberger and Bonington are among those whose lives have been permanently scarred by their experiences on it. At the same time some inspiring new routes have been achieved on the world's most difficult 8000-metre peak. Book jacket. **In the**
