Mustang 2016: Best Features Buyer's Guide

Conceptual Kings The Ford Mustang is a pony car that is manufactured by Ford Motors. The newer versions of the Mustang have departed from the older architecture and have now included fully independent rear suspension. The 2016 version will now represent the 51st anniversary of the Ford Mustang which was originally revealed in 1964. The sixth generation Mustang represented the first Ford Mustang to have been marketed and sold globally. This represented the very first time right hand and left hand drive mustangs were made. This happened to fall under the Ford plan of having a "One Ford" business plan which also applied to other Ford vehicles. The Mustang comes in four different models. They are the Mustang V6, Mustang Ecoboost, Mustang GT and the Mustang GT350.

It includes topics such as: Scoping out the Competition; Financing; Legal Issues Auction Rules; and What to Expect.

Mustang 1979-2004 Buyer's Guide

The Age of the Muscle Car

McFarland A breed unlike any seen before or since, the powerful, stylish American muscle car defined an era in automotive history. This history traces the rise and fall of these great performance cars from their precursors in the 1950s through the seminal appearance of the Pontiac GTO in 1964 and then year by year to the end in the 1970s. Approachable and nontechnical yet deeply informative, it puts the bygone muscle car in its cultural and aesthetic contexts, describes developments in styling, performance and marketing, and revels in the joys of muscle car ownership in the 21st century.

Camaro 2016

Best Features Buyer's Guide

Createspace Independent Publishing Platform The 2016 Camaro is a sixth generation vehicle that is manufactured by Chevrolet. The vehicle was first unveiled in May 2015 which saw the car being lighter than its predecessor. General Motors, the parent company of Chevrolet claims that 70% of the components of the car are unique to it. The vehicle is expected to be on sale early 2016 with hardtops and convertibles being a part of the lineup. In some spaces this vehicle is referred to as a muscle car and was originally designed to compete with the Ford Mustang. The release of the sixth generation version coincides with the 50th birthday of the vehicle and will be in LT and SS models. The early productions of the vehicle will see the engine coming in three different versions, the 2.0 liter turbo charged 275 hp, a 3.6 liter V6 335 hp or the SS model which will feature a 6.2 liter V8 455 hp. The transmissions will either be a six speed manual or eight speed automatic.

Mustang by Design

Gale Halderman and the Creation of Ford's Iconic Pony Car

CarTech Inc p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial} Without question, the 1964-1/2 Mustang is one of the most important and influential cars in automotive history. When Ford launched the Mustang, it created an automotive revolution. Award-winning designer and stylist Gale Halderman was at the epicenter of the action at Ford, and, in fact, his initial design sketch formed the basis of the new Mustang. He reveals his involvement in the project as well as telling the entire story of the design and development of the Mustang. Authors and Mustang enthusiasts James Dinsmore and James Halderman go beyond the front doors at Ford into the design center, testing grounds, and Ford facilities to get the real, unvarnished story. Gale Halderman offers a unique behind-the-scenes perspective and firsthand account of the inception, design, development, and production of the original Mustang. With stinging losses from the Edsel fresh in minds at Ford, the Mustang project was an uphill battle from day one. Lee Iacocca and his assembled team had a herculean task to convince Henry Ford II to take a risk on a new concept of automobile, but with the help of Hal Sperlich's detailed market research, the project received the green light. Henry Ford II made it clear that jobs were on the line, including Iacocca's, if it failed. The process of taking a car from sketch to clay model to prototype to preproduction and finally finished model is retraced in insightful detail. During the

process, many fascinating experimental cars, such as the Mustang I two-seater, Mustang II prototype, Mustang Allegro, and Shorty, were built. But eventually the Mustang, based on the existing Ford Falcon, received the nod for final production. In a gala event, it was unveiled at the 1964 World's Fair in New York. The Mustang received public accolades and critical acclaim, and soon it became a runaway hit. After the initial success, Ford designers and Gale Halderman designed and developed the first fastback Mustangs to compliment the coupes. The classic Mustang muscle cars to follow, including the GT, Mach 1, and others, are profiled as well. The Mustang changed automotive history and ushered in the pony car era as a nimble, powerful, and elegantly styled sports coupe. But it could so easily have stumbled and wound up on the scrap pile of failed new projects. This is the remarkable and dramatic story of how the Mustang came to life, the demanding design and development process, and, ultimately, the triumph of the iconic American car.
