## Radar Instruction Manual

**Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. ## Social Work in Europe

### Race and Ethnic Relations

**Routledge** It is an acknowledged if not accepted fact that all European societies are being fundamentally transformed, and indeed perceptively unsettled, by increased migrations across nations and by the asserted presence of established minorities within their borders. The scale and speed at which these transformations have taken place have brought in their wake considerable social impacts and no small measure of fear and anxiety. Encounters with such diversity are part and parcel of the social work task, and learning how to negotiate them should be a de facto aspect of the training and continuous professional development of social workers and other social professions. However, the moral and political dimensions of the role, scope and nature of the social work task in responding appropriately to these changed and changing realities are rather more contested. This volume addresses many dimensions of the response to issues of race and ethnicity in social work practice in Europe. It extends the debates on inter-cultural and race equality practice in social work through a stimulating and innovative collection of contributions. This book was originally published as a special issue of the *European Journal of Social Work*.

### Saving Leonardo

## A Call to Resist the Secular Assault on Mind, Morals, and Meaning

**B&H Publishing Group** Is secularism a positive force in the modern world? Or does it lead to fragmentation and disintegration? In *Saving Leonardo*, best-selling award-winning author Nancy Pearcey (*Total Truth*, coauthor *How Now Shall We Live?*) makes a compelling case that secularism is destructive and dehumanizing. Pearcey depicts the revolutionary thinkers and artists, the ideas and events, leading step by step to the unleashing of secular worldviews that undermine human dignity and liberty. She crafts a fresh approach that exposes the real-world impact of ideas in philosophy, science, art, literature, and film--voices that surround us in the classroom, in the movie theater, and in our living rooms. A former agnostic, Pearcey offers a persuasive case for historic Christianity as a holistic and humane alternative. She equips readers to counter the life-denying worldviews that are radically restructuring society and pervading our daily lives. Whether you are a devoted Christian, determined secularist, or don't know quite where you stand, reading *Saving Leonardo* will unsettle established views and topple ideological idols. Includes more than 100 art reproductions and illustrations that bring the book's themes to life. Praise for *Saving Leonardo*: "A feast for the mind and for the eye. Nancy Pearcey not only is a trustworthy guide for a nuanced discussion on the relationship between culture and the gospel, but she is a gifted teacher as well . . . *Saving Leonardo* is a rare, precious gift to the churches and universities alike." Makoto Fujimura, artist and author of *Refractions: A Journey of Faith, Art, and Culture* "Nancy Pearcey has done it again and better than ever. She has taken the complex sophistication of the best cultural analysis and laid it out for any person to grasp, enjoy and use to live out their daily lives honoring Christ. An astounding accomplishment!" James W. Sire, author of *The Universe Next Door* "G. K. Chesterton said 'the danger when Men stop believing in God is not that they'll believe in nothing; but that they will believe in anything.'" Nancy Pearcey understands where believing in anything leads and in this book she reveals where a secular philosophy is taking us. A balanced, fair, and impacting work!" Cal Thomas, syndicated and *USA Today* columnist "Nancy Pearcey helps a new

generation of evangelicals to understand the worldview challenges we now face and to develop an intelligent and articulate Christian understanding . . . Saving Leonardo should be put in the hands of all those who should always be ready to give an answer--and that means all of us." R. Albert Mohler, Jr., president, The Southern Baptist Theological Seminary "Nancy Pearcey is an intellectual prophet in our day and one of Evangelicalism's foremost cultural observers. Saving Leonardo is a tour de force. In it, Pearcey provides a penetrating analysis of the nature of contemporary secularism, a helpful exposition of how we got to the present situation, and a well-crafted strategy for changing the situation. This is her best effort yet . . . a must read." J. P. Moreland, distinguished professor of Philosophy, Biola University and author of The God Question "Nancy Pearcey is unsurpassed in the current generation of Christian thinkers . . . The magic continues with this book. Pearcey's virtues as a writer and thinker are once again fully evident in the range of material that she has mastered, the encyclopedic collection of data that she presents, and the analytic rigor with which she separates truth from error in worldviews. She is a prophetic voice for contemporary Christians." Leland Ryken, Clyde S. Kilby professor of English, Wheaton College "Brilliant . . . The book brings complex, abstract ideas down-to-earth -- or rather, down-to-life. . . . Saving Leonardo bridges the gaps between the arts and the sciences, the theoretical and the practical. The book not only argues for the unity of Christian truth but exemplifies that unity and shows it in action." Gene Edward Veith, provost, Patrick Henry College

## Sometimes You Have to Lie

## The Life and Times of Louise Fitzhugh, Renegade Author of Harriet the Spy

Seal Press In this inspiring biography, discover the true story of Harriet the Spy author Louise Fitzhugh -- and learn about the woman behind one of literature's most beloved heroines. Harriet the Spy, first published in 1964, has mesmerized generations of readers and launched a million diarists. Its beloved antiheroine, Harriet, is erratic, unsentimental, and endearing -- very much like the woman who created her, Louise Fitzhugh. Born in 1928, Fitzhugh was raised in segregated Memphis, but she soon escaped her cloistered world and headed for New York, where her expanded milieu stretched from the lesbian bars of Greenwich Village to the art world of postwar Europe, and her circle of friends included members of the avant-garde like Maurice Sendak and Lorraine Hansberry. Fitzhugh's novels, written in an era of political defiance, are full of resistance: to authority, to conformity, and even -- radically, for a children's author -- to make-believe. As a children's author and a lesbian, Fitzhugh was often pressured to disguise her true nature. Sometimes You Have to Lie tells the story of her hidden life and of the creation of her masterpiece, which remains long after her death as a testament to the complicated relationship between truth, secrecy, and individualism.

## Rusch to Glory

## Adventure, Risk & Triumph on the Path Less Traveled

VeloPress Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that

forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking-- racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. Rusch to Glory is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.
