brunt of shifting, often impossible expectations. In other nations, public schools are one thread in a quilt that includes free universal child care, health care, and job training. Here, schools are the whole cloth. Today we look around the world at countries like Finland and South Korea, whose students consistently outscore Americans on standardized tests, and wonder what we are doing wrong. Dana Goldstein first asks the often-forgotten question: "How did we get here?" She argues that we must take the historical perspective, understanding the political and cultural baggage that is tied to teaching, if we have any hope of positive change. In her lively, character-driven history of public teaching, Goldstein guides us through American education's many passages, including the feminization of teaching in the 1800s and the fateful growth of unions, and shows that the battles fought over nearly two centuries echo the very dilemmas we cope with today. Goldstein shows that recent innovations like Teach for America, merit pay, and teacher evaluation via student testing are actually as old as public schools themselves. Goldstein argues that long-festering ambivalence about teachers--are they civil servants or academic professionals?--and unrealistic expectations that the schools alone should compensate for poverty's ills have driven the most ambitious people from becoming teachers and sticking with it. In America's past, and in local innovations that promote the professionalization of the teaching corps, Goldstein finds answers to an age-old problem"--

When Right Makes Might Rising Powers and World Order Cornell University Press Why do great powers accommodate the rise of some challengers but contain and confront others, even at the risk of war? *When Right Makes Might* proposes that the ways in which a rising power legitimizes its expansionist aims significantly shapes great power responses. Stacie E. Goddard theorizes that when faced with a new challenger, great powers will attempt to divine the challenger's intentions: does it pose a revolutionary threat to the system or can it be incorporated into the existing international order? Goddard departs from conventional theories of international relations by arguing that great powers come to understand a contender's intentions not only through objective capabilities or costly signals but by observing how a rising power justifies its behavior to its audience. To understand the dynamics of rising powers, then, we must take seriously the role of legitimacy in international relations. A rising power's ability to expand depends as much on its claims to right as it does on its growing might. As a result, *When Right Makes Might* poses significant questions for academics and policymakers alike. Underpinning her argument on the oft-ignored significance of public self-presentation, Goddard suggests that academics (and others) should recognize talk's critical role in the formation of grand strategy. Unlike rationalist and realist theories that suggest rhetoric is mere window-

dressings for power, When Right Makes Might argues that rhetoric fundamentally shapes the contours of grand strategy. Legitimacy is not marginal to international relations; it is essential to the practice of power politics, and rhetoric is central to that practice.

Reader Development Bibliography Books Recommended for Adult New Readers *This edition is an annotated list of 390 literacy materials for adult new readers. All the materials are written on an eighth-grade level or below. These paperback instructional titles, many in workbook format, are for use with adult basic education (ABE) and English-as-a-Second-Language (ESL) students. The introduction includes guidelines for identifying and evaluating ABE and ESL books. Titles listed in the bibliography are divided into the following categories: leisure reading, biography, community and family life, jobs, reading and writing, arithmetic, science, religion, the world and its people, ESL, and materials for tutors and teachers. Within each of these categories, the book titles are listed alphabetically. Each entry provides author, publisher, publication date, Gunning Fog readability level, annotation, ESL level (when appropriate), components, pages, International Standard Book Number, price, and series title. The bibliography also contains charts that identify the ABE and ESL skill levels of the books. The document includes nine appendices: (1) the Reader Development Program (RDP); (2) the Gunning Fog Index; (3) materials for deaf adults; (4) a 30-item literacy resource directory; (5) ordering procedures for RDP materials; (6) a list of branches of the Free Library of Philadelphia; (7) addresses of publishers and distributors; (8) an RDP publication order form; and (9) a materials recommendation form. The book is indexed by author and title/series. (KC)*

The Tragedy of Great Power Politics (Updated Edition) W. W. Norton & Company *"A superb book....Mearsheimer has made a significant contribution to our understanding of the behavior of great powers."—Barry R. Posen, The National Interest* *The updated edition of this classic treatise on the behavior of great powers takes a penetrating look at the question likely to dominate international relations in the twenty-first century: Can China rise peacefully? In clear, eloquent prose, John Mearsheimer explains why the answer is no: a rising China will seek to dominate Asia, while the*

United States, determined to remain the world's sole regional hegemon, will go to great lengths to prevent that from happening. The tragedy of great power politics is inescapable. **Prealgebra** "Prealgebra is designed to meet scope and sequence requirements for a one-semester prealgebra course. The text introduces the fundamental concepts of algebra while addressing the needs of students with diverse backgrounds and learning styles. Each topic builds upon previously developed material to demonstrate the cohesiveness and structure of mathematics. Prealgebra follows a nontraditional approach in its presentation of content. The beginning, in particular, is presented as a sequence of small steps so that students gain confidence in their ability to succeed in the course. The order of topics was carefully planned to emphasize the logical progression throughout the course and to facilitate a thorough understanding of each concept. As new ideas are presented, they are explicitly related to previous topics."--BC Campus website. **World History Patterns of Interaction** McDougal Littell/Houghton Mifflin **Children's Books in Print, 2007 An Author, Title, and Illustrator Index to Books for Children and Young Adults Two Centuries of US Military Operations in Liberia** This book reviews the history of the United States-Liberia relations from the early 1820s to 2015, with particular attention paid to the role of the US armed forces. Contrary to most literature on the genesis and development of Liberia, this book demonstrates how US military power has been the primary influence shaping Liberia's history. This includes the role played by the US military in the founding of Liberia, the protection of the country during the European formal colonial era, multiple covert operations in securing US-friendly administrations in Liberia, and direct military interventions when necessary to secure American interests in the region. **Glencoe World History, New York Edition** McGraw-Hill/Glencoe **Globe Literature British Literature Gold Level** Globe Fearon **Kali's Child The Mystical and the Erotic in the Life and Teachings of Ramakrishna** University of Chicago Press Scholar Jeffrey J. Kripal explores the life and teachings of Ramakrishna Paramahansa, a 19th-century Bengali saint who played a major role in the creation of modern Hinduism. The work is now marked by both critical acclaim and cross-cultural controversy. In a substantial new Preface to this second edition, Kripal answers his critics and addresses the controversy. **Diversity and Leadership** SAGE Publications Although leadership theories have evolved to reflect changing social contexts, many remain silent on issues of equity, diversity, and social justice. *Diversity and Leadership*, by Jean Lau Chin and Joseph E. Trimble, offers a new paradigm for examining leadership by bringing together two domains—research on leadership and research on diversity—to challenge existing notions of leadership and move toward a diverse and global view of society and its institutions. This compelling book delivers an approach to leadership that is inclusive, promotes access for diverse leaders, and addresses barriers that narrowly confine our perceptions and expectations of leaders. Redefining leadership as global and diverse, the authors impart new understanding of who our leaders are, the process of communication, exchange between leaders and their members, criteria for selecting, training, and evaluating leaders in the 21st century, and the organizational and societal contexts in which leadership is exercised. **The High Mountains of Portugal A Novel** Random House **NEW YORK TIMES BESTSELLER** • "Fifteen years after *The Life of Pi*, Yann Martel is taking us on

another long journey. Fans of his Man Booker Prize-winning novel will recognize familiar themes from that seafaring phenomenon, but the itinerary in this imaginative new book is entirely fresh. . . . Martel's writing has never been more charming."—Ron Charles, *The Washington Post* **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR** In Lisbon in 1904, a young man named Tomás discovers an old journal. It hints at the existence of an extraordinary artifact that—if he can find it—would redefine history. Traveling in one of Europe's earliest automobiles, he sets out in search of this strange treasure. Thirty-five years later, a Portuguese pathologist devoted to the murder mysteries of Agatha Christie finds himself at the center of a mystery of his own and drawn into the consequences of Tomás's quest. Fifty years on, a Canadian senator takes refuge in his ancestral village in northern Portugal, grieving the loss of his beloved wife. But he arrives with an unusual companion: a chimpanzee. And there the century-old quest will come to an unexpected conclusion. *The High Mountains of Portugal*—part quest, part ghost story, part contemporary fable—offers a haunting exploration of great love and great loss. Filled with tenderness, humor, and endless surprise, it takes the reader on a road trip through Portugal in the last century—and through the human soul. Praise for *The High Mountains of Portugal* "Just as ambitious, just as clever, just as existential and spiritual [as *Life of Pi*] . . . a book that rewards your attention . . . an excellent book club choice."—*San Francisco Chronicle* "There's no denying the simple pleasures to be had in *The High Mountains of Portugal*."—*Chicago Tribune* "Charming . . . Most Martellian is the boundless capacity for parable. . . . Martel knows his strengths: passages about the chimpanzee and his owner brim irresistibly with affection and attentiveness."—*The New Yorker* "A rich and rewarding experience . . . [Martel] spins his magic thread of hope and despair, comedy and pathos."—*USA Today* "I took away indelible images from *High Mountains*, enchanting and disturbing at the same time. . . . As whimsical as Martel's magic realism can be, grief informs every step of the book's three journeys. In the course of the novel we burrow ever further into the heart of an ape, pure and threatening at once, our precursor, ourselves."—*NPR* "Refreshing, surprising and filled with sparkling moments of humor and insight."—*The Dallas Morning News* "We're fortunate to have brilliant writers using their fiction to meditate on a paradox we need urgently to consider—the unbridgeable gap and the unbreakable bond between human and animal, our impossible self-alienation from our world."—Ursula K. Le Guin, *The Guardian* "[Martel packs] his inventive novel with beguiling ideas. What connects an inept curator to a haunted pathologist to a smitten politician across more than seventy-five years is the author's ability to conjure up something uncanny at the end."—*The Boston Globe* "A fine home, and story, in which to find oneself."—*Minneapolis Star Tribune*
