The Development of Armoured Forces, Their Tactics and Operational Potential

[Arms & Armour](#) **This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.**

I Loved a Rogue

The Prince Catchers

[Harper Collins](#) **In the third in Katharine Ashe's Prince Catchers series, the eldest of three very different sisters must fulfill a prophecy to discover their birthright. But if Eleanor is destined to marry a prince, why can't she resist the scoundrel who seduced her? She can pour tea, manage a household, and sew a modest gown. In short, Eleanor Caulfield is the perfect vicar's daughter. Yet there was a time when she'd risked everything for a black-eyed gypsy who left her brokenhearted. Now he stands before her—dark, virile, and ready to escort her on a journey to find the truth about her heritage. Leaving eleven years ago should have given Taliesin freedom. Instead he's returned to Eleanor, determined to have her all to himself, tempting her with kisses and promising her a passion she's so long denied herself. But if he was infatuated before, he's utterly unprepared for what will happen when Eleanor decides to abandon convention—and truly live . . .**

Physical Sciences for NGSS

Student Edition

Physical Sciences for NGSS has been specifically written to meet the requirements of the Next Generation Science Standards (NGSS) for High School Physical Sciences (HS-PS). It encompasses all three dimensions of the standards (science and engineering practices, crosscutting concepts, and disciplinary core ideas), addressing the program content through a wide range of engaging student-focused activities and investigations. Through completion of these activities, students build a sound understanding of science and engineering practices, recognize and understand the concepts that link all domains of science, and build the knowledge base required to integrate the three dimensions of the standards to meet the program's performance expectations.

Flying on Her Own

[Theatre Communications Group - Playwrights Canada Press](#) A moving musical journey based on the life of famed Canadian singer-songwriter, Rita MacNeil. The play incorporates MacNeil's lyrics to tell the tale of a little girl from Big Pond, Cape Breton, who dreams of having a singing career. From a childhood wrought with difficulty through to her struggles as a single mother on welfare, we see an artist who refuses to give up on her dream, a terribly shy woman who finds her voice as one of Canada's first and most vocal feminists. This is the story of an artist who has no choice but to pursue her destiny, even when it brings pain and heartbreak to those around her. It is ultimately about the power of art to sustain and inspire us.

But he also says there are important things I can do today. What could I possibly do today that is as important as what I'll do When I'm Bigger?

The Rejection of Consequentialism

A Philosophical Investigation of the Considerations Underlying Rival Moral Conceptions

[Oxford University Press](#) In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Milk Production and Processing

[Daya Publishing House](#) The book covers various aspects of dairying and milk products such as dairy farm establishment, management, production and utilisation of various dairy products. Information has been included on various aspects of dairy farming starting with selection and purchase of dairy cattle, their care and management, with respect to housing, feeding, breeding and health care during various physiological states such as growth, pregnancy and lactation and during different seasons. Details of health care management along with common diseases have been covered with all information required for educated farmers and technicians working in these areas. Various means for consistent improvement of the stock has also been included. Production of clean milk, its procurement, processing and distribution has been covered with more emphasis on common processing technologies such as pasteurisation and sterilisation. Different forms of liquid milk available in the market has been described along with its standards and other specifications for the knowledge of common man and technicians. Manufacturing methods of milk products have been included with appropriate flow chart wherever required and various categories of milk products have been covered in detail under different chapters under milk products. This book has been prepared with emphasis on second year syllabus of Vocational higher secondary course on milk products and dairying and considering the lack of a suitable textbook for this subject. Hence the book is expected to fill the gap of a textbook for the above said and similar courses. Also the book may be accepted as a textbook/manual for educated farmers, other teaching and training programmes covering similar syllabus like that of dairy farm instructors and as a handbook for Veterinary Students and Dairy Extension Officers. With these introductory notes, we presume that the book will satisfy its readers' requirements and form a valuable textbook/reference book for all those concerned with dairy animal production and utilisation of their products ultimately benefiting the farming community.

Getting Ghost

Two Young Lives and the Struggle for the Soul of an American City

[University of Michigan Press](#) "[Bergmann] chronicles the drug trading, the risks and rewards, and the demarcations between the city and suburbs even as he witnessed suburbanites come into the city to buy drugs." ---Booklist "Not just illustrative and emotive, this pummeling, immersive social text is grounded in street-level reportage and seeded with wisdom." ---Kirkus Reviews "In prose that is equally eloquent and enlightening, Luke Bergmann brings to the surface the lives of two young men living in a place that is regarded by too many people as a forgotten city." --- Alford A. Young, Jr., Arthur F. Thurnau Professor and Associate Professor, Sociology and Afroamerican and African Studies, University of Michigan "Luke Bergmann sometimes risks life and limb to bring us firsthand the lives of young people who mainstream media and academic research have ignored---except for the occasional crime story or impersonal policy brief. Getting Ghost is a journey worth taking . . . It sets a new standard for documentary reportage." --- Sudhir Venkatesh, author of Gang Leader for a Day and Off the Books "Postapocalyptic" Detroit---infamous for its abandoned buildings, empty lots, and blighted streets---may be the only American city to have earned such an epithet. As a teenager who frequently visited Detroit with his father, Luke Bergmann saw the devastation caused by the collapse of the automobile industry. Years later, he returned to the city as an anthropologist to study the incarceration of inner-city youth, and his research connected him with two teenaged drug dealers, Dude Freeman and Rodney Phelps. For nearly three years Bergmann lived on the city's West Side, hanging out with Dude and Rodney, driving around, hearing their stories and dreams, and witnessing the intricacies of Detroit's urban drug trade. Bergmann is soon more than an observer, as he intervenes with Dude's probation officer when he misses a hearing and becomes Rodney's only contact when he flees the city to escape criminal charges. Through it all, he strives to understand their lives, their families, and the neighborhoods they call home. In an effort to break through the conventional wisdom about who sells drugs and why, Bergmann chronicles the unsettling alchemy of choice, force of habit, structural inequality, and political neglect that combine to restrict the horizons of too many young people in America's cities. As Rodney and Dude spin through the revolving door of juvenile detention, "getting ghost" becomes a rich metaphor---for leaving a scene; for quitting the trade; and, ultimately, for mortality. With stunning insight, courage, and even humor, Getting Ghost illuminates complex inner lives that are too often diminished by empty stereotypes as it reveals the common yearnings in all of our American dreams. Luke Bergmann is a research director at the Detroit Department of Health and Wellness Promotion and an adjunct faculty associate at the Institute for Social Research at the University of Michigan. Natural Disasters, Cultural Responses

Case Studies Toward a Global Environmental History

[Lexington Books](#) **Catastrophes**, it seems, are becoming more frequent in the twenty-first century. According to UN statistics, every year approximately two hundred million people are directly affected by natural disasters seven times the number of people who are affected by war. Discussions about global warming and fatal disasters such as Katrina and the Tsunami of 2004 have heightened our awareness of natural disasters and of their impact on both local and global communities. Hollywood has also produced numerous disaster movies in recent years, some of which have become blockbusters. This volume demonstrates that natural catastrophes earthquakes, hurricanes, floods, etc. have exercised a vast impact on humans throughout history and in almost every part of the world. It argues that human attitudes toward catastrophes have changed over time. Surprisingly, this has not necessarily led to a reduction of exposure or risk. The organization of the book resembles a journey around the globe from Europe to North Africa, the Middle East, and Asia, and from the Pacific through South America and Mexico to the United States. While natural disasters appear everywhere on the globe, different cultures, societies, and nations have adopted specific styles for coping with disaster. Indeed, how humans deal with catastrophes depends largely on social and cultural patterns, values, religious belief systems, political institutions, and economic structures. The roles that catastrophes play in society and the meanings they are given vary from one region to the next; they differ and this is one of the principal arguments of this book from one cultural, political, and geographic space to the next. The essays collected here help us to understand not only how people in different times throughout history have learned to cope with disaster but also how humans in different parts of the world have developed specific cultural, social, and technological strategies for doing so.

Keon and Me

Hockey is the lens through which we see our lives--how we measure right and wrong, how we understand our hopes and fears. So it was for Dave Bidini in 1974, the last year Dave Keon played in Toronto. In a new grade in a new school, Bidini found himself the victim of a bully--a deprecation he could understand only by thinking about what the Leafs' dauntless captain went through game after game. Throughout his twenty-two-year career, Keon was only in one hockey fight, in his last game as a Leaf on April 22, 1974. It was on this day that the eleven-year-old Bidini decided to fight back, an occasion that the writer looks back on with breathtaking courage and honesty. Told in two narratives--one from the point of view of the young Bidini growing up in Toronto in the early '70s and one from the perspective of the man looking for his absent hero--"Keon and Me" tells not only the story of a hockey icon who has haunted Toronto for decades, but of a life lived in parallel to Keon's. It's the story of cultural change, an account of the tribulations of the NHL's most beloved (and most despised) franchise in the decades since Keon left under a cloud, and most of all it is a story of growing up, with all the wisdom and sadness that imparts.

Investment Management

The theory and principles of Investment Management remain unaltered but the backdrop of the operations of investment and the practices and procedures of investment management change from time to time. The financial markets in which most of the operations take place are a reflection of the economy and its performance. The economic and financial reforms in India are a continuing process and these affect the operations in the financial markets. The changes are to be incorporated in any revision of a book of this nature, which is being used by students of finance whether in MBA or M.com. or any other.

On a Personal Note

The life story of internationally acclaimed singer-songwriter Rita MacNeil is a heartwarming account of hard times and remarkable achievements that will appeal not only to her devoted audience but also to anyone touched by triumphs of the human heart. On these pages, golden memories shine through. But those memories take their place among other, darker images of her childhood. In this book, for the first time, Rita MacNeil talks about both. Hers is an inspirational story, leavened by her unique sense of humour, and buoyed by her indomitable attitude toward life. On A Personal Note is a story written by a woman who has, over the years, always reached out to people and shared the stories of her life through her songs. This book is one more way for Rita MacNeil to reach out and attempt to bring people closer together. That's what she's been doing all her life.
