# The Grammar Guru

Editions JFD Written in the form of a Socratic dialogue, the Grammar Guru is the first Grammar book written to instruct and entertain its readers - yes ... entertain! Hirtle Walters, a.k.a. the Grammar Guru, is a retired linguistics professor who runs a pub-style restaurant not far from his former university campus. Louis Bonenfant is an English Studies student and aspiring English teacher who one day seeks out the Guru's help. Through a series of weekly encounters with the Guru, Louis learns the difference between: A verb's state and action use. The simple and progressive form as seen in sentences like I take three pills a day and I'm taking three pills a day or I like university and I'm liking university. The simple past and

present perfect form as in I lost my assignment and I've lost my assignment. The present perfect and present perfect progressive form as in Your python has escaped and Your python has been escaping. The modals can, could, may, might, will, shall, etc. A real and an unreal condition. Rather than inundate Louis with confusing rules and lifeless examples, the Guru instructs Louis on the meaning underlying the various grammatical forms. Through their encounters, Louis comes to the realization that the Guru's meaning-based approach to teaching grammar and jocular character makes learning it much more rewarding and even fun. Also included in the book are a series of meaning-based exercises.

## Complete English Grammar Rules

[Createspace Independent Publishing Platform](#) **Examples, Exceptions, Exercises, and Everything You Need to Master Proper Grammar Complete English Grammar Rules** is a comprehensive English grammar guide covering both basic and advanced grammar rules. Easily identify nouns, pronouns, verbs, adjectives, adverbs, prepositions, and other parts of speech. Master verb tenses and conjugation, including irregular verbs and exceptions. Learn about every type of sentence and avoid common writing mistakes. Test your knowledge with grammar quizzes designed to help you retain the most important information. Finally, you can get answers to all your questions about grammar. Complete English Grammar Rules gives you all the rules of grammar, all in one place, logically organized in a user-friendly format. Preface Grammar is without a doubt one of the most daunting aspects of the English language, an area riddled with complexities, inconsistencies, and contradictions. It has also been in a state of flux for pretty much its entire existence. For native speakers of English, as well as for those learning it as a new language, grammar presents a very serious challenge to speaking and

writing both accurately and effectively. Having a single, reliable, go-to reference guide should therefore be indispensable to those trying to learn, improve, or perfect their speech or writing. This book is that guide: a clear, unambiguous, and comprehensive source of information that covers all the relevant topics of English grammar, while still being easy to understand and enjoyable to read. Every topic in the book has been broken down into basic units. Each unit can be read and understood in its own right, but throughout the book you will find cross-references to other sections and chapters to help make it clear how all the pieces fit together. If you're having trouble understanding something, try going back (or forward) to other related topics in the book. Finally, it must be mentioned that, because English is such a flexible, inconsistent language, the "rules" that are often bandied about are usually not rules at all, but rather guides that reflect how the language is used. Accordingly, the guidelines contained within this book are just that—guidelines. They are not intended to provide constrictive or proscriptive rules that confine everyone to a particular way of speaking or writing. Learning how the English language works will enhance your engagement with speech and writing every day, from the books you read, to the e-mails you write, to the conversations you have with friends and strangers alike. As such, mastering grammar is not an exercise that is confined to the classroom. While it is certainly important to learn the structures, styles, and rules that shape the language, the key to truly learning English is to read and listen to the way people write and speak everyday, from the most well-known authors to the people you talk to on the bus. Take the information you find in this book and carry it with you into the world. -P. Herring
