### Striving to Attain Enlightenment

**Notion Press** The book is a collection of essays about how one can attain enlightenment and overcome a personal crisis. The essays will enable a reader to think over questions concerning his life and draw his/her own conclusions. They will assist the process of introspection and solving of personal problems. Each essay can be read independently. Among the topics covered are writing for personal growth, how books can change lives, mantra meditation and walking. The book stresses that a moderate amount of work is good for us. The perspectives of thinkers on contemporary issues are given. Then there are essays on the art of writing and journalism. The chapters on psychology would benefit anyone facing a personal crisis, but they are not intended to be a substitute for professional care. The book grew out of the author's reading, journal writing, meditation and interactions with thinkers and saints. Ultimately, a man or woman has to make efforts himself to attain enlightenment and what a book can do is offer the motivation to carry on. The great philosophical truths remain the same over the centuries, but what this book does is to present them in simple, clear language suitably adapted for the present times.

### Xp-Adjunction in Universal Grammar : Scrambling and Binding in Hindi-Urdu

### Scrambling and Binding in Hindi-Urdu

**Oxford University Press, USA** One of the most hotly debated phenomena in natural language is that of leftward argument scrambling. This book investigates the properties of Hindi-Urdu scrambling to show that it must be analyzed as uniformly a focality-driven XP-adjunction operation. It proposes a novel theory of binding and coreference that not only derives the coreference effects in scrambled constructions, but has important consequences for the proper formulation of binding, crossover, reconstruction, and representational economy in the minimalist program. The book will be of interest not only to specialists in Hindi-Urdu syntax and/or scrambling, but to all students of generative syntax.
