PANAMA JACK

Lulu.com In 1999, Admiral Thomas Moorer, a former chairman of the Joint Chiefs of Staff, charged that China plotted to take over the Panama Canal and use the area to launch a nuclear attack on the United States. In the U.S. Senate, Trent Lott, the then-Republican Senate Majority Leader, expressed concern that the Chinese could deny U.S. ships passage. Now, a CIA informant in Panama with possible information on the Chinese take-over has been killed and the agency has to again look at the potential Communist threat. It steps up its investigation by sending veteran CIA agent Jack Dallas to find out the truth. A former Navy diver, Dallas has to dive deep into the canal and the Hong Kong company that runs the canal ports. His investigation leads him to a prominent businessman in Shanghai, bankers in Monaco and Russian mobsters in Miami before finding out the stunning truth and racing to prevent a major catastrophe in the canal.

OPTIONS FOR MINIMIZING FUEL-RELATED CONTAMINANTS IN LAKES AND RESERVOIRS

PROJECT 90955F

IWA Publishing There are hundreds of large surface water bodies used to store drinking water supplies located throughout the United States and Canada. Some of these water bodies are already prime recreational attractions with strong economic and quality-of-life impacts upon their communities. Operational and boating management options can significantly reduce the levels of MTBE and other fuel-related contaminants. This report comprehensively evaluates these options to give practical data and advice to water managers who wish to consider the benefits of dual use without introducing unacceptable health risks into the water bodies being managed. RESEARCH PARTNERS * California Department of Health Services * Contra Costa Water District Originally published by AwwaRF for its subscribers in 2003

PARENTOLOGY

EVERYTHING YOU WANTED TO KNOW ABOUT THE SCIENCE OF RAISING CHILDREN BUT WERE TOO EXHAUSTED TO ASK

Simon and Schuster An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

KER-SPLASH!

RECREATIONAL POWER BOATERS GUIDE

iUniverse Ker-SPLASH! is an up-to-date, comprehensive look at the hobby and sport of recreational boating and water skiing. It is intended as a guide for both the neophyte and the experienced recreational power boater. The book includes detailed instructions for: (1) Selecting and buying a boat; (2) Making an intelligent engine choice; (3) Selecting boating accessories; (4) Choosing skis, boards, and towables; (5) Selecting a personal slalom ski; (6) Learning to ski and towing a skier; (7) Learning to slalom; (8) Riding and towing

other water toys; and (9) Maintenance and safety issues. Ker-SPLASH! covers these types of recreational powerboats: sterndrive runabouts, tournament ski boats, mini-jet boats, personal watercraft, offshore performance boats, deck and pontoon boats, outboard ski boats, fish 'n' ski boats, and cuddy cabins. Comparative descriptions and contact addresses of the major boat, ski, wakeboard, and accessory manufacturers are included. Ker-SPLASH is not only a reference guide, but it also includes down-to-earth information and entertaining boating stories.
