L'Enfant approached this task with unparalleled vigor and passion; however, his imperious and unyielding nature also made him many powerful enemies. After eleven months, Washington reluctantly dismissed L'Enfant from the project. Subsequently, the plan for the city was published under another name, and L'Enfant died long before it was rightfully attributed to him. Filled with incredible characters and passionate human drama, Scott W. Berg's deft narrative account of this little-explored story in American history is a tribute to the genius of Pierre Charles L'Enfant and the enduring city that is his legacy. **Alternative Investments CAIA Level II** [John Wiley & Sons](#) In-depth Level II exam preparation direct from the CAIA Association CAIA Level II is the official study guide for the Chartered Alternative Investment Analyst professional examination, and an authoritative guide to working in the alternative investment sphere. professional looking to explore new areas within the alternative investment arena or a new industry participant
seeking to establish a solid understanding of alternative investments, Alternative Investments: An Allocator's
Approach, Fourth Edition (CAIA Level II curriculum official text) is the best way to achieve these goals. In recent years,
capital formation has shifted dramatically away from public markets as issuers pursue better financial and value
alignment with ownership, less onerous and expensive regulatory requirements, market and information dislocation,
and liberation from the short-term challenges that undergird the public capital markets. The careful and informed use
of alternative investments in a diversified portfolio can reduce risk, lower volatility, and improve returns over the long-
term, enhancing investors' ability to meet their investment outcomes. Alternative Investments: An Allocator's
Approach (CAIA Level II curriculum official text) is a key resource that can be used to improve the sophistication of
asset owners and those who work with them. This text comprises the curriculum, when combined with supplemental
materials available at [caia.org](#), for the CAIA Level II exam. "Over the course of my long career one tenet has held true,
'Continuing Education'. Since CalSTRS is a teachers' pension plan, it is no surprise that continuing education is a core
attribute of our Investment Office culture. Overseeing one of the largest institutional pools of capital in the world
requires a cohesive knowledge and understanding of both public and private market investments and strategies. We
must understand how these opportunities might contribute to delivering on investment outcomes for our beneficiaries.
Alternative Investments: An Allocator's Approach is the definitive core instruction manual for an institutional investor,
and it puts you in the captain's chair of the asset owner." —Christopher J. Ailman, Chief Investment Officer, California
State Teachers' Retirement System "Given their diversified cash flow streams and returns, private markets continue to
be a growing fixture of patient, long-term portfolios. As such, the need to have proficiency across these sophisticated
strategies, asset classes, and instruments is critical for today's capital allocator. As a proud CAIA charterholder, I have
seen the practical benefits in building a strong private markets foundation, allowing me to better assist my clients."
