The Secrets of Story

Innovative Tools for Perfecting Your Fiction and Captivating Readers

Penguin You've just boarded a plane. You've loaded your phone with your favorite podcasts, but before you can pop in your earbuds, disaster strikes: The guy in the next seat starts telling you all about something crazy that happened to him--in great detail. This is the unwelcome storyteller, trying to convince a reluctant audience to care about his story. We all hate that guy, right? But when you tell a story (any kind of story: a novel, a memoir, a screenplay, a stage play, a comic, or even a cover letter), you become the unwelcome storyteller. So how can you write a story that audiences will embrace? The answer is simple: Remember what it feels like to be that jaded audience. Tell the story that would win you over, even if you didn't want to hear it. The Secrets of Story provides comprehensive, audience-focused strategies for becoming a master storyteller. Armed with the Ultimate Story Checklist, you can improve every aspect of your fiction writing with incisive questions like these: • **Concept:** Is the one-sentence description of your story uniquely appealing? • **Character:** Can your audience identify with your hero? • **Structure and Plot:** Is your story ruled by human nature? • **Scene Work:** Does each scene advance the plot and reveal character through emotional reactions? • **Dialogue:** Is your characters' dialogue infused with distinct personality traits and speech patterns based on their lives and backgrounds? • **Tone:** Are you subtly setting, resetting, and upsetting expectations? • **Theme:** Are you using multiple ironies throughout the story to create meaning? To succeed in the world of fiction and film, you have to work on every aspect of your craft and satisfy your audience. Do both--and so much more--with The Secrets of Story.

Earth Before the Throne

[Ambassador-Emerald International](#) My main purpose in writing this book is to show how different things may have been created or will take place in reality and prepare for it. Some of the things that we believe in may have already taken place. If things have taken place that pertains to our salvation, then we need to believe them. The main thing that we need to do is to be prepared and help others to meet Christ at his coming, or when we die. That should be the desire of all of us that follow Christ. I believe the First Resurrection started at the resurrection of Christ and will end at his coming. You must believe this because Christ paid the price in full by dying on the cross.

Zero to One

Notes on Startups, or How to Build the Future

[Currency](#) #1 NEW YORK TIMES BESTSELLER • “This book delivers completely new and refreshing ideas on how to create value in the world.”—Mark Zuckerberg, CEO of Meta “Peter Thiel has built multiple breakthrough companies, and Zero to One shows how.”—Elon Musk, CEO of SpaceX and Tesla The great secret of our time is that there are still uncharted frontiers to explore and new inventions to create. In Zero to One, legendary entrepreneur and investor Peter Thiel shows how we can find singular ways to create those new things. Thiel begins with the contrarian premise that we live in an age of technological stagnation, even if we’re too distracted by shiny mobile devices to notice. Information technology has improved rapidly, but there is no reason why progress should be limited to computers or Silicon Valley. Progress can be achieved in any industry or area of business. It comes from the most important skill that every leader must master: learning to think for yourself. Doing what someone else already knows how to do takes the world from 1 to n, adding more of something familiar. But when you do something new, you go from 0 to 1. The next Bill Gates will not build an operating system. The next Larry Page or Sergey Brin won’t make a search engine. Tomorrow’s champions will not win by competing ruthlessly in today’s marketplace. They will escape competition altogether, because their businesses will be unique. Zero to One presents at once an optimistic view of the future of progress in America and a new way of thinking about innovation: it starts by learning to ask the questions that lead you to find value in unexpected places.

Sailor's Anthology

Sailor's Anthology is a fictionalized account of the now famous NIMITZ TIC TAC UFO encounter that happened in November 2004 off the coast of San Diego, California. In 2008 when I wrote the story, many involved were still in active duty. I chose to fictionalize the historical record in the effort to protect the identities of those still serving. Why did I write the story? After retiring from the United States Navy earlier that year, memories of the encounter continued to trouble me greatly. When I did try to tell others my story, I could tell that nobody really believed me or they believed there had to be a more prosaic explanation. Not knowing what else to do, I wrote these short stories and self-published them in the Library of Congress as a way to hide in plain sight what has now become contemporaneous evidence of the actual event. It was my hope then that if the TIC TAC encounter ever did become public, my book might serve as evidence now. My plan worked. You now hold in your hands a piece of history itself. About the Author Kevin M. Day is a 21 year Navy veteran. Serving his entire career in San Diego and Hawaii, he completed 8 Western Pacific Deployments and visited many of the countries that touch the sea between the West Coast of the United States and the Middle East. Retired from active duty in November 2007, he works as a Systems Engineer from his home in Phoenix, Arizona. He is pursuing in Master of Science degree in Systems Engineering and writes short stories in his spare time.
