## Approaches to Learning and Teaching Science

### A Toolkit for International Teachers

[Cambridge University Press](#) A subject-specific guide for teachers to supplement professional development and provide resources for lesson planning. Approaches to learning and teaching Science is the result of close collaboration between Cambridge University Press and Cambridge International Examinations. Considering the local and global contexts when planning and teaching an international syllabus, the title presents ideas for Science with practical examples that help put theory into context. Teachers can download online tools for lesson planning from our website. This book is ideal support for those studying professional development qualifications or international PGCEs.

## Guinness World Records: Science and Stuff

Packed with spectacular superlatives, shocking stats, fantastic facts and fun figures, Science and Stuff celebrates the simple joy in finding things out. What can cats teach us about the laws of physics? Why was cabbage banned on the International Space Station? (Can you fart in space?) And would a penny dropped from the Empire State Building really kill someone? (Short answer: No!) But it's not all facts and stats. The feature chapter just for Makers, introduced by our very own mad professor Burnaby Q. Orban, challenges you to attempt record-breaking science experiments at home, from the fastest Mentos & Soda rocket car to the most slime thrown and caught in a minute! Join us as we rise from the deepest depths of the ocean, where weird glowing fish hunt in the darkness, to the mountaintop observatories where scientists unravel the secrets of the universe.

## GCSE Biology. Per Le Scuole Superiori

[John Murray Publishers](#) This outstanding book has been fully revised to feature: - additional information on topics such as clinical trials, B and T lymphocytes, infertility, performance-enhancing hormones, fluoridation of water supplies, impact of hunting and over-fishing, global warming, biofuels and global travel and disease - a new chapter on Applied Genetics, drawing together and expanding the information on selective breeding, genetic engineering, cloning, genetic fingerprinting and the Human Genome Project.

## Biology for You
