It helps students better prepare for class, quizzes, and exams—resulting in better performance in the course—and provides educators a dynamic set of tools for gauging individual and class progress.

Identifying Fraud, Abuse, and Error in Personal Bankruptcy Filings

Rand Corporation The U.S. Trustee Program (USTP), part of the U.S. Department of Justice, identifies and measures fraud, abuse, and error in personal bankruptcy filings. USTP asked the RAND Corporation to assist it in thinking about how to do this better. The authors conclude that a data-enabled case filing system, incorporating lessons from the IRS and GSA as well as the private sector, may be the direction for the future of the bankruptcy court system.

The Structuring of Organizations

A Synthesis of the Research

Prentice Hall How do organizations structure themselves? A synthesis of the empirical literature in the field, supported by numerous examples and illustrations, provides images that produce a theory. The author introduces five basic configurations of structure - the simple structure, the machine bureaucracy, the professional bureaucracy, the divisionalized form, and the adhocracy. This book reveals that structure seems to be at the root of many questions about organizations and why they function as they do.

The Advertising Red Books: Business classifications

The Financial Crisis Inquiry Report

The Final Report of the National Commission on the Causes of the Financial and Economic Crisis in the United States Including Dissenting Views

Cosimo, Inc. The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film In Debt We Trust warned of the economic meltdown in 2006. He has since written three books on the subject including Plunder: Investigating Our Economic Calamity (Cosimo Books, 2008), and The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail (Disinfo Books, 2011), a companion to his latest film Plunder The Crime Of Our Time. He can be reached online at www.newsdissector.com.

When Government Fails

The Orange County Bankruptcy

Univ of California Press When Orange County, California, filed for Chapter 9 protection on December 6, 1994, it became the largest municipality in U.S. history to declare bankruptcy. In a comprehensive analysis of this fiscal crisis, the author uncovers the many twists and turns that led eventually to financial recovery in 1996--and how to prevent similar future situations. 86 tables.

Mergent Corporate News Reports Monthly

Global Trends 2030

Alternative Worlds

Military Bookshop FULL COLOR PUBLICATION. Global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. Appropriate for anyone, from business to banks, government to start-ups, technology to teachers and more, this publication helps anticipate where the world will be socially, politically, technically and culturally over the next few decades.

The Third Industrial Revolution

How Lateral Power Is Transforming Energy, the Economy, and the World

St. Martin's Press The Industrial Revolution, powered by oil and other fossil fuels, is spiraling into a dangerous endgame. The price of gas and food are climbing, unemployment remains high, the housing market has tanked, consumer and government debt is soaring, and the recovery is slowing. Facing the prospect of a second collapse of the global economy, humanity is desperate for a sustainable economic game plan to take us into the future. Here, Jeremy Rifkin explores how Internet technology and renewable energy are merging to create a powerful "Third Industrial Revolution." He asks us to imagine hundreds of millions of people producing their own green energy in their homes, offices, and factories, and sharing it with each other in an "energy internet," just like we now create and share information online. Rifkin describes how the five-pillars of the Third Industrial Revolution will create thousands of businesses, millions of jobs, and usher in a fundamental reordering of human relationships, from hierarchical to lateral power, that will impact the way we conduct commerce, govern society, educate our children, and engage in civic life. Rifkin's vision is already gaining traction in the international community. The European Union Parliament has issued a formal declaration calling for its implementation, and other nations in Asia, Africa, and the Americas, are quickly preparing their own initiatives for transitioning into the new economic paradigm. The Third Industrial Revolution is an insider's account of the next great economic era, including a look into the personalities and players — heads of state, global CEOs, social entrepreneurs, and NGOs — who are pioneering its implementation around the world.

Medical Tourism and Wellness

Hospitality Bridging Healthcare (H2H)

CRC Press Medical Tourism and Wellness: Hospitality Bridging Healthcare (H2H) takes a systems approach to examining the growing field of medical tourism, one of the field's hottest niches, with billions of dollars spent each year. This important book fills the need for a modern management book that looks at medical tourism in depth from a medical and hospitality operational management perspective. Growing numbers of people are going abroad to find affordable quality medical care for both necessary and cosmetic medical services. When they require surgery or dental work, they combine it with a trip to the Taj Mahal, a photo safari on the African veldt, or a stay at a luxury hotel—or at a hospital that feels like one—all at bargain-basement prices. The book takes a comprehensive look at medical tourism, covering such topics as: The history of medical tourism Why patients/tourists decide to travel for medical care The role of professional facilitators of medical tourism Key countries and medical disciplines in medical tourism Transportation, food, entertainment, and hotel/hospitality services Hotel and spa designs for medical tourism Best practices in medical tourism Patient follow-up after medical discharge Future trends in medical tourism Careers in medical tourism With the inclusion of case studies, the book provides a comprehensive look into this growing trend and will be valuable to upper-level undergraduate and graduate students in health care administration and those pursuing MBAs in healthcare, medical students pursuing a management focus, and students in hospitality management. It will also be a must-have resource for professionals working in hotels and in health care.

Business Ethics: Ethical Decision Making and Cases

Cengage Learning This accessible, applied text covers the complex environment in which managers confront ethical decision making. Using a managerial framework, the authors address the overall concepts, processes, and best practices associated with successful business ethics programs--helping students see how ethics can be integrated into key strategic business decisions. The Seventh Edition incorporates comprehensive and rigorous updates that reflect the ever-increasing academic and governmental attention being given to this area. The textbook program provides an abundance of real-world examples and cases, as well as exercises, simulations, and practice tests that provide plenty of opportunity for students to master the text material. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

A Cognitive Psychology of Mass Communication

Routledge In this fifth edition of *A Cognitive Psychology of Mass Communication*, author Richard Jackson Harris continues his examination of how our experiences with media affect the way we acquire knowledge about the world, and how this knowledge influences our attitudes and behavior. Presenting theories from psychology and communication along with reviews of the corresponding research, this text covers a wide variety of media and media issues, ranging from the commonly discussed topics - sex, violence, advertising - to lesser-studied topics, such as values, sports, and entertainment education. The fifth and fully updated edition offers: highly accessible and engaging writing contemporary references to all types of media familiar to students substantial discussion of theories and research, including interpretations of original research studies a balanced approach to covering the breadth and depth of the subject discussion of work from both psychology and media disciplines. The text is appropriate for *Media Effects*, *Media & Society*, and *Psychology of Mass Media* coursework, as it examines the effects of mass media on human cognitions, attitudes, and behaviors through empirical social science research; teaches students how to examine and evaluate mediated messages; and includes mass communication research, theory and analysis.

Directory of Corporate Affiliations

Described as "Who owns whom, the family tree of every major corporation in America," the directory is indexed by name (parent and subsidiary), geographic location, Standard Industrial Classification (SIC) Code, and corporate responsibility.

Global Trends 2030

Alternative Worlds : a Publication of the National Intelligence Council

U.S. Government Printing Office This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous *Global Trends* reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of *Global Trends 2030*. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report.

The IABC Handbook of Organizational Communication

A Guide to Internal Communication, Public Relations, Marketing, and Leadership

John Wiley & Sons **Praise for The IABC Handbook of Organizational Communication** "Looking to expand your professional abilities? Learn new skills? Or hone your area of expertise? This book delivers an amazing and practical study of our profession—and a guidebook for strategic communication best practices. The Handbook explores the many aspects of our profession with expert insights of the best of the best in communication."—John Deveney, ABC, APR, president, Deveney Communication "Chalk up a win for Team IABC. Editor Tamara Gillis has assembled a winning lineup of the best communicators to compile this useful, readable Handbook. Not another how-to-do-it tactical manual, this volume draws from theory and global best practices to explain the strategic reasons behind modern communication. A must-read for anyone interested in understanding the communication profession and a useful desktop companion to the professional communicator's dictionary and style guide."—William Briggs, IABC Fellow and director, School of Journalism and Mass Communications, San Jose State University "It is a real pleasure to read this latest version. It presents a sound, research-based foundation on communication—its importance to organizations, why the function must be strategic, and what it takes to get it right."—John G. Clemons, ABC, APR, corporate director of community relations, Raytheon "All myths about organizational communicators being brainwashed, biased corporate journalists are out the window. This stellar compendium from dozens of authors, researchers, and editors of high professional stature is timely and forward-thinking. Communication students particularly will benefit from understanding the complex disciplines that intertwine and drive effective organizational communication."—Barbara W. Puffer, ABC, president, Puffer Public Relations Strategies, and associate professor and course chair, Communications Studies and Professional Writing, University of Maryland University College

Corporate Financial Distress, Restructuring, and Bankruptcy

Analyze Leveraged Finance, Distressed Debt, and Bankruptcy

Wiley A comprehensive look at the enormous growth and evolution of distressed debt markets, corporate bankruptcy, and credit risk models This Fourth Edition of the most authoritative finance book on the topic updates and expands its discussion of financial distress and bankruptcy, as well as the related topics dealing with leveraged finance, high-yield, and distressed debt markets. It offers state-of-the-art analysis and research on U.S. and international restructurings, applications of distress prediction models in financial and managerial markets, bankruptcy costs, restructuring outcomes, and more.

Bankrupt

The Intellectual And Moral Bankruptcy of the Democratic Party

Regnery Publishing The brother of radio talk-show host Rush Limbaugh argues that the Democratic Party has relinquished its control and spiritual virtue to liberal extremists, contending that the party has besmirched the president's character, undermined worthy Republican efforts, and veered away from its historical practices and roles.

Surviving and Thriving in Uncertainty

Creating The Risk Intelligent Enterprise

John Wiley & Sons A new book to help senior executives and boards get smart about risk management The ability of businesses to survive and thrive often requires unconventional thinking and calculated risk taking. The key is to make the right decisions—even under the most risky, uncertain, and turbulent conditions. In the new book, *Surviving and Thriving in Uncertainty: Creating the Risk Intelligent Enterprise*, authors Rick Funston and Steve Wagner suggest that effective risk taking is needed in order to innovate, stay competitive, and drive value creation. Based on their combined decades of experience as practitioners, consultants, and advisors to numerous business professionals throughout the world, Funston and Wagner discuss the adoption of 10 essential and practical skills, which will improve agility, resilience, and realize benefits: Challenging basic business assumptions can help identify "Black Swans" and provide first-mover advantage Defining the corporate risk appetite and risk tolerances can help reduce the risk of ruin. Anticipating potential causes of failure can improve chances of survival and success through improved preparedness. Factoring in velocity and momentum can improve speed of response and recovery. Verifying sources and the reliability of information can improve insights for decision making and thus decision quality. Taking a longer-term perspective can aid in identifying the potential unintended consequences of short-term decisions.

Bankruptcy

A Feast for Lawyers

M Evans & Company Described by the Chicago Tribune as a "latter-day version of Dickens' Bleak House," Bankruptcy: A Feast for Lawyers is a shattering indictment of bankruptcy law by a CEO who lived through the experience of Chapter 11. Author Sol Stein exposes a system that is supposed to provide an opportunity for troubled companies to reorganize, but kills more than 70% of the businesses that take refuge in it while enriching legions of lawyers. In the nightmare world of Chapter 11, the gainers are seldom the creditors or the debtor company, but rather the bankruptcy bar, impeached in this book by their own conduct and the condemnation of their ethical brethren. Besides his own experience, the author draws examples from diverse industries -- trucking, food, real estate, oil, and publishing.

Pre-Incident Indicators of Terrorist Incidents

The Identification of Behavioral, Geographic and Temporal Patterns of Preparatory Conduct

DIANE Publishing This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Contemporary Management in Canada

Scarborough, Ont. : Prentice Hall Canada Provides an understanding of what managers actually do, what the day-to-day dynamics of managerial work are, what issues Canadian managers face, and what it's like to be a manager in Canada.

FCC Record

A Comprehensive Compilation of Decisions, Reports, Public Notices, and Other Documents of the Federal Communications Commission of the United States

Ward's Business Directory of U.S. Private and Public Companies

This multi-volume set is a primary source for basic company and industry information. Names, addresses, SIC code, and geographic location of over 135,000 U.S. companies are included.

Principles of Management

Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters. Contributing Authors David S. Bright, Wright State University Anastasia H. Cortes, Virginia Tech University Eva Hartmann, University of Richmond K. Praveen Parboteeah, University of Wisconsin-Whitewater Jon L. Pierce, University of Minnesota-Duluth Monique Reece Amit Shah, Frostburg State University Siri Terjesen, American University Joseph Weiss, Bentley University Margaret A. White, Oklahoma State University Donald G. Gardner, University of Colorado-Colorado Springs Jason Lambert, Texas Woman's University Laura M. Leduc, James Madison University Joy Leopold, Webster University Jeffrey Muldoon, Emporia State University James S. O'Rourke, University of Notre Dame

Managing Technological Innovation

Competitive Advantage from Change

John Wiley & Sons Written by the author who helped crystalize the field of technology management and the management of innovation with the first two editions of Managing Technological Innovation, this Third Edition brings the subject in line with current business strategy. It also presents information in a newer organized format that aligns more closely with how the topics are presented and discussed in the classroom. Also included is a wider discussion of how science and technology interact with the global economy.

Four Practical Revolutions in Management

Systems for Creating Unique Organizational Capability

CRC Press In Four Practical Revolutions in Management: Systems for Creating Unique Organizational Capability, authors Shoji Shiba and David Walden significantly revise their classic text on leading management systems -- A New American TQM. This book is a comprehensive approach to business management that goes beyond business operations improvement. The authors demonstrate a program for establishing a sophisticated, state-of-the-art management system that creates unique organizational capabilities. Containing new methodologies and case studies, the book is one of the most extensive in the management field and provides a step-by-step program for implementing leading management techniques. To create a successful management system, the authors argue that companies must be organized around four major areas of practice called the "four revolutions." They are customer focus, continuous improvement, total participation, and societal networking. For each of the areas, the book presents proven methods that enable dynamic implementation strategies. **Customer Focus** Any effective management system begins with the customer. Companies must learn to integrate a customer's concerns into their own. The book presents how to embrace the "market-in" concept and integrate the other skills in the book into a management strategy that focuses on the customer. **Continuous Improvement** For a company to be successful in the 21st century, it must continually improve its processes to meet the ever-changing needs of the customer. This book introduces important tools for process discovery, management, and improvement. In the process, it moves beyond "reactive improvement" methods to "proactive improvement" efforts. **Total Participation** The key to creating a dynamic management system is employee participation. Employees are the ones who work on the issues of quality and customer satisfaction on a daily basis. This book presents skills such as hoshin management, team-building, creating structures for mobilization, and leading change and breakthrough. **Societal Networking** Besides a company's internal audience, another source of business improvement ideas is societal networking. This is the set of companies, customers, and suppliers associated with any organization, that can learn from the experiences of these groups. To develop these valuable resources into a comprehensive management strategy, the book covers "mutual learning" methods, as well as keys for integrating various management methodologies. This book includes: Hoshin management PDCA (plan, do, check, act) cycle 7-step method of reactive improvement Proactive improvement to develop new products Engaging people in a changing environment Focused strategies for phase-in Leading process improvement The practice of breakthrough Over thirty thorough case studies

Effective Public Relations

Pearson/Education For courses in Introductory Public Relations. Cutlip & Center offers students the gold standard in public relations, providing the most up-to-date reference in the market. In the new edition, Glen Broom continues the work of Cutlip and Center by providing the most up-to-date reference for students.

Corruption and Justice in Colonial Mexico, 1650-1755

Cambridge University Press Corruption is one of the most prominent issues in Latin American news cycles, with charges deciding the recent elections in Mexico, Brazil, and Guatemala. Despite the urgency of the matter, few recent historical studies on the topic exist, especially on Mexico. For this reason, Christoph Rosenmiller explores the enigma of historical corruption. By drawing upon thorough archival research and a multi-lingual collection of printed primary sources and secondary literature, Rosenmiller demonstrates how corruption in the past differed markedly from today. Corruption in Mexico's colonial period connoted the obstruction of justice; judges, for example, tortured prisoners to extract cash or accepted bribes to alter judicial verdicts. In addition, the concept evolved over time to include several forms of self-advantage in the bureaucracy. Rosenmiller embeds this important shift from judicial to administrative corruption within the changing Atlantic World, while also providing insightful perspectives from the lower social echelons of colonial Mexico.

Words on Cassette

Prebankruptcy Credit Counseling

Rand Corporation The Bankruptcy Abuse Prevention and Consumer Protection Act of 2005 provided new requirements for bankruptcy filers and gave the U.S. Trustee Program (USTP) new responsibility. Individual filers must now receive credit counseling during the 180 days before filing. USTP is charged with approving and reapproving counseling providers. This report examines steps USTP can take to develop measures of effectiveness of prebankruptcy credit counseling.
