Covey showed us how to become as effective as it is possible to be. In his long-awaited new book, THE 8th HABIT, he opens up an entirely new dimension of human potential, and shows us how to achieve greatness in any position and any venue. All of us, Covey says, have within us the means for greatness. To tap into it is a matter of finding the right balance of four human attributes: talent, need, conscience and passion. At the nexus of these four attributes is what Covey calls voice - the unique, personal significance we each possess. Covey exhorts us all to move beyond effectiveness into the realm of greatness - and he shows us how to do so, by engaging our strengths and locating our powerful, individual voices. Why do we need this new habit? Because we have entered a new era in human history. The world is a profoundly different place than when THE 7 HABITS OF HIGHLY EFFECTIVE PEOPLE was originally published in 1989. The challenges and complexity we face today are of a different order of magnitude. We enjoy far greater autonomy in all areas of our lives, and along with this freedom comes the expectation that we will manage ourselves, instead of being managed by others. At the same time, we struggle to feel engaged, fulfilled and passionate. Tapping into the higher reaches of human genius and motivation to find our voice requires a new mindset, a new skill-set, a new tool-set - in short, a whole new habit. **International Human Resource Management** Cengage Learning Emea Dowling et al is a rare instance of a textbook that has developed alongside the field - helping to shape what it is today - and remains the market leading IHRM textbook worldwide. Coca-Cola, Danone, Diageo, DuPont, Lufthansa and Tata are some of the companies that strive for a pragmatic approach to balancing competitive strategies with political and social obligations. Aligning for Advantage argues that to build and sustain corporate success, companies must synchronize business objectives and market positions with political and regulatory activism and social and environmental engagement. Moreover, to be credible and realizable, these external market and nonmarket strategies need to be equally attuned with corporate vision, values, and culture. The book advances a managerial process and conceptual framework for aligning corporate strategy. In some cases alignment may mean deep, strategically embedded partnerships with governments,

NGOs, or other stakeholders. In others, alignment may take the form of looser, temporary collaborations with outside organizations. No matter the approach, the relationship between nonmarket and market strategies should be deliberate and genuine, not accidental or artificial. Truly aligned strategies should reconcile and modulate sometimes conflicting external demands in a way that is appropriate for the corporation's geographic and market positions. In the end, companies must leverage their overall nonmarket strategy as a source of competitive advantage. **Global Business Today** Irwin Professional Pub Charles Hill's *Global Business Today, 4e (GBT)* has become an established text in the International Business market for its excellent but concise coverage of the key global issues including the cultural context for global business, cross-border trade and investment, the global monetary system and competition in the global environment.
