## The Battle for Pakistan

## The Bitter Us Friendship and a Tough Neighbourhood

*The Battle for Pakistan showcases a marriage of convenience between unequal partners. The relationship between Pakistan and the United States since the early 1950s has been nothing less than a whiplash-inducing rollercoaster ride. Today, surrounded by hostile neighbors, with Afghanistan increasingly under Indian influence, Pakistan does not wish to break ties with the United States. Nor does it*

want to become a vassal of China and get caught in the vice of a US-China rivalry, or in the Arab-Iran conflict. Internally, massive economic and demographic challenges as well as the existential threat of armed militancy pose huge obstacles to Pakistan's development and growth. Could its short-run political miscalculations in the Obama years prove too costly? Can the erratic Trump administration help salvage this relationship? Based on detailed interviews with key US and South Asian leaders, access to secret documents and operations, and the author's personal relationships and deep knowledge of the region, this book untangles the complex web of the US-Pakistani relationship and identifies a clear path forward, showing how the United States can build better partnerships in troubled corners of the world.

### The Practice of Love

### Lesbian Sexuality and Perverse Desire

*Indiana University Press* "... a work that builds a substantial bridge between Freudian psychoanalysis and radical feminist thought, particularly on the subject of lesbianism.... Presenting a complex argument about an issue vital to the psychoanalytic endeavor as well as to feminist theory, *The Practice of Love* should stimulate a reconsideration of 'perversion' and the construction of sexual fantasy. The illumination of the fantasies that make lesbian desire distinctive will necessarily open up our understanding of all sexuality." —Jessica Benjamin, *New York Times Book Review* "Teresa de Lauretis has entwined three books into one: a critical history of psychoanalytic theories of female homosexuality; a bold study of how lesbians keep disappearing from popular culture, especially film; and an original speculation on the dynamics of lesbian desire." —Elisabeth Young-Bruehl "An important and original contribution not only to lesbian and gay studies, but also to psychoanalytic theory and film criticism. De Lauretis brings a unique and valuable perspective to issues of great importance today in all these areas." —Leo Bersani "De Lauretis's influential theory gets top marks from sapphic scholars who know best." —*Out* In an eccentric reading of Freud through Laplanche and the Lacanian and feminist revisions, Teresa de Lauretis delineates a model of "perverse" desire and a theory of lesbian sexuality. *The Practice of Love* discusses classic psychoanalytic narratives of female homosexuality, contemporary feminist writings on female sexuality, and the evolution of the original fantasies into cultural myths or public fantasies.

## The Myth of Independence

*Oxford University Press* "Aristotle classified the things in the world into ten categories: substance, quantity, quality, relation, etcetera. Plotinus, the founder of Neoplatonism, attacked the classification, accepting only the first four categories, rejecting the other six, and adding one of his own: change. He preferred Plato's classification into five kinds, including change. In this part of his commentary, Simplicius records the controversy on the six categories rejected by Plotinus: acting, being acted upon, being in a position, when, where, and having on. Plotinus' pupil and editor, Porphyry, defended all six categories as applicable to the physical world, even if not to the world of Platonic Forms to which Platonist studies must eventually progress. Porphyry's pupil, Iamblichus, went further: taken in a suitable

sense, Aristotle's categories apply also to the world of Forms, although they require Pythagorean reinterpretation. Simplicius may be closer to Porphyry than to Iamblichus, and indeed Porphyry's defense established Aristotle's categories once and for all in Western thought. But the controversy of this period nonetheless revealed more effectively than any modern discussion the profound difficulties in Aristotle's categorial scheme."--Jacket.

## The Pillars of Islam

## Fiqh of Social Media

## Timeless Islamic Principles for Navigating the Digital Age

*Social media and digital technologies have changed our lives and there is no indication that things will slow down. As Muslims, we believe that Islam contains the most perfect guidance for all of mankind to follow. How do we implement that timeless advice in our unprecedented times? That is the focus of the Fiqh of Social Media. "I am grateful and appreciative of my friend, Omar Usman, for exhausting available resources; Islamic, psychological, secular, and business, to develop the work you see before you. We have had long discussions pertaining to many of the topics covered in this book. I am confident that you will find this book to be beneficial, and I pray that it inspires more contributions on this topic." -Shaykh AbdulNasir Jangda, Qalam Institute "With the time we spend on social media, being mindful of how we use it is crucial. This is a wonderful resource based in prophetic guidance on how to practically use social media in wise and beneficial ways." -Dr. Omar Suleiman, Yaqeen Institute "Reading Fiqh of Social Media is like sitting with your best friend from Sunday school and having an intellectual & spiritual conversation about the impact of social media on your life. Omar distills years of research, experience, and thought leadership in an easily digestible book that you can enjoy with a good cup of coffee (and your phone off!)" -Mohammed Faris, The Productive Muslim Company "Having followed Omar Usman's extensive work on the #FiqhOfSocialMedia and attended the seminar by him in person, I'm thrilled to hear about this being released in book form. Behavioral experts often demarcate an addiction by its rendering of a person dysfunctional; it sabotages his/her career, relationships, health, or any other fundamental facet of one's life. Therefore, considering what the digital age is undeniably crippling in our lives, I cannot overstate the importance of availing oneself this sobering critique of social media's true costs, its pragmatic course for rehabilitation, and its showcasing of the renewed relevance of Islam's timeless principles for self-care in the most comprehensive sense of the word." -Shaykh Mohammad Elshinawy, Mishkah University "The Prophet (s) said, "Whoever believes in Allah and the Last Day should say something good or keep silent." The ability to control our tongues, how we communicate with others, is an expression of our faith. Communication has evolved and changed so much that one of the primary ways many of us communicate with others is through social media; hashtags and 280 characters. This is a long-awaited work from my good friend and Hajj companion Omar Usman who has been writing, tweeting, speaking, and teaching about the Fiqh of Social Media for years. This is a valuable work providing guidance on how to use and benefit from social media in a way that conforms to our principles and values." -Shaykh Furhan Zubairi, Institute of Knowledge "Ulama of the past have written on the adaab of speech and social interaction. Connecting those guidelines with the modern world of social media has been the need of our time. May Allah reward Omar for taking this task on!" -Mufti Hussain Kamani, Qalam Institute "This is a must-read for Muslims around the globe. I can't thank Omar enough for this work which forces Muslims to look in the mirror and answer tough questions about how social media has impacted our lives. It questions why we desire to share the most intimate aspects of our lives with strangers from around the world and provides action items to implement. These discussions need to be had within the Muslim community. We have to question how our quality of life has been impacted by the age of hyper-connectivity. Due to the fact that Social Media is the tool for creating social capital, we need to realize that speaking about the harms of constant connectivity takes a lot of courage. Thank you, Omar, for this work." -Shaykh Mikaeel Smith, Qalam Institute*
