## Standard Catalog of Imported Cars, 1946-1990

*This book provides a wealth of detailed information that collectors, investors, and restorers of imported cars will not find in any other book. This massive volume spans the marques of imported vehicles. The list includes such familiar names as Alfa Romeo, Aston Martin, Bentley, Citroen, Jaguar, Lamborghini, Porsche, Rolls-Royce, Saab, and Volkswagon. Also in these pages, you'll find details on such lesser-known yet no less intriguing marques as Abarth, DAF, Frazer Nash, Humber, Iso, Nardi, Panhard, Peerless, Sabra and Skoda. The book also highlights model changes and corporate histories and provides value information on the most popular models of imported cars.*

## Bio-Diesel

## Bio-degradable Alternative Fuel for Diesel Engines

**Readworthy** *This is a well known fact that the resources of mineral oils are depleting day-by-day, and the cost of exploration of the remaining reserves is bound to escalate. Moreover, the burning of fossil fuels increases the level of carbon-dioxide in the atmosphere causing the 'Green House' effect. In this context, a viable and sustainable alternative fuel is necessary to cater to a large fleet of automobiles across the world. The advent of bio-diesel has come to the rescue in such a warranting situation. Efforts are being made to streamline the systems to produce bio-diesels at economically viable rates and apply them in running the diesel engines in lieu of petro-diesel. And the present study is an attempt in this direction. It seeks to exploit non-edible oil plants, especially Jatropha, mahua and palm, to replace diesel oil usage in the conventional diesel engines. Providing transesterification procedure for all the three non-edible oils, it deals with the heat release rate calculations based on the pressure data collected in the combustion chamber. It also extends discussion on the instrumentation and experimentation, as well as the results of the findings.*

## The Measure of Madness:

**Citadel Press** *Enter the "fascinating" and frightening world of modern forensic psychology as experienced by one of the most respected practitioners in the field today (Robert K. Tanenbaum, New York Times–bestselling author). At the heart of countless crimes lie the mysteries of the human mind. In this eye-opening book, Dr. Cheryl Paradis draws back the curtain on the fascinating world of forensic psychology, and revisits the most notorious and puzzling cases she has handled in her multifaceted career. Her riveting, sometimes shocking stories reveal the crucial and often surprising role forensic psychology plays in the pursuit of justice—in which the accused may truly believe their own bizarre lies, creating a world that pushes them into committing horrific, violent crimes. Join Dr. Paradis in a stark concrete cell with the indicted as she takes on the daunting task of mapping the suspect's madness or exposing it as fakery. Take a front-row seat in a tense, packed courtroom, where her testimony can determine an individual's fate—or if justice will be truly served. The criminal thought process has never been so intimately revealed—or so darkly compelling—as in this "excellent and entertaining" journey into the darkest corners of the human mind (Booklist).*

## Althusser and Law

**Routledge** *Althusser and Law* is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of Althusser's philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called 'Ideological State Apparatuses', law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to *Althusser and Law* argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.

Collects the first six chapters of both *Archie Marries Veronica* and *Archie Marries Betty*, the most critically acclaimed storyline Archie has ever published, as originally seen in the newsstand magazine *Life with Archie*.

## Muscle Manual

## The Book of L

**Springer Science & Business Media** This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

## Forever Burn

Tatum Everley is a freshman at Western Michigan University. Due to an emotionally and psychologically abusive past relationship, Tate struggles from Complex-Post Traumatic Stress Disorder. She has been working on controlling her symptoms and flashbacks, but when she meets Axel Burne at a fraternity party, who is notorious for sleeping around and getting into fights, she tries her best to dodge the bullet. Axel starts to become intrigued by Tate, but she's better off choosing Lucas- the sweet guy who has been trying to take her out since orientation. But even though Lucas is the better option, Axel keeps reappearing. Tate continues to try to stay away from him, but it starts becoming harder to, and as she gets closer to him, things start to get way out of hand. If Tate wants her happy ending and her sanity intact, then she has to push through the hardships and maintain control over her disorder.

## Girl Last Seen

**Albert Whitman & Company** Kadence Mulligan's star was rising. She and her best friend, Lauren DeSanto, watched their songs go viral on YouTube, then she launched a solo career when a nasty throat infection paralyzed Lauren's vocal chords. Everyone knows Lauren and Kadence had a major falling-out over Kady's boyfriend. But Lauren knows how deceptive Kadence could be sometimes. And nobody believes Lauren when she claims she had nothing to do with the disappearance. Or the blood evidence... As the town and local media condemns Lauren, she realizes the only way to clear her name is to discover the truth herself. Lauren slowly unravels the twisted life of Kadence Mulligan and sees that there was more to her than she ever knew. But will she realize she's unknowingly playing a part in an elaborate game to cover up a crime before it's too late?

## 308 Circuits

**Elektor International Media** This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.

## Mastering Power BI

## Build Business Intelligence Applications Powered with DAX Calculations, Insightful Visualizations, Advanced BI Techniques, and Loads of Data Sources (English Edition)

**BPB Publications** Expert Choice to build Business Intelligence landscapes and dashboards for Enterprises **KEY FEATURES** ● In-depth knowledge of Power BI, demonstrated through step-by-step exercises. ● Covers data modelling, visualization, and implementing security with complete hands-on training. ● Includes a project that simulates a realistic business environment from start to finish. **DESCRIPTION** Mastering Power BI covers the entire Power BI implementation process. The readers will be able to understand all the concepts covered in this book, from data modelling to creating powerful - visualizations. This book begins with the concepts and terminology such as Star-Schema, dimensions and facts. It explains about multi-table dataset and demonstrates how to load these tables into Power BI. It shows how to load stored data in various formats and create relationships. Readers will also learn more about Data Analysis Expressions (DAX). This book is a must for the developers wherein they learn how to extend the usability of Power BI, to explore meaningful and hidden data insights. Throughout the book, you keep on learning about the concepts, techniques and expert practices on loading and shaping data, visualization design and security implementation. **WHAT YOU WILL LEARN** ● Learn about Business Intelligence (BI) concepts and its contribution in business analytics. ● Learn to connect, load, and transform data from disparate data sources. ● Start creating and executing powerful DAX calculations. ● Design various visualizations to prepare insightful reports and dashboards. **WHO THIS BOOK IS FOR** This book is for anyone interested in learning how to use Power BI desktop or starting a career in Business Intelligence and Analytics. While this covers all the fundamentals, it is recommended that the reader be familiar with MS-Excel and database concepts. **TABLE OF CONTENTS** 1. Understanding the Basics 2. Connect and Shape 3. ## Disciple IV

*DISCIPLE IV UNDER THE TREE OF LIFE* is the final study in the four-phase DISCIPLE program and is prepared for those who have completed *BECOMING DISCIPLES THROUGH BIBLE STUDY*. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

## Technology, Industry, and Trade

## The Levant Versus Europe, 1250-1500

**Routledge** This is the fifth collection of articles by Eliyahu Ashtor to be published by Variorum and focuses on the fundamental question of why, during the later Middle Ages, technology and industry declined, even collapsed, in the Muslim Levant, while simultaneously making enormous progress in the Christian West. An indefatigable researcher in archives all over the Mediterranean, Ashtor amassed quantities of data on this subject, and began to propose causal links between, on the one hand, demographic trends, types of political regime, economic policies and attitudes towards innovation, and on the other, the progress or decline of technology and industry. Although his work was cut short by his death in 1984, the information that Ashtor has made available, for instance on the sugar and the alkali industries, and the questions and hypotheses he has suggested will provide a vital basis for continuing research. The final article, dealing more specifically with the history of commerce, represents in effect a summation of the author's views on the role of the Jews in the trade of the Mediterranean. La cinquième collection d'articles d'Eliyahu Ashtor à être publiée par Variorum (pour les deux volumes encore disponibles, voir p.00) se concentre sur la raison fondamentale pour laquelle, durant le Bas Moyen Age, la technologie et l'industrie dans le Levant musulman étaient en déclin, voire même en plein effondrement, alors qu'elles faisaient simultanément d'énormes progrès dans l'Ouest chrétien. Cherchiste infatigable des archives méditerranéennes, Ashtor a amassé quantité d'informations à ce sujet et a commencé à suggérer l'existence de lien de cause entre: d'une part, les tendances démographiques, les types de régimes politiques, la politique économique et les attitudes vis-à-vis du changement et, d'autre part, le progrès ou le déclin de la technologie et de l'industrie. Bien que son travail ait été interrompu par sa mort en 1984, l'information découverte par Ashtor, ainsi que les questions et hypothèses qu'il a suggéré forment une base essentielle à la continuation de la recherche. Le dernier article, qui traite plus spécifiquement de l'histoire du commerce, fait effet de récapitulatif quant aux opinions de l'auteur sur le rôle des juifs dans le commerce méditerranéen.

## Identités Régionales Et Nationales en Europe Aux XIXe Et XXe Siècles

**Springer** In late 20th-century Europe, both national and regional loyalties have retained a surprising strength and topicality, despite the advance of supra-national integration. This volume addresses some specific aspects of this phenomenon that lay at the centre of the interdisciplinary work of the first European Forum of the European University Institute in Florence during the academic year 1993/94. It aims at contributing to a better understanding of the origins and the nature of territorially-based identities in Europe, and it also offers some analysis of current problems arising at various levels of the relationships between regional, national and international structures. The contributions to this volume refer to three major fields of historical and contemporary research: The study of the factors that constitute territorially-based imagined communities. Under what conditions can certain cultural characteristics shared by a given group (such as language, religious affiliation or cultural heritage) acquire social and political meaning in a process of creating territorial loyalties? And how do regional and national loyalties relate to other patterns of particularist group identities? In examining these questions, special attention is given to the concept of primordial identities and to the problem of ethnicity. The analysis of the mechanisms by which particular group interests (social, political, or cultural) are translated into narratives of regional or national identity. The loyalty to a community within a given territory is never merely a product of 'invention' and of arbitrary ideological indoctrination.

## Datsun 280Z & 280ZX

**Brooklands Books Limited** Datsun's initial offerings were fairly conventional family cars, but with the introduction of the 240Z in 1969 the marque's image received a massive boost. It was a runaway success, outselling every European sports car model in the lucrative North American market. The 280Z arrived in 1975 followed by the 280ZX in 1978 and sales of the 280ZX had reached over 446,000 units by the time production came to an end in 1983. 44 international articles include road, track and comparison tests, a service guide plus full technical and performance data.
