New Scientist New Scientist magazine was launched in 1956 "for all those men and women who are interested in scientific discovery, and in its industrial, commercial and social consequences". The brand's mission is no different today - for its consumers, New Scientist reports, explores and interprets the results of human endeavour set in the context of society and culture. Treaty Series 2892/Recueil des Traités 2892 [United Nations](#) In accordance with Article 102

of the Charter and the relevant General Assembly Resolutions, every treaty and international agreement registered or filed and recorded with the Secretariat since 1946 is published in the United Nations Treaty Series. At present, the collection includes about 30,000 treaties reproduced in their authentic languages, together with translations into English and French, as necessary. The Treaty Series, where treaties are published in the chronological order of registration, also provides details about their subsequent history (i.e., participation in a treaty, reservations, amendments, termination, etc.). Comprehensive Indices covering 50-volume-lots are published separately. A Standing Order service is available for the Series and out-of-print volumes are available on microfiche. Survey of Fiji Citizens Enrollments and Graduates of Tertiary Institutes in Fiji Report Dual Bachelor's study courses with integral attainment of a Bachelor's degree and vocational Master qualification Bachelor & Meister [BoD - Books on Demand](#) There is a strong and growing shortage of qualified entrepreneurs and managers in the SME sector, and this is the main factor hampering further development in all European countries. To meet these challenges, there is an urgent need to raise the qualification level of master craftsman training (German Meisterausbildung) as effective entrepreneurship training according to the needs of entrepreneurial activity and to introduce entrepreneurship education at academic level. The aim of the "Bachelor & Meister" project, which ran from September 2017 to August 2020, was to develop an innovative

learning approach in the form of a dual integrated degree programme combining the advantages of master craftsman training and university studies. During the 3-year project duration, 2 different models of the dual integral study courses were developed: the dual integral study course "Civil Engineering" and "Electrical Engineering". The testing of the dual integral study course "Civil Engineering" in Germany was initiated. This publication contains the relevant information like curricula, examination regulations or experiences as results of the project Bachelor & Meister with the following partners: Hanse Parlament (DE), hochschule 21 (DE), Satakunta University of Applied Sciences (FI), Poznan University of Life Sciences (PL), Wielkopolska Crafts Chamber in Poznan (PL) and Vilnius Gediminas Technical University (LT).
