RAF Wings Over Florida

Memories of World War II British Air Cadets

Purdue University Press They fondly remember the times when they buzzed over the homes of their Florida "families" to let them know to expect them for Sunday dinner. More than fifty years later, their stories still resonate with universal emotions: fear of failure, love of country, camaraderie, romantic love, and the pain of tragic deaths. Their stories also remind the American reader of a unique time in our history, when, poised on the brink of war, the United States reached out to help a country in distress."--BOOK JACKET.

Fresh from the Freezer

Houghton Mifflin Harcourt Unlock the frozen asset in your kitchen with these quick and easy make-ahead recipes the whole family will love. Grocery

The Buying and Selling of Food in America

Abrams The New York Times–bestselling author “digs deep into the world of how we shop and how we eat. It’s a marvelous, smart, revealing work” (Susan Orlean, #1 bestselling author). In a culture obsessed with food—how it looks, what it tastes like, where it comes from, what is good for us—there are often more questions than answers. Ruhlman proposes that the best practices for consuming wisely could be hiding in plain sight—in the aisles of your local supermarket. Using the human story of the family-run Midwestern chain Heinen’s as an anchor to this journalistic narrative, he dives into the mysterious world of supermarkets and the ways in which we produce, consume, and distribute food. Grocery examines how rapidly supermarkets—and our food and culture—have changed since the days of your friendly neighborhood grocer. But rather than waxing nostalgic for the age of mom-and-pop shops, Ruhlman seeks to understand how our food needs have shifted since the mid-twentieth century, and how these needs mirror our cultural ones. A mix of reportage and rant, personal history and social commentary, Grocery is a landmark book from one of our most insightful food writers. “Anyone who has ever walked into a grocery store or who has ever cooked food from a grocery store or who has ever eaten food from a grocery store must read Grocery. It is food journalism at its best and I’m so freakin’ jealous I didn’t write it.” —Alton Brown, television personality “If you care about why we eat what

we eat—and you want to do something about it—you need to read this absorbing, beautifully written book.” —Ruth Reichl, New York Times-bestselling author

Root and Tuber Crops

Springer Science & Business Media It is important to include Tuber and Root Crops in the Handbook of Plant Breeding. They include starchy staple crops that are of increasing importance for global food security and relief of poverty, important millennium goals for the United Nations. Indeed, 2008 was the UN International Year of the Potato in recognition of this role of the potato as the world's third most important food crop after wheat and rice. The other major staples are cassava, sweetpotato and yam. Together they occupy about 50 million hectares, with production at 640 million metric tons, of which 70% is in developing countries. In total there are more than 30 species of Root and Tuber Crops grown in the world today. Given the content of other volumes in the series, it makes sense to include sugar and fodder beets; swedes and turnips; and minor root and tuber crops so that the book series is as complete as possible. Like the other volumes in the series, this one will present information on the latest in applied plant breeding using the current advances in the field, from an efficient use of genetic resources to the impact of biotechnology in plant breeding. Seven crop specific chapters are proposed, together with an introduction to this diverse set of plant species. Outstanding scientists for each crop species are proposed as senior authors, who may invite co-authors to contribute part of a chapter. In order to increase the overall acceptance of the volume, balance will be sought with authors from different research groups/countries who will be asked to contribute and collaborate where appropriate. The book should be of interest to researchers in both academic and industrial settings, and in both developed and developing countries, as well as students and teachers of plant breeding. It is currently extremely important to educate and train a new generation of plant breeders given the challenges faced by humankind in producing more food for an expanding global population during a period of environmental (including climate) change.

Almost Like Being in Love

Pocket Books New York Times bestselling author Christina Dodd's contemporary novel—set in Idaho ranch country—is the second book in a trilogy of heartwarming, sexy romances about three sisters who grew up in different foster families and are reunited as adults. As the middle child, Pepper Prescott's rebellious nature helped her survive when her parents disappeared and she and her siblings were sent to different foster homes around the country. Now an independent young woman, Pepper finds herself on the run after witnessing a shooting. Fearing for her life, Pepper flees to the only place she ever considered home and is shocked to find her old lover, Dan Graham, living on the remote mountain ranch. A battle-hardened ex-Special Forces soldier, Dan no longer strikes Pepper as a man she can trust with her secrets, her life, and her love. But as long-simmering desires flare into a deep, sensual passion, Pepper realizes the only way she can reclaim her life is to ally herself with the enigmatic warrior who's willing to help fight for her future by solving the mysteries of her past—and making her his wife today.

Introduction to Radar Using Python and MATLAB

Artech House This comprehensive resource provides readers with the tools necessary to perform analysis of various waveforms for use in radar systems. It provides information about how to produce synthetic aperture (SAR) images by giving a tomographic formulation and implementation for SAR imaging. Tracking filter fundamentals, and each parameter associated with the filter and how each affects tracking performance are also presented. Various radar cross section measurement techniques are covered, along with waveform selection analysis through the study of the ambiguity function for each particular waveform from simple linear frequency modulation (LFM) waveforms to more complicated coded waveforms. The text includes the Python tool suite, which allows the reader to analyze and predict radar performance for various scenarios and

applications. Also provided are MATLAB® scripts corresponding to the Python tools. The software includes a user-friendly graphical user interface (GUI) that provides visualizations of the concepts being covered. Users have full access to both the Python and MATLAB source code to modify for their application. With examples using the tool suite are given at the end of each chapter, this text gives readers a clear understanding of how important target scattering is in areas of target detection, target tracking, pulse integration, and target discrimination.

Sport and South Asian Diasporas

Playing through Time and Space

Routledge This original collection demonstrates the importance of sporting practices, spaces and leisure affiliations to understanding issues around identity, (post-) migration, diaspora and transnationalism for global South Asian populations. The chapters provide a critical (re-) examination of the roles that sport plays within and in relation to South Asian groups in the diaspora, and raises a series of pertinent questions regarding the multifarious relationships between sport and South Asianness. The chapters range across a wide variety of disciplines, regions, sports and identifications. They are in conversation with each other while showing the particularity of each diasporic context and relationship to sport. The book encompasses a number of global contexts from the "homeland" (India, Pakistan, Afghanistan) to the diaspora (Fiji, Norway, the US, the UK), and addresses a broad range of sporting contexts, including basketball, boxing, cricket, cycling, field hockey, soccer and golf. The chapters combine a range of qualitative methods, including ethnography, auto-ethnography, participant observation, memoir, interview and textual analysis (film, television and print media). This collection comprises the latest cutting edge research in the field, and will be essential reading for scholars and students both of sport and South Asian diasporas. This book was published as a special issue of South Asian Popular Culture.

Forever Burn

Tatum Everley is a freshman at Western Michigan University. Due to an emotionally and psychologically abusive past relationship, Tate struggles from Complex-Post Traumatic Stress Disorder. She has been working on controlling her symptoms and flashbacks, but when she meets Axel Burne at a fraternity party, who is notorious for sleeping around and getting into fights, she tries her best to dodge the bullet. Axel starts to become intrigued by Tate, but she's better off choosing Lucas- the sweet guy who has been trying to take her out since orientation. But even though Lucas is the better option, Axel keeps reappearing. Tate continues to try to stay away from him, but it starts becoming harder to, and as she gets closer to him, things start to get way out of hand. If Tate wants her happy ending and her sanity intact, then she has to push through the hardships and maintain control over her disorder.

Fletcher of Madeley (Esprios Classics)

"There is reason to think that the interest felt in the Evangelical Revival of the last century, after declining for awhile, is again steadily increasing. It may be said that this quickened interest is but part of a larger intellectual movement, of a reaction, in which we have passed from undue disparagement of the eighteenth century to an exaggerated estimate of its importance and value. Nor is it likely, when eighteenth century forms of literature, philosophy, and social life are being studied with so much sympathy, that the most prominent event in its religious history would escape attention."
