English and Maths Test Paper Pack for SATs Practice

Errors and Misconceptions in Maths at Key Stage 2

Working Towards Success in SATS

Routledge The activities in this book are designed both to help children to learn and to understand math concepts, and also to prepare them for taking SATS papers at KS2. There is plenty of research evidence to suggest that children are helped in their understanding of math problems if teachers focus on common misconceptions, and if children are given opportunities for discussion and explanation of their own understanding. Children can also feel stigmatized by being made to focus on their own errors. Mike Spooner has developed activities that present already completed work which children then assess, correct and discuss - in this way they can analyze mistakes without damage to their own self-esteem. The activities are presented in the same format as the SATS papers, to give children practice in coping with that format. The book also contains writing frames that children can use to structure their discussions of math problems.

Maths Test - Year 3

Check your child's progress with these new format National Curriculum tests. These practice tests are designed to check children's level of understanding at the end of Year 3. Each pack comes with two complete practice tests and an accompanying Guidance and Mark Scheme booklet. These practice tests have a similar look and feel to the new Key Stage 2 Mathematics test, to help familiarise children with both the content and format of these tests. The tests can be used to track progress in school, but can also be used in the home. The Guidance and Mark Scheme provides advice for parents and carers on how to use the tests and how to support children in preparing for them. Scholastic National Curriculum Revision Year 3 is also available, offering children the opportunity to check their progress across the Mathematics curriculum and to develop the skills they need for these national tests.
