AWAKENING OF THE SOUL

A RECORD OF THOUGHTS CHANNELED BY SOULS OF HUMANS AND ALIENS FOR A CHANGING EARTH

iUniverse In 2002, Grace J. Scott began to receive messages from those beyond the grave. Grace felt it her duty to record their voices, their thoughts, and even their warnings. Awakening of the Soul is the amazing result. This intriguing collection of channeled thoughts from souls in heaven, other planetary systems, and other universes will benefit those seeking spiritual growth as well as those wanting information about preparing for upcoming Earth changes. Much of the material is packed with information and requires time to read and digest while other material is simple and easily understood. Presented in chronological order as received in reflexology sessions, the conversations are completely original, unedited, and unorganized, straight from the spirit itself. Some spirits channeled big lessons for the general public or gave messages to individuals while some explained disasters, politics, wars, dreams, and events in our daily lives. But all of the souls have one thing in common: they bring news that Earth is cleansing itself at a rapid pace, and they are here to assist us through the cleansing and beyond. Epic in scope, Awakening of the Soul is a vital tool for those looking to the future and to the fate of Earth itself.

KOMODO DRAGONS

BIOLOGY AND CONSERVATION

Smithsonian Institution More than twenty years have passed since Walter Auffenberg's monumental The Behavioral Ecology of the Komodo Monitor. In the intervening years the populations of Komodo dragons—native only to a handful of islands in southeast Indonesia—have dwindled, sparking intensive conservation efforts. During the last two decades new information about these formidable predators has emerged, and the most important findings are clearly presented here. A memoir from Walter Auffenberg and his son Kurt is followed by the latest information on Komodo dragon biology, ecology, population distribution, and behavior. The second part of the book is dedicated to step-by-step management and conservation techniques, both for wild and captive dragons. This successful model is a useful template for the conservation of other endangered species as well, for, as Kurt and Walter Auffenberg note, "The species may well indeed survive in the wild for generations to come while countless other organisms are lost."

THERE'S A NAME FOR THIS FEELING: STORIES / HAY UN NOMBRE PARA LO QUE SIENTO: CUENTOS

Arte Publico Press In the title story, Lucinda hatches a clever plan to get her boyfriend back and is crushed when she ultimately realizes that it's impossible to force a guy to love you. Like all young people, she ignores the advice of her mom and learns that lesson—and many more—the hard way. In this bilingual collection of ten short stories for young people, kids deal with both serious and humorous consequences after they ignore their parents' suggestions and disobey rules. At a friend's house on New Year's Eve, Raymond plays with fireworks even though he promised his parents he wouldn't. Kids on a track team search for a mysterious naked woman with embarrassing results. And two girls in a wax museum are in for a surprise when they ignore the signs about touching the figures. These short and accessible contemporary stories are alternately amusing and poignant as they explore issues relevant to today's youth. Teens deal with everything from grandparents suffering from dementia to difficult customers at a first job. And in one story, a young girl grieves the loss of her baby, a miscarriage her mom calls a "blessing." These stories highlight the emotional tailspins of living in a complicated world.
