Passport to World Band Radio 1998

Elegant rusticity meets unpretentious luxury in the work of this award-winning architecture firm. Howard Backen, award-winning principal of the architecture firm Backen Gillam Kroeger, is at the center of a popular movement in home design that emphasizes comfort over pretension and elegant simplicity over complication that tends to serve the ego of architects. This volume, the first on his work and that of the firm, is an artful exploration of that this aesthetic, featuring farmhouses in the Napa Valley, hilltop homes, seaside retreats, and lakeside hideaways. Throughout the work, a sense of intimacy, warmth, and informality pervades. Natural materials, such as wood, stone, and brick form the foundations, walls, and ceilings of these subtly luxurious spaces, while nature itself plays a considered role that is at once complementary and also intricately conjoined with the work. Long vistas open outward toward sun-drenched valleys from the window-lined wall of a bedroom in one home, while more immediate scenes of steeply rising hillsides and hidden lakes appear from just beyond the back stoop--and the rough-hewn-board dock--of another. Sensitive, alluring, and wonderfully resonant with the suggestion of invitation, the work of Backen Gillam Kroeger is both thrilling to the eye and restorative to the soul.

The New York Times Book Review

Presents extended reviews of noteworthy books, short reviews, essays and articles on topics and trends in publishing, literature, culture and the arts. Includes lists of best sellers (hardcover and paperback).

Provides lists of selling prices of items found on eBay in such categories as antiques, boats, books, cameras, coins, collectibles, dolls, DVDs, real estate, stamps, tickets, and video games.

Digital Audio Broadcasting

Principles and Applications of Digital Radio

John Wiley & Sons **Now the standardisation work of DAB (Digital Audio Broadcasting) system is finished many broadcast organisations, network providers and receiver manufacturers in European countries and outside of Europe (for example Canada and the Far East) will be installing DAB broadcast services as pilot projects or public services. In addition some value added services (data and video services) are under development or have already started as pilot projects. The new digital broadcast system DAB distinguishes itself from existing conventional broadcast systems, and the various new international standards and related documents (from ITU-R, ISO/IEC, ETSI, EBU, EUREKA147, and**

others) are not readily available and are difficult to read for users. Therefore it is essential that a well structured technical handbook should be available. The Second Edition of Digital Audio Broadcasting has been fully updated with new sections and chapters added to reflect all the latest developments and advances. Digital Audio Broadcasting: Provides a fully updated comprehensive overview of DAB Covers international standards, applications and other technical issues Combines the expertise of leading researchers in the field of DAB Now covers such new areas as: IP-Tunneling via DAB; Electronic Programme Guide for DAB; and Metadata A comprehensive overview of DAB specifically written for planning and system engineers, developers for professional and domestic equipment manufacturers, service providers, as well as postgraduate students and lecturers in communications technology.

Advances in Artificial Intelligence, Software and Systems

Engineering

Proceedings of the AHFE 2020 Virtual Conferences on Software and Systems Engineering, and Artificial Intelligence and Social Computing, July 16-20, 2020, USA

Springer Nature **This book addresses emerging issues concerning the integration of artificial intelligence systems in our daily lives. It focuses on the cognitive, visual, social and analytical aspects of computing and intelligent technologies, and highlights ways to improve the acceptance, effectiveness, and efficiency of said technologies. Topics such as responsibility, integration and training are discussed throughout. The book also reports on the latest advances in systems engineering, with a focus on societal challenges and next-generation systems and applications for meeting them. Based on the AHFE 2020 Virtual Conference on Software and Systems Engineering, and the AHFE 2020 Virtual Conference on Artificial Intelligence and Social Computing, held on July 16–20, 2020, it provides readers with extensive information on current research and future challenges in these fields, together with practical insights into the development of innovative services for various purposes.**
