**Life Support** *Pocket Books* From New York Times bestselling author Tess Gerritsen, a terrifying novel of deadly proportions as an ER doctor tries to determine the cause and cure of a fatal and mysterious virus before it becomes an epidemic. The quiet overnight shift at Springer Hospital ER suits Dr. Toby Harper just fine—until she admits a man in critical condition from a possible viral infection of the brain. The delirious man barely responds to treatment—and then disappears without a trace. Before Toby can find him, a second case occurs, revealing a terrifying fact: the virus can only be spread through direct tissue exchange. Following a trail of death that winds from a pregnant sixteen-year-old prostitute to her own home, Toby discovers the unthinkable: the epidemic didn't just happen—someone let it loose.... **Life Support** *Random House* 'If you like your crime medicine strong, this will keep you gripped.' Mail on Sunday **DON'T COUNT ON SEEING TOMORROW** Dr Toby Harper's quiet night is disrupted when a severely ill man stumbles into ER. She suspects a viral brain infection. But shortly after trying to treat him, he disappears without a trace. When a second person is admitted with the same symptoms, she starts to trace the deadly infection backwards. And begins to suspect foul play. **Harvest** *Simon and Schuster* In this classic medical thriller filled with harrowing suspense and brilliantly crafted plot twists, Tess Gerritsen—the author of the acclaimed Rizzoli & Isles series that inspired the hit television show—delivers a pulse-pounding tale that “will make your heart skip a beat” (USA TODAY). For Dr. Abby DiMatteo, the long road to Boston's Bayside Hospital has been anything but easy. Now, immersed in the grinding fatigue of her second year as a surgical resident, she's elated when the hospital's elite cardiac transplant team taps her as a potential recruit. But Abby soon makes an anguished, crucial decision that jeopardizes her entire career. A car crash victim's healthy heart is ready to be harvested; it is immediately cross-matched to a wealthy private patient, Nina Voss. Abby hatches a bold plan to make sure that the transplant goes instead to a dying seventeen-year-old boy who is also a perfect match. The repercussions are powerful and swift and Abby is shaken but unrepentant—until she meets the frail, tormented Nina. Then a new heart for Nina Voss suddenly appears, her transplant is completed, and Abby makes a terrible discovery: Nina's heart has not come through the proper channels. Defying Bayside Hospital's demands for silence, Abby plunges into an investigation that reveals an intricate, and murderous, chain of deceptions. Every move Abby makes spawns a vicious backlash and, in a ship anchored in the stagnant waters of Boston Harbor, a final, grisly discovery lies waiting... **Bloodstream** *Simon and Schuster* With her acclaimed novels *Harvest* and *Life Support*, Tess Gerritsen has injected a powerful dose of adrenaline into the medical thriller. Now, Gerritsen melds page-turning suspense with chilling realism as a small-town doctor races to unravel the roots of a violent outbreak—before it destroys everything she loves. Lapped by the gentle waters of Locust Lake, the small resort town of Tranquility, Maine, seems like the perfect spot for Dr. Claire Elliot to shelter her adolescent son, Noah, from the distractions of the big city and the lingering memory of his father's death. But with the first snap of winter comes shocking news that puts her practice on the line: a teenage boy under her care has committed an appalling act of violence. And as Claire and all of Tranquility soon discover, it is just the start of a chain of lethal outbursts among the town's teenagers. As the rash of disturbing behavior grows, Claire uncovers a horrifying secret: this is not the first time it has happened. Twice a century, the children of Tranquility lash out with deadly violence. Claire suspects that there is a biological cause for the epidemic, and she fears that the placid Locust Lake may conceal an insidious danger. As she races to save Tranquility—and her son—from harm, Claire discovers an even greater threat: a shocking conspiracy to manipulate nature and cause innocents to slaughter. **Gravity** *Simon and Schuster* An organism harmless on earth where it is subject to gravity terrorizes a research station in space. Scientists die violently and from their insides spill creatures that are part human, part frog and part mouse. **Never Say Die** *Harlequin* Twenty years after her father's plane crashes in the jungles of Southeast Asia, Willy Jane Maitland is finally tracking his last moves. She recognizes the danger, but her search for the truth is the only thing that matters. Willy knows she can't proceed without the help of ex-army officer Guy Barnard, who knows the mysterious land well. But in a place where truth has many faces, she suspects even Guy has hidden motives. What she couldn't have prepared for are the shocking secrets and the undeniable attraction. "Gerritsen is tops in her genre." - USA TODAY **UNDER THE KNIFE** *MIRA* A fan-favorite novel by internationally bestselling author Tess Gerritsen For attorney David Ransom, it begins as an open-and-shut case: malpractice.
