Literature Education in the Asia-Pacific Policies, Practices and Perspectives in Global Times [Routledge](#) **The continual rise of English as a global lingua franca has meant that English literature, both as a discipline and as a tool in ESL and EFL classrooms, is being used in varied ways outside the inner circle of English. This edited collection provides an overview of English literature education in the Asia-Pacific in global times, bringing to international attention a rich understanding of the trends, issues and challenges specific to nations within the Asia-Pacific region. Comprising contributions from Australia, China, Hong Kong, India, Indonesia, Malaysia, Philippines, Singapore and Vietnam, the collection addresses the diversity of learners in different national, cultural and teaching contexts. In doing so, it provides insights into historical and current trends in literature education, foregrounds specific issues and challenges in policymaking and implementation, presents practical matters concerning text selection, use of literature in the language classroom, innovative practices in literature education, and raises pressing and important questions about the nature, purpose and importance of literature education in global times.** **NET JRF English Solved Question bank based on Previous Papers With Instant Answer Key NTA NET JRF Exam** [by Mocktime Publication](#) **NET JRF English Solved Question bank based on Previous Papers With Instant Answer Key Nta Net jrf English previous year solved question papers, Ugc Net jrf paper 1 teaching and research methodology, net paper 1 by kvs madaan upkar trueman arihant , cbse net paper 1 practice set in hindi, ugc net english exam guide Paper Monsters Persona and Literary Culture in Elizabethan England** [University of Pennsylvania Press](#) **In Paper Monsters, Samuel Fallon charts the striking rise, at the turn**

to the seventeenth century, of a new species of textual being: the serial, semifictional persona. When Thomas Nashe introduced his charismatic alter ego Pierce Penilesse in a 1592 text, he described the figure as a "paper monster," not fashioned but "begotten" into something curiously like life. The next decade bore this description out, as Pierce took on a life of his own, inspiring other writers to insert him into their own works. And Pierce was hardly alone: such figures as the polemicist Martin Marprelate, the lovers Philisides and Astrophil, the shepherd-laureate Colin Clout, the prodigal wit Euphues, and, in an odd twist, the historical author Robert Greene all outgrew their fictional origins, moving from text to text and author to author, purporting to speak their own words, even surviving their creators' deaths, and installing themselves in the process as agents at large in the real world of writing, publication, and reception. In seeking to understand these "paper monsters" as a historically specific and rather short-lived phenomenon, Fallon looks to the rapid expansion of the London book trade in the years of their ascendancy. Personae were products of print, the medium that rendered them portable, free-floating figures. But they were also the central fictions of a burgeoning literary field: they embodied that field's negotiations between manuscript and print, and they forged a new form of public, textual selfhood. Sustained by the appropriative rewritings they inspired, personae came to seem like autonomous citizens of the literary public. Fallon argues that their status as collective fictions, passed among writers, publishers, and readers, positioned personae as the animating figures of what we have come to call "print culture."

Many entries are accompanied by useful notes that provide information on the authors, works, translators, and the reception of the translations. This book includes the works of Pirandello, Calvino, Eco, and more recently, Andrea Camilleri and Valerio Manfredi. Together with Robin Healey's **Italian Literature before 1900 in English Translation**, also published by University of Toronto Press in 2011, this volume makes comprehensive information on translations from Italian accessible for schools, libraries, and those interested in comparative literature.

Super 10 CBSE Class 10 English Language Literature 2021 Sample Papers 3rd Edition [Disha Publications](#) **Constructing a New Canon of Post-1980s Indian English Fiction** [Cambridge Scholars Publishing](#) The literary canon implies the evaluation or estimation of certain literary texts as the most important during a particular time. The canon is not merely a set of texts; it is a set of standards, evaluative procedures and values. Belonging to a canon confers a guarantee of literary greatness. A canon is formed, by a particular group, to channelize cultural hegemony over others, or, can be constructed, by a governed group, to bring about cultural symmetry. The rise of diverse literatures in English in different parts of the world after the

colonial rule of England was the consequence of an urge to articulate a cultural equilibrium or an urge to strike back. The process of canon formation is also a focused and bigoted act, and is always carried out to accomplish certain self-centred objectives. It is commonly accepted that canon formation is executed to accomplish or naturalize certain ideological functions. In the sphere of Indian English literature, Indian English fiction after the end of the 1980s has emerged as a new “canon”. This book looks into the process of literary canon formation in Indian universities, and examines such fiction as an alternative literary canon and as an anti-imperialistic response to the British literary canon. The book ascertains the anti-imperialistic design involved in forming the canon of post-1980 Indian English fiction, examines the gradual emerging trends in such fiction, and discerns the role of language, culture, and native ethos in the formation of a canon. It also differentiates post-1980s Indian English fiction from British fiction, bhasha fiction, and even from pre-1980s Indian English fiction. Teaching Ethics through Literature Igniting the Global Imagination [Routledge](#) Teaching Ethics through Literature provides in-depth understanding of a new and exciting shift in the fields of English education, Literature, Language Arts, and Literacy through exploring their connections with ethics. The book pioneers an approach to integrating ethics in the teaching of literature. This has become increasingly relevant and necessary in our globally connected age. A key feature of the book is its integration of theory and practice. It begins with a historical survey of the emergence of the ethical turn in Literature education and grounds this on the ideas of influential Ethical Philosophers and Literature scholars. Most importantly, it provides insights into how teachers can engage students in ethical concerns and apply practices of Ethical Criticism using rich on-the-ground case studies of high school Literature teachers in Australia, Singapore and the United States. Literary Communication as Dialogue Responsibilities and pleasures in post-postmodern times. Selected papers 2003-2020 [John Benjamins Publishing Company](#) As traced by Roger D. Sell, literary communication is a process of community-making. As long as literary authors and those responding to them respect each other’s human autonomy, literature flourishes as an enjoyable, though often challenging mode of interaction that is truly dialogical in spirit. This gives rise to author-respondent communities whose members represent existential commonalities blended together with historical differences. These heterogeneous literary communities have a larger social significance, in that they have long served as counterweights to the hegemonic tendencies of modernity, and more recently to postmodernity’s well-intentioned but restrictive politics of identity. In post-postmodern times, their ethos is increasingly one of pleasurable egalitarianism. The despondent anti-hedonism of the twentieth century intelligentsia can now seem rather dated. Some of the papers selected for this volume develop Sell’s ideas in mainly theoretical terms. But most of them offer detailed criticism of particular anglophone writers, ranging from Shakespeare, Ben Jonson and other poets and

dramatists of the early modern period, through Wordsworth and Coleridge, to Dickens, Pinter, and Rushdie. **English and Literacies Learning How to Make Meaning in Primary Classrooms** [Cambridge University Press](#)

Being literate in the twenty-first century means being an empowered receiver, user and creator of diverse text types communicated across multiple and rapidly changing modalities. **English and Literacies: Learning to make meaning in primary classrooms** is an accessible resource that introduces pre-service teachers to the many facets of literacies and English education for primary students. Addressing the requirements of the Australian Curriculum and the Early Years Learning Framework, **English and Literacies** explores how students develop oracy and literacy. Reading, viewing and writing are discussed alongside the importance of children's literature. Taking an inclusive and positive approach to teaching and learning for all students, it explores the creation of texts using spelling, grammar in context and handwriting/keyboarding skills, as well as the need for authentic assessment and reporting. Finally, the text explores the importance of literacy partnerships and how teachers can address literacy challenges across the curriculum. **The Nature of the Page Poetry, Papermaking, and the Ecology of Texts in Renaissance England** [University of Pennsylvania Press](#)

An innovative study of books and reading that focuses on papermaking in the Renaissance **In The Nature of the Page**, Joshua Calhoun tells the story of handmade paper in Renaissance England and beyond. For most of the history of printing, paper was made primarily from recycled rags, so this is a story about using old clothes to tell new stories, about plants used to make clothes, and about plants that frustrated papermakers' best attempts to replace scarce natural resources with abundant ones. Because plants, like humans, are susceptible to the ravages of time, it is also a story of corruption and the hope that we can preserve the things we love from decay. Combining environmental and bibliographical research with deft literary analysis, Calhoun reveals how much we have left to discover in familiar texts. He describes the transformation of plant material into a sheet of paper, details how ecological availability or scarcity influenced literary output in the sixteenth and seventeenth centuries, and examines the impact of the various colors and qualities of paper on early modern reading practices. Through a discussion of sizing—the mixture used to coat the surface of paper so that ink would not blot into its fibers—he reveals a surprising textual interaction between animals and readers. He shows how we might read an indistinct stain on the page of an early modern book to better understand the mixed media surfaces on which readers, writers, and printers recorded and revised history. Lastly, Calhoun considers how early modern writers imagined paper decay and how modern scholars grapple with biodeterioration today. Exploring the poetic interplay between human ideas and the plant, animal, and mineral forms through which they are mediated, **The Nature of the Page** prompts readers to reconsider the role of the natural world in everything from old books to new smartphones. **Oswaal CBSE Sample Question Papers Class 10 English Language &**

[Researching and Teaching Reading Developing pedagogy through critical enquiry Routledge](#) Many agree that engaging in research is what makes a teacher's professional development sustainable, and [Researching and Teaching Reading](#) studies the ways in which research and teaching are entwined both within and beyond the classroom. Gabrielle Cliff Hodges encourages readers to deepen their understanding of reading through high-quality teaching and research activities designed to engage young learners and generate rich research data, in the expectation that teachers will wish to adapt or develop them further within their own contexts. The author explores how teachers' research and critical reading can further develop their understanding of their students' reading practices and argues that innovative approaches to teaching integrated with research enable English teachers to re-construct ideas and change how reading is taught. Key issues considered in this book include: Studying reading in terms of extending young people's ability to interpret and enjoy texts; The idea of reading as a social practice; The concept of culture in relation to reading; Why historical and spatial theoretical perspectives matter when researching and teaching reading. This book is a valuable resource for any student teachers or practising English teachers wishing to learn more about the connection between researching and teaching reading,

how to combine them in the classroom and the positive effect bringing the two together can have on their own professional development. Drawing on a vast corpus of over 80 works and integrating the latest research in multimodality and stylistics, Linda Pillière analyses the modifications introduced to make British English texts more culturally acceptable and accessible to the American English reader. From paratextual differences in cover, illustrations, typeface and footnotes to dialectal changes to lexis, tense, syntax and punctuation, Pillière explores the sociocultural and ideological pressures involved in intralingual translation and shows how the stylistic effects of such changes - including loss of meaning, voice, rhythm and word play - often result in a more muted American edition. In doing so, she reveals how homing in on numerous small adjustments can provide fascinating insights into the American publishing process and readership. Contemporary critical research has questioned the theoretical foundations of the nativeness paradigm, which still exerts a strong influence in the language teaching profession. Written by well-known researchers and teacher educators from all over the world, both NSs and NNSs, the selected

contributions of this volume cover a great variety of aspects related to the professional role and status of both NS and NNS teachers in terms of both perceived differences and professional concerns and challenges. The strongest aspects of this volume are the global perspectives and the implications for future research and teacher education. It is precisely this international perspective which makes this volume illustrative of different realities with a similar objective in mind: the improvement of second language teaching and teacher education. In today's world, being a NS or NNS should not really matter but rather teachers' professional competences. This publication thus provides a forum of reflection and discussion for all L2 educators who need to be aware of how much they might offer to their future students. **Literary Knowing and the Making of English Teachers The Role of Literature in Shaping English Teachers' Professional Knowledge and Identities** [Taylor & Francis](#) At a time when knowledge is being 're-valued' as central to curriculum concerns, subject English is being called to account. **Literary Knowing and the Making of English Teachers** puts long-standing debates about knowledge and knowing in English in dialogue with an investigation of how English teachers are made in the 21st century. This book explores, for the first time, the role of literature in shaping English teachers' professional knowledge and identities by examining the impacts, in particular, of their own school teaching in their 'making'. The voices of early career English teachers feature throughout the work, in a series of vignettes providing reflective accounts of their professional learning. The authors bring a range of disciplinary expertise and standpoints to explore the complexity of knowledge and knowing in English. They ask: How do English teachers negotiate competing curriculum demands? How do they understand literary knowledge in a neoliberal context? What is core English knowledge for students, and what role should literature play in the contemporary curriculum? Drawing on a major longitudinal research project, they bring to light what English teachers see as central to their work, the ways they connect teaching with their disciplinary training, and how their understandings of literary practice are contested and reimaged in the classroom. This innovative work is essential reading for scholars and postgraduate students in the fields of teacher education, English education, literary studies and curriculum studies. **Vernacular English Reading the Anglophone in Postcolonial India** [Princeton University Press](#) How English has become a language of the people in India—one that enables the state but also empowers protests against it Against a groundswell of critiques of global English, **Vernacular English** argues that literary studies are yet to confront the true political import of the English language in the world today. A comparative study of three centuries of English literature and media in India, this original and provocative book tells the story of English in India as a tale not of imperial coercion, but of a people's language in a postcolonial democracy. Focusing on experiences of hearing, touching, remembering, speaking, and seeing English, Akshya Saxena delves into a previously unexplored body of texts from English and Hindi literature, law,

film, visual art, and public protests. She reveals little-known debates and practices that have shaped the meanings of English in India and the Anglophone world, including the overlooked history of the legislation of English in India. She also calls attention to how low castes and minority ethnic groups have routinely used this elite language to protest the Indian state. Challenging prevailing conceptions of English as a vernacular and global lingua franca, Vernacular English does nothing less than reimagine what a language is and the categories used to analyze it. **Statutes and Ordinances of the University of Cambridge 2015** [Cambridge University Press](#) **The official Statutes and Ordinances of the University of Cambridge. The original research presented here integrates a variety of research methods: inter-disciplinary approaches, historical and comparative methods, documentary research and so on. The research findings can be described briefly as follows: In global governance, the Universal Declaration of Human Rights (UDHR) serves as a historic cross-cultural heritage, while Pengchun Chang, the Chinese representative, made great contributions to the establishment of the international human rights system. After examining the characteristics of the Chinese discourse on human rights in global governance, the book suggests fundamental principles for improving human rights standards in China. In addition, it explores Chinese concepts of human dignity concerning the Declaration on Human Dignity for everyone, everywhere. The target readers are global scholars and students of law, politics, philosophy, international relations, human rights law, religion and culture. The book will provide these readers a vivid picture of China's contributions to international human rights, and a better understanding of the significance of traditional Chinese culture and wisdom.** **Oswaal Karnataka PUE Sample Question Papers, II PUC, Class 12 (Set of 4 Books) Physics, Chemistry, Mathematics, English (For 2022 Exam)** [Oswaal Books and Learning Private Limited](#) **10 Sample Papers in each subject.5 solved & 5 Self-Assessment Papers. The category of 'the literary' has always been contentious. What is clear, however, is how increasingly it is dismissed or is**

unrecognised as a way of thinking or an arena for thought. It is sceptically challenged from within, for example, by the sometimes rival claims of cultural history, contextualized explanation, or media studies. It is shaken from without by even greater pressures: by economic exigency and the severe social attitudes that can follow from it; by technological change that may leave the traditional forms of serious human communication looking merely antiquated. For just these reasons this is the right time for renewal, to start reinvigorated work into the meaning and value of literary reading. Rick Rylance addresses the debate over the public value of literary studies in a book which starts from the widely-remarked predicament of the humanities in modern times. By comparison with science, technology, engineering, and mathematics, the humanities can be negatively characterised as at best optional extras; at worst, frivolous and wasteful. Funders and policy-makers can question their value in terms of utility, vocational prospects and intrinsic worth, while journalists and commentators predict extinction. So what is the justification for literature at the present time? Rylance argues that literature's value lies in its enormous public presence and its contribution to the public good. Far from being apologetic for our investment in literature, he argues for its value to all parts of our society from economic productivity to personal and social wellbeing. He examines discussion of literature's public role over time, taking in key moments of self-reflection such as Sir Philip Sidney's 'Defense of Poesy' (1581) and work by John Mill and Ruskin. He reviews current arguments about how culture creates value: from the idea of 'public goods' in economics to the value of reading for social consciousness in cognitive psychology. The book makes strong claims for the importance and urgency of reading literature today. *Teaching Space, Place, and Literature* [Routledge](#) Space, place and mapping have become key concepts in literary and cultural studies. The transformational effects of postcolonialism, globalization, and the rise of ever more advanced information technologies helped to push space and spatiality into the foreground, as traditional spatial or geographic limits are erased or redrawn. *Teaching Space, Place and Literature* surveys a broad expanse of literary critical, theoretical, historical territories, as it presents both an introduction to teaching spatial literary studies and an essential guide to scholarly research. Divided into sections on key concepts and issues; teaching strategies; urban spaces; place, race and gender and spatiality, periods and genres, this comprehensive book is the ideal way to approach the teaching of space and place in the humanities classroom. *Handbook of Research on Teacher Education Innovations and Practices in Asia* [Springer Nature](#) This comprehensive book presents emerging research findings and promising reform practices in the field of teacher education, curriculum, assessment, teaching and learning approaches, pedagogical innovations, and professional development in educating the next generation of globally competent students. Singapore, Malaysia, Thailand, Philippines, Vietnam, Cambodia, Laos, Myanmar, Indonesia, Brunei, India, Pakistan, Bangladesh, Bhutan, China, Korea, Taiwan, Japan, Hong Kong, and Macau. The handbook contains chapters written by experienced international teacher educators who draw on their experience and expertise to perennial issues and formidable challenges in teacher preparation and meaningful school reforms. This volume is a valuable resource and essential companion for teacher educators, faculty members, staff developers, trainee teachers, undergraduate and postgraduate students, researchers, school leaders, policy-makers, and professional learning communities to refresh their knowledge and improve their understanding.
