Canadian Books in Print 2002 CBIP is the complete reference and buying guide to English-language Canadian books currently in print; consequently, the

Author and Title Index, Subject Index and microfiche editions are indispensable to the book profession. With submissions from both small and large publishers, CBIP provides access to titles not listed anywhere else. Containing more than 48,000 titles, of which approximately 4,000 have a 2001 imprint, the Author and Title Index is extensively cross-referenced. The Subject Index lists the titles under 800 different subject categories. Both books offer the most complete directory of Canadian publishers available, listing the names and ISBN prefixes, as well as the street, e-mail and web addresses of more than 4,850 houses. The quarterly microfiche service provides updated information in April, July and October. CBIP is constantly referred to by order librarians, booksellers, researchers, and all those involved in book acquisition. In addition, CBIP is an invaluable record of the vast wealth of publishing and writing activity in the scientific, literary, academic and arts communities across Canada. A quarterly subscription service including the annual Author and Title Index (March 2001) plus quarterly microfiche updates (April, July, and October 2001) is also available. Life Resources in education The Catholic Periodical and Literature Index Dimensions of Social Life Essays in Honor of David G. Mandelbaum [Walter de Gruyter](#) New York Magazine New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea. Silver Jubilee Review National Library of Medicine Current Catalog Annual cumulation First multi-year cumulation covers six years: 1965-70. The Catholic Periodical Index The Biomaterials: Silver Jubilee Compendium [Elsevier](#) The journal Biomaterials was launched in 1980. The subject of biomaterials science was then in its infancy, being largely confined to the study of the characteristics of materials used for medical devices. Twenty-five years on, we can truly say that biomaterials science has matured at an incredible rate and now represents a formidable sector that bridges the materials sciences, advanced medical therapies, and molecular and cell sciences. This Silver Jubilee Compendium consists of reprinted versions of the top 25 papers, published during these 25 years, as judged by an international panel of biomaterials scientists. This book is published as a landmark in biomaterials science and it is to be hoped that it will serve as a stimulus to young biomaterials scientists of the early twenty-first century for their pioneering work of the future. Girl Scout Collectors' Guide A History of Uniforms, Insignia, Publications, and Memorabilia [Texas Tech University Press](#) A welcome new edition of a standard—unavailable for nearly a decade! In more than nine decades of Girl Scouting, a vast popular and material culture has given rise to a wealth of Girl Scout history collections. More than an identification guide to uniforms, insignia, and other Girl Scout objects, this work also documents when changes occurred and why new items were introduced. Placing these objects in context, this essential guide provides a discerning look at the history and development of the Girl Scout Movement in the United States. Scholars and aficionados of Girl Scout history, costume history, women's studies, popular culture, and dress will welcome this indispensable and definitive resource. This new, expanded edition, with hundreds of illustrations, photographs, and tables, is indisputably the go-to source for information on all Girl Scout uniforms, insignia, awards, and handbooks, as well as dolls, postcards, posters, calendars, and more—from the founding of the Girl Scouts in 1912 through the present day. “An invaluable resource to Girl Scout councils managing a history collection. And, beyond that . . . an informative and intriguing glimpse . . . into the evolution of a Movement that . . . today is the world's preeminent organization dedicated solely to girls.” —Cynthia B. Thompson, chair, National Board of Directors, and Kathy Cloninger, national chief executive officer, GSUSA “An indispensable reference for collectors; a fascinating resource for anyone interested in Girl Scouting, this comprehensive guide to Girl Scout memorabilia is firmly grounded in the history of the Girl Scouts of the United States. Mary Degenhardt and Judith Kirsch show us what Girl Scouts wore and read, and explain how changes in uniforms, insignia, and publications reflect the evolution of Girl Scout programs and the expansion of opportunities for American girls. Reading this book is like walking through a fine museum where material culture brings the past to life.” —Anastasia Sims, author of *Negotiating Boundaries of Southern Womanhood* [Bibliography of the History of Medicine Quarterly Journal of the Geological, Mining and Metallurgical Society of India](#) [School Life History of Indigenous Pharmaceutical Companies in Colonial Calcutta \(1855-1947\)](#) [Routledge](#) In the context of life and civilization, the pharmaceutical industry is as old as human existence. Since time immemorial India had its own enriched indigenous tradition of medicine. The development of alchemy and its application for human welfare was also an important step in Indian scientific tradition. The present monograph is an innovative attempt to understand the history of the indigenous pharmaceutical companies in Calcutta during the colonial times. Here pharmaceutical companies have been viewed as an illuminating lens to understand the interconnectedness between Indian traditions of thought and Western science and subsequent development of pharmaceutical industry in colonial India. The entire gamut of discussion centres around the issues of medical education, medical services, public health, pharmaceutical profession and politico-economic contexts of the development of pharmaceutical industry in colonial India. Three indigenous pharmaceuticals namely - [Butto Krishna Paul & Co.](#), [Bengal Chemical & Pharmaceutical Works Limited](#), and [East India Pharmaceutical Works Limited](#) have been studied. The study not only portrays the politico-economic background to the emergence of the pharmaceutical industry in colonial India but links it to the economic nationalism and the quest for self-sufficiency among Indian nationalists and entrepreneurs. The pharmaceutical industry in India can be symbolic of a cultural response to modern science which was to pave the subsequent trajectory of national scientific endeavours in India. The Book of Life Country Life A Hopkins Chronology Springer This Hopkins chronology describes the poet's family and early education, then gives a day-by-day account of what he was doing, reading and writing, and the people he met. Drawing on some material not published before, it illustrates the working life of a priest-poet whose work was not made public until more than thirty years after his death. There are additional sections on the religious and political background of a major Victorian writer whose life was essentially enigmatic and private. Astronautics and Aeronautics, 1974: A Chronology
