KEY=STUDY - UNDERWOOD REGINA

LORD OF THE FLIES

Penguin Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new **Suggestions for Further Reading** by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

A WRINKLE IN TIME

GENERAL PRESS A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most

popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

SOCIOLOGY THROUGH THE PROJECTOR

Routledge Sociology through the Projector takes issue with the question of how contemporary film can help answering the general, abstract but still urgent question: what is the social today? This book explains the performative relation to contemporary social theory in which cinema functions as a tool for social diagnosis. There is much to be learned about social theory through an encounter with films as films are part and parcel of the society they portray. Increasingly more lay knowledge about social problems and facts stems from cinema as it offers to large audiences a popular and pedagogical introduction to social knowledge. Social theory cannot avoid a critical engagement with cinema as cinema interprets, invents, displaces and distorts the object of sociological inquiry. This book will provide a deeper understanding of contemporary social theory as the chosen films will work as a pedagogical route into contemporary social theory. The films represent a mix of European and American blockbusters and more aesthetically orientated films. The authors question several dominant topics and concerns within social theory and film studies. Firstly, by cross-examining a series of concepts such as identity, representation, memory and surveillance (filming social behaviour) which are of concern to both film theory and social theory. Secondly, by trying to develop imaginative approaches to standard social concerns such as exclusion, gender roles and inequalities, power, infantilisation and commodification of the social and psychological bonds. This book will be a great resource for students and researchers of Sociology, Contemporary Social Theory, Film Studies and Cultural Studies.

THE LAST LECTURE

Hachette Books "We cannot change the cards we are dealt, just how we play the hand."---Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

TEACHING SECONDARY ENGLISH

READINGS AND APPLICATIONS

Routledge This new edition of Teaching Secondary English is thoroughly revised, but its purpose has not changed. Like the popular first edition, it balances content knowledge with methodology, theory with practice, and problem-posing with suggested solutions. The tone and format are inviting, while addressing student-readers on a professional level. Rather than attempting to cover everything, the text provides a framework and materials for teaching a secondary English methods course, while allowing considerable choice for the instructor. The focus is on teaching literature, writing, and language--the basics of the profession. Attention is given to the issues that arise as one seeks to explore what it means to "teach English." The problems and tensions of becoming a teacher are discussed frankly, in a manner that helps students figure out their own attitudes and solutions. Features: * Focuses on a few central concepts in the teaching of secondary English * Provides an anthology of 22 readable and challenging essays on key topics--allowing students to hear a variety of voices and opinions * Includes an applications section for each reading that extends the discussion and asks students to explore problems and grapple with important issues related to the articles * Offers short writing assignments in questions that follow the readings and in brief writing tasks in the

applications, and a longer writing assignment at the end of each chapter * Addresses student readers directly without talking down to them New in the Second Edition: * This edition is shorter, tighter, and easier to use. * The opening and concluding chapters more directly address the concerns of new teachers. * The anthology is substantially updated (of the 22 articles included, 14 are new to this edition). * Each essay is preceded by a brief introduction and followed by questions for further thought. * There are fewer applications, but these are more extensive and more fully integrated within the text. * A writing assignment is provided at the end of each chapter. * Interviews with college students--before and after student teaching--are included in Chapters 1 and 6. * The bibliographies at the end of each chapter are fully updated.

Foster's classic guide—a lively and entertaining introduction to literature and literary basics, including symbols, themes, and contexts—that shows you how to make your everyday reading experience more rewarding and enjoyable. How to Read Literature Like a Professor helps us to discover those hidden truths by looking at literature with the eyes—and the literary codes—of the ultimate professional reader: the college professor. What does it mean when a literary hero travels along a dusty road? When he hands a drink to his companion? When he's drenched in a sudden rain shower? Ranging from major themes to literary models, narrative devices, and form, Thomas C. Foster provides us with a broad overview of literature—a world where a road leads to a quest, a shared meal may signify a communion, and rain, whether cleansing or destructive, is never just a shower—and shows us how to make our reading experience more enriching, satisfying, and fun. IN THE BEST INTEREST OF STUDENTS

STAYING TRUE TO WHAT WORKS IN THE ELA CLASSROOM

Stenhouse Publishers What is in the best interest of our students? Is it teaching to the newest standards movement, like the Common Core? Teaching that prepares students to take a test? Or is it something more meaningful and authentic? In his new book, *In the Best Interest of Students*, Kelly Gallagher notes that there are real strengths in the Common Core standards, and there are significant weaknesses as well. He takes the long view, reminding us that standards come and go but what remains constant is the need to stay true to what we know works in the teaching of reading, writing, speaking and listening. Instead of blindly adhering to the latest standards movement, Kelly advocates:

- Dialing up the amount of reading and writing students are doing.
- Balancing rigorous, high-quality literature and non-fiction with high-interest, student-selected titles.
- Giving students much more choice when it comes to reading and writing activities.
- Encouraging readers to deepen their comprehension by moving beyond the "four corners of the text."
- Using modeling to enrich students' writing skills in the prewriting, drafting, and revision stages.
- Helping young writers to achieve more authenticity through the blending of genres.
- Resisting the de-emphasis of narrative and imaginative reading

and writing. · Providing students with more opportunities to sharpen their listening and speaking skills · Planning lessons that move beyond Common Core expectations. In this provocative and insightful new book, Kelly surveys the teaching landscape since the publication of his highly regarded book *Readicide*, and finds that although some progress has been made, more needs to be done. Amid the frenzy of trying to teach to a new set of standards, Kelly Gallagher is a strong voice of reason, reminding us that instruction should be anchored around one guiding question: What is in the best interest of our students?

COMPREHENSION [GRADES K-12]

Using a structured, three-pronged approach—skill, will, and thrill—students learn to experience reading as a purposeful act and embrace struggle as a natural part of the reading process. Instruction occurs in three phases: · Skill. Holistically developing skills and strategies necessary for students to comprehend text. · Will. Creating the mindsets, motivations, and habits necessary to engage fully with texts. · Thrill. Fostering the thrill of comprehension and using the knowledge for something else.

READING COETZEE'S WOMEN

Springer This is the first book to focus entirely on the under-researched

but crucial topic of women in the work of J. M. Coetzee, generally regarded as one of the world's most significant living writers. The fourteen essays in this collection raise the central issue of how Coetzee's texts address the 'woman question'. There is a focus on Coetzee's representation of women, engagement with women writers and the ethics of what has been termed his 'ventriloquism' of women's voices in his fiction and autobiographical writings, right up to his most recent novel, *The Schooldays of Jesus*. As such, this collection makes important links between the disciplines of literary and gender studies. It includes essays by well-known Coetzee scholars as well as by emerging scholars from around the world, providing fascinating and timely global insights into how his works are read from differing cultural and scholarly perspectives.
