Teaching and Learning Mathematics Online

CRC Press Online education has become a major component of higher education worldwide. In mathematics and statistics courses, there exists a number of challenges that are unique to the teaching and learning of mathematics and statistics in an online environment. These challenges are deeply connected to already existing difficulties related to math anxiety, conceptual understanding of mathematical ideas, communicating mathematically, and the appropriate use of technology. Teaching and Learning Mathematics Online bridges these issues by presenting meaningful and practical solutions for teaching mathematics and statistics online. It focuses on the problems observed by mathematics instructors currently working in the field who strive to hone their craft and share best practices with our professional community. The book provides a set of standard practices, improving the quality of online teaching and the learning of mathematics. Instructors will benefit from learning new techniques and approaches to delivering content. Features Based on the experiences of working educators in the field Assimilates the latest technology developments for interactive distance education Focuses on mathematical education for developing early mathematics courses

The Unorthodox Guide to Getting A In Math Exams

A guide for student, teachers and parents.

EnjoyLearn After tutoring more than 50 students for Advanced Level Mathematics on a one to one basis since 2013 in Singapore, a Singapore math home tutor discovers what differentiates students who are successful at math from those who don't. The key differentiator is the individual student's approach to study and this book explains those that work as well as those that inhibit the student's potential to do well. The tutor also shares his personal approach of learning math that helped him get A for math exams all the way from Primary School to Junior College.
